

BACK ACHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."

—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.
Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

When a mother detects from the writing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

WORKING FOR REUNION

David Lloyd George Speaks to British Liberals.

Sir John Simon Grows Sarcastic and Hints at Opportunism in His Reply to Former Coalition Premier—Hon. H. H. Asquith Will Speak on Proposal During Coming Week.

LONDON, March 5.—Replying to Lloyd George's appeal uttered in Edinburgh last week for a reunion of the Liberal forces, Sir John Simon, one of the leaders of the Independent Liberal party, in a speech at Cleckheaton, said Lloyd George, in dealing with the qualifications for political life, omitted the only one that really commanded public confidence, "the quality of speaking what you really believe, and of not changing your political destination with every wind that blows."

Continuing, he said that united action was really the preliminary to formal unity, and he complained of the attitude of the National Liberals in the House of Commons on several recent occasions. Fighting Liberals, said Simon, would welcome with all their hearts every newcomer who would fight alongside them for the Liberal cause, but he believed Liberalism would become impotent if it took over the liabilities of the past four years which drove the last coalition into political bankruptcy.

The reply of H. H. Asquith, leader of the Independent Liberals, to Lloyd George's new movement for a reunion of the two Liberal forces will probably be forthcoming when he speaks at Cambridge on Wednesday. The London Chronicle, Lloyd George's mouthpiece, expresses the hope that Mr. Asquith will be as plain and outspoken as was Lloyd George last week. He will not likely disagree with what Lloyd George said as to the need for rewording a united Liberal party, says the Chronicle, and adds: "Unless the party cleavage is healed the party will perish. The new orientation of our politics with a strong Labor party on the left and a modernized Tory party on the right renders it as certain as tomorrow's sunrise. The Liberal rank and file are coming to realize this, and if the leaders were prevented from agreeing they would, we believe, strive hard to agree without them."

WAS LIKE WILD WEST.

Gun Play Started the Citizens of North Bay.

NORTH BAY, March 5.—The calm of Main street was given a rude jolt when pedestrians were treated to a miniature gun battle—revolver shots and all on Friday afternoon. The occasion was an attempt by Chief of Police Morbey and Plainclothesman Fred Lefebvre to arrest Gus Marsalino, who was suspected of having liquor in his new automobile.

Gus was spotted proceeding down Main street with two women and another Italian in the car and was ordered to stop by Lefebvre, who took his position in the middle of the road, at the corner of Cassel and Main streets. Gus stepped on the gas and passed the constable only to be met at the corner of Klock and Main streets by the chief, who gave the halt signal again to no avail.

When Marsalino refused to stop four shots promptly were fired from the chief's revolver, three of them entering the left rear tire and the fourth puncturing the front tire. Marsalino was found to have a bottle of liquor in the car and a charge was laid of having liquor in other than his private dwelling. Marsalino settled out of court for \$200 with \$27 costs.

Dog Saves Six Lives

BELLEVILLE, March 5.—Barely escaping with their lives, the family of Thomas Kimmery, living near Albury, Prince Edward county, sustained heavy losses Saturday, when their home was burned to the ground. They owe their lives to the alertness of their dog, which barked and growled and finally broke a pane of glass in its efforts to warn its master and his family of their peril. The origin of the fire is a mystery. It appears to have started in the east wing of the house, which was not used in the winter time. The family lived in the west side, and were able to escape by putting on the few clothes they could gather as they woke from sleep. Very little else was saved. Neighbors are looking after the family, comprising Mr. and Mrs. Kimmery and four young children.

Liquor Plebiscite in Manitoba.

WINNIPEG, March 5.—Submission of both the petition of the Moderation League and the Beer and Wine League petition to the people early in June is under consideration by the Provincial Government. The feeling is said to exist among Government members that it would not be proper to submit the petition presented by the Moderation League and ignore the one presented to the Legislature by the Beer and Wine League. The Moderation League's proposal is for Government sale and control of liquor of all kinds in the province, while the Beer and Wine League

asks the right to sell beer and wine in hotels with meals.

Bullet Removed From Lung.
OSHAWA, Ont., March 5.—Hawley Byron, the local ticket clerk, who was found in his room at the Lake unconscious from two bullet wounds and now lies in the local hospital hovering between life and death, went under the X-ray and Dr. F. J. Rundle removed the bullet which pierced his lung and lodged in the muscles of his back. He is reported as resting more easily. If his condition warrants it he will again undergo the X-ray to-morrow to locate the bullet in his head. No cause as yet has been learned for the tragedy.

SEIZED THREE CITIES.

French Continue to Advance Into German Territory.

PARIS, March 5.—Three great German cities with nearly 1,000,000 inhabitants—Karlsruhe, Mannheim and Darmstadt—are now as good as occupied by a French expeditionary force.

The Darmstadt railway center and the Karlsruhe and Mannheim ports were taken over Saturday, although the cities themselves had not been occupied.

Troops headed by armored automobiles and cavalry moved forward at dawn across the Rhine, meeting only a chilly, sleepy welcome. Not more than 1,000 soldiers were engaged for the occupation of each strategic point.

The occupation of the cities themselves, demanding the use of at least two divisions, can be only a matter of time. In order to fill the gap behind, as these troops are brought up, colored soldiers are likely to be moved in.

In some quarters it is asserted that the new French advance has got so much to do with turning the thumb-screw on Germany as with checking the reiterated refusal of Gen. Godley, British commander, at Cologne, to allow the French to use the main left bank Rhine railway through the British area.

It is stated that with the further move forward to Marburg it will be possible for the French to organize a direct railway system on the right bank of the Rhine from Essen to Strassburg, via Frankfurt. But to occupy Frankfurt.

It is reported here French and Belgian Governments have agreed on a settlement with Germany which would render the Versailles Treaty null and void, at least as far as France, Germany and Belgium are concerned.

As is unlikely, the occupation of Karlsruhe, Darmstadt and Mannheim should lead Chancellor Cuno to offer the olive branch when the Reichstag opens Tuesday, the French and Belgian Governments, acting jointly, will present their terms.

President Thomas and Poinecaré drew up this plan last week after considerable differences in the French Cabinet. War Minister Maginot, backed by President Millerand, urged that the new treaty should be drawn up without regard for neutrals or former allies. The moderates won, however, and it is probable the offer, when it is made, will be indicated to all the Governments interested and will be found not altogether to ignore their interests.

"DRY" WORKER ARRESTED.

He Must Face Theft Charge in Windsor.

LONDON, Ont., March 5.—Charged with the misappropriation of \$3,000 of the funds of the Essex Provision Co. of Windsor, now defunct, Hughson Johnston, of South London, employed by London Motors, Limited, as a stock salesman, was placed under arrest by the local police Friday night, and was taken back to Windsor to stand trial. Provincial Officer Moran had charge of the prisoner.

Johnston's wife was asphyxiated in a gas chamber at her home on Elmwood avenue, here, two weeks ago, leaving a family of eight children. He is a former resident of Windsor, where for a time he worked with Rev. J. O. L. Spracklin as a prohibition officer. He had taken a prominent part in prohibition matters in the Border City, and was one of the committee which brought the famous "Pussyfoot" Johnston to lecture there. Before his arrest Johnston told a reporter here that he did not know why the Windsor warrant had been issued, but that he had determined to go at once to that city and have the matter cleared up.

The complaint against Johnston was made by J. E. Stone, License Inspector for South Essex, who alleges that the dry leader failed to deliver stock of the Essex Provision Co. for which he had paid him \$3,000. Stone in the warrant, charges Johnston with converting the money to his own use.

KILLED BY MOONSHINE

Dead Man's Friend Now Faces Serious Charge.

William Belore May Be Held Responsible for the Fact That Cyranus Marr Died From the Effects of Poisonous Liquor—Arrest Was Unexpected and Prisoner Says That He Did Not Supply Drink.

ST. THOMAS, March 5.—The arrest of William Belore of Fingal late Friday night, and his arraignment before Magistrate Maxwell Saturday on the charge of having caused the death of Cyranus Marr of Iona on the night of January 20 by giving him an alcoholic poison, proved an unexpected development. The Fingal "moonshine" tragedy which has created so much interest during the past four or five weeks.

Belore was one of Marr's companions on the night of the fatality, and swore at the inquest that the liquor had been purchased by Marr from a young man just outside of London, about a fortnight prior to the fatal drinking spree.

Early last week Albert Ward of Toronto, a special investigator for the Ontario License Commission, arrived in the district; and Belore's arrest is the result. The information against Belore was sworn out by Ward.

The doctors who performed the autopsy found traces of fusel oil in Marr's stomach, and in their report explained that death had evidently been caused by drinking improperly cured whiskey. Belore appeared in the County Police Court a few days after Marr's death and paid a \$15 fine and costs on conviction of being intoxicated in a public place, and about ten days ago he pleaded guilty to the charge of having liquor unlawfully in his possession, paying a \$300 fine and costs.

At that hearing he repeated the statements made at the inquest—that Marr had bought the bootlegger and bought the "moonshine" unknown to him. Three bottles had been procured, he claimed, and one consumed on the journey back to Fingal in Marr's automobile. Marr, he alleged, had become so intoxicated that he had run the car into a railing on a hill west of this city, and fearing that some person might come along and see the other two bottles, Belore stated that he had placed them in his pockets and had taken them home, giving them to Marr the night of the fatal death.

Belore described the liquor as being "white" looking, and possessed of "an awful kick." Belore was remanded to the county jail without bail until Wednesday afternoon, when the preliminary examination will take place. He seemed quite unconcerned about his position when arraigned in court.

HANGS ON TO THRONE.

King Alfonso Denies Rumor That He Will Abdicate.

MADRID, March 5.—King Alfonso, in the course of a striking speech at the inauguration of the new Library of Fine Arts Saturday, gave definite denial to rumors of the possibility of his abdication.

After a speech of the director of fine arts, in which he announced the approaching foundation of a new art school, the king arose and said: "It will give me much pleasure to lay the foundation stone of the new school, and if possible, also the last stone. I say this because of the recent rumor published in a newspaper indicating that I was about to abdicate. I am not a deserter."

"I desire to remain at my post. I am always ready to do my duty, and even to die if necessary in executing it."

"The King of Spain could never abdicate in order to avoid dealing with the problem and difficulties presenting themselves."

Alfonso said the Madrid newspaper which published the rumor was misinformed, and had acted in an incorrect manner.

Ex-Kaiser Sentimental.

LONDON, March 5.—A special correspondent of the Daily Chronicle writes:

"A family event, I learn, is expected to take place in a few months' time at Doorn House, the ex-kaiser's place of exile in Holland. The ex-kaiser is particularly anxious that the first-born on his second marriage should not see the light of day 'in exile.' In order to avoid this negotiations have been going on for some time to enable the ex-kaiser to enter into possession again of his villa in Corfu. If the negotiations are successful he hopes that the coming scion of the House of Hohenzollern may be born on that island."

"The ex-kaiser knows it is too much to expect permission to go with his consort to Corfu, but he hopes the princess may be permitted to go there some time before the birth of the child."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective is mild.

Ice on Lake Erie Moving.

BUFFALO, March 5.—Fishermen on both sides of Lake Erie were compelled to abandon their lines and make for shore in haste Sunday when an 84-mile-an-hour gale churned up the open water and started huge cracks in the shore ice.

Nine men marooned on the breakwater were brought to shore by the life-saving crew. They reported that all their companions on the United States side succeeded in reaching land.

At Crescent Beach, on the north shore of the lake, five fishing parties abandoned automobiles in which they had gone over the ice to the fishing grounds earlier in the day. The ice is not breaking up into floes, and it is believed the machines can be saved.

Treaty Ratified.

WASHINGTON, March 5.—The treaty between Canada and the United States to control halibut fishing in North Pacific waters was ratified by the United States Senate Saturday just before adjournment. It had been blocked temporarily by Senator Jones, Republican, Washington, but was approved Saturday with an amendment by Mr. Jones providing that its restrictions against Canadian halibut fishermen should apply to all other British nationals.

The treaty establishes a closed halibut season from November 16 to February 15 and creates a joint commission to regulate North Pacific halibut fishing.
