

Digby County Monitor

(Received too late for last issue) Capt. Arthur Casey arrived here Saturday from Halifax. Miss Frances Young returned Saturday from Halifax. Rev. Fr. Mackie, of Annapolis, was in Digby for the week end. Mr. O. G. Byrne returned last week to his home in New York. Mrs. Harry Hersey was a passenger to Meteghan Saturday. Mr. W. E. Tupper was among the passengers to St. John Saturday. Schr. Cupola, Capt. Peter Canoe, is in port with 50,000 lbs. of mixed fish. The "Mac Edwards" Company played to a well filled house Saturday evening. Miss Edna Robinson, of Annapolis, is relieving at the Telephone Office, Digby. Mr. Clifford Smith was successful in capturing the first "Deer" of the season. Mr. C. L. Bowdler, of the Bank of Nova Scotia, returned Monday from Aylesford. Mr. E. E. Reagh, who spent a few days in Digby, returned to Middleton Monday. Mr. James Dillon and Mr. "Teddy" Dakin were in Middleton for the week end. Mr. Hubert Syda, who was a passenger from Halifax last Tuesday, returned Monday. Miss Nettie McKinnon and Mr. Clifford Beaton spent Thanksgiving in Weymouth, N. S. The Misses Ella and Bessie McCullen, who spent the summer in Digby, returned to New York Saturday. Miss Olivia Wright left Wednesday for Dorchester, Mass., where she will visit her sister for several weeks. Mrs. Sarah E. Dunn returned Saturday after several weeks' visit at her son's C. P. Dunn, Yarmouth North. Mr. P. C. R. Harris, mgr. of the Royal Bank of Canada, left Thursday for Halifax on his holidays. Mr. J. L. Snook is relieving manager here. Miss A. E. Walsh, of the Royal Bank of Canada, left Monday for Middleton to visit Miss Etella Cummings. Mr. and Mrs. Harry Turnbull, of St. John, who have been visiting Mr. and Mrs. John O. Turnbull, returned Saturday. Mr. and Mrs. Guy Dunn and son Webster who have been on a visit to Boston for three weeks, returned home Saturday. Mr. John Rawding, of Clements-Port, has been appointed parlor car conductor on the night train from Halifax to Yarmouth. Mr. Fred McHugh's family are moving this week to Halifax where they will in future reside. Mr. McHugh is doing a prosperous business in that city. Schr. A. W. Longmire, Capt. A. W. Longmire, arrived here Friday with 70,000 lbs. of fresh fish, which were purchased by the Maritime Fish Corp. Mr. M. E. McKinnon has accepted a position in Weymouth setting up the machinery in the new pulp mill. He is being assisted by his son Joseph McKinnon.

COULDN'T LEAVE HOUSE FOR YEAR

Hamilton Tells of His Wife's Remarkable Improvement Since Taking Tanlac. "Last Sunday my wife was able to be out of the house for the first time in almost a year, and she wouldn't have been out then if Tanlac had not put her on her feet," is the remarkable testimony of William Hamilton who resides at 149 Preston St., Halifax, Nova Scotia, Canada. "Mrs. Hamilton had Spanish Influenza over a year ago," he continued, "and had never been able to overcome the effects of it. Her appetite was gone completely and she fell off in weight and strength until she was as frail and thin as anybody could be and still get around. Her nerves were all torn up and the least little noise would make her jump and quiver like a leaf. Many a night she has lain awake until daylight in nervous misery. She complained of dull throbbing headaches and it has made me actually suffer at times to see her so weak and run down and in so much pain. Somebody else had to attend to all the housework as she could just barely creep about the house and hadn't been able to go out of doors for nearly twelve months. She was confined to the bed most of the time and even when she would get up in her room while she really ought to have been in bed. "It sure was a surprise to me to see her build up the way she has since she started taking Tanlac. Her appetite is just fine now, why she told me the other day that if she kept on she would eat us out of house and home. Every day she seems stronger and more like her old self and she never complains of being tired and weak and run down anymore. Last Sunday she went out for a long walk with me for the first time she's been out of the house in nearly a year. She seems like a different person and is beginning to feel that her troubles are all over. Tanlac is the only thing that ever did her any good, and we are happy as we can be over the way she has recovered her health since she has been taking it and we are glad to recommend it all the time." Tanlac is sold in Bridgetown by S. N. Wear, in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

Agriculture

Fertilizer on Pasture

Judging by the correspondence received at the Agricultural College, quite a number of farmers will this Fall apply fertilizer to at least a few acres of pasture land. The results from this practice at the College Farm have been so striking that the College authorities feel that the practice should be urged on many more farmers. The story told by the experiments at Truro, is briefly this. The total cost of grain in live weight, including interest on investment, fencing and all incidentals, was \$1.00 cents per lb. on pasture, as compared with 15 cents per lb. in winter in the stable, with feeds at pre-war prices. The improvement in grazing capacity of pastures to which fertilizer was applied was equally striking. From this date until the snow flies is the time to make this application of fertilizer. Good results have been obtained from the use of slag, acid phosphates and wood ashes, but almost any fertilizer will give results. It is not good practice, however, to apply material which is very rich in ammonia, since it leaches out of the ground in winter. The phosphoric acid, lime and potash, which are the main ingredients in the above-mentioned varieties, will not leach out but will become the better incorporated with the soil during the winter months.

Prevention of Rot in Potatoes

The Department of Agriculture, Entomological Division, last year experimented with a number of chemical solutions for the prevention of rot in potatoes. Of course there is no way to save the tubers which are infected. All that can be done is to prevent the infection from spreading to sound potatoes. The experiments were of necessity from the nature of the case, more or less inconclusive. It is exceedingly difficult to detect rot in its early stages by ordinary inspection, and therefore difficult to know the exact results of treatments tried. The solution which seemed to give best results was one of copper sulphate (bluestone) 1 lb. to 40 gallons water. The sound tubers were put in wire baskets and dipped in this mixture, then allowed to dry out. It should be understood that this is not given out as a result of scientific investigation. Large quantities of potatoes were being shipped and the experiment was a commercial one. While the Department does not advise, therefore, that this should be relied on as a preventive, the results were sufficiently promising to warrant its being tried out on moderate quantities.

Seed Grain Distribution

(Experimental Farms Note) The annual free distribution of samples of seed grain is being conducted at the Central Experimental Farm, Ottawa, by the Dominion Cerealists. The following kinds of seed grain will be sent out this season: Spring Wheat (in about 5-lb. sample), White Oats (about 4 lb.), barley (about 5 lb.), field peas (not garden peas) (about 5 lb.), field bean (early ripening, only for districts where the season is short) (about 2 lb.), flax for seed, about 2 lb., and flax for fibre, about 2 lb. Only one sample can be sent to each applicant. Applications must be on printed forms which may be obtained from the Dominion Cerealists at any time after Sept. 1st. As the stock of seeds is limited farmers are advised to apply early to avoid disappointment. No application forms will be furnished after Feb. 1st, 1920. G. E. SAUNDERS, Dominion Cerealists.

Death of Reginald Reese

The death of Reginald Reese, son of Mr. and Mrs. John Reese, occurred at his home in Upper Granville Friday night at the age of 29 years. The deceased, who was a member of the Bridgetown Baptist Church, was noted for his integrity and kindness and led an industrious life. He is survived by his parents, four brothers and two sisters. The funeral, which was largely attended, took place Monday with interment in the Riverside cemetery, the services being conducted by Rev. M. S. Richardson. Don't be angry if your poem is returned with the editor's regrets. Preserve the manuscript and read it over ten years later. Then you will rejoice that it was thus. Mrs. W. A. Gilliat has returned from a visit with her aunt at Clements-Port.

A TONIC FOR THE NERVES

The Only Real Nerve Tonic is a Good Supply of Rich, Red Blood.

"If people would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else. The sort of thing which the specialist spoke of is the nervous run-down condition caused by overwork and the many anxieties of to-day. Sufferers find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve pains are part of the misery, and it all comes from starved nerves. Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to cure nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills actually make new, rich blood, which strengthens the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all 'out of sorts' you should begin curing yourself to-day by taking Dr. Williams' Pink Pills. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The church stands for the religious basis of all life, and must never lose itself in details. Nothing is more repulsive than philanthropic work carried on without the tender human sympathy and the spiritual insight which enabled the worker to heal the wounds of society. Social reform, if constructive, must be based on sound principles. Each proposal must contribute to some thought-out achievement. Beyond question the driving power in the movement which has so largely curtailed the liquor evil has been an aggressive humanity inspired by the Gospel of Jesus. Economic, political and social considerations have reinforced the appeal of the church, but the main power after all has been the conscience created, informed and sustained by religion. The actual churches are as human as are the men and women who come to them from the clubs, boards of trade, and trade unions, where they meet for other purposes. One has but to consider for a moment what society would be like, if the quiet abiding influence of the churches were removed, to decide that despite certain ineffectiveness, the church is an indispensable factor in the moral life of the nation. Mechanical adjustments of the social arrangements carried on without the insight born of reverence for God and man will be disappointing. Can the force of religion be made more effective? Can religion itself stand forth more distinctly than ever, disentangled from mischievous associations with questionable science, history, and politics; to sustain the inward life of social progress? No question is more urgent; and the fact that all the churches have awakened to face it is full of encouragement. The Inter-Church Forward Movement, with the National Campaign in each church, appeals to every citizen to face anew the basal questions of life. It seeks to make God more real in personal life, and a greater force in social organization. The overwhelming sense of responsibility of each Christian, and every group to God, for promoting the life of all God's children, will alone create the atmosphere in which real social progress can be made. The Inter-Church movement, therefore, invites all Christian people to stress anew the fundamental facts; reverence to God as

Marine News

Annapolis Spectator: The new schooner Peaceland has received her anchors and has her sails bent.

Capt Chas McBride, of Waterville, Kings Co, left recently for Chatham, N. B., to take command of a four masted schooner.

The Freeport schr M. B. Hams, arrived in Yarmouth on Sunday from Clark's Harbor with a cargo of 108,000 lbs of pickled fish consigned to the Frank E. Davis Co, at Freeport. After taking on gasoline and water on Monday the schooner proceeded to her destination.

Annapolis Spectator: Captain Collins went to Meteghan on Saturday to inspect the new steamer being built there for the Valley S. S. Co, and which will soon be ready for launching. She will be brought to Annapolis Royal to have her engines installed and receive her equipment for the service between Annapolis and St. John.

New regulations governing the lobster packing industry of the maritime provinces are provided for in an amendment to the meat and canned food act of which notice has been given by the government. The resolution provides for a more exact definition of dry lobster meat and dry meat, for a direct description of the contents of cans of fish and shell fish, including minimum weight and that no weight be used without the written permission of the fisheries department. Provision is also made for the correct labelling of all cans of fish or shell fish imported into Canada and other places, including weight of contents, place of origin and the names of the packer and also of the importer.

TWO SCHOONERS LAUNCHED

The schooner of St. Mary's Bay section of the Province have during the past few days been treated to two spectacular launchings. The first was at Belliveau's Cove, on Thursday when B. Belliveau & Co, launched the beautiful three master Rose Anne Belliveau, all rigged and practically ready for sea. This vessel is slightly smaller than those that have previously been built along the St. Mary's Bay shore and measures about 135 feet over all, 105 feet keel, 30 feet wide, 11 feet deep, 281 tons net and is classed A 1 for twelve years in Bureau Veritas. The schooner will be held at Belliveau's Cove where she will load lumber for the West India market. The Rose Anne Belliveau will be commanded by Capt Raymond Comcu, now in the schooner Edith Belliveau, loading at Hayti, for Philadelphia, where he will leave her to return home and take his new command. The other launching was at Meteghan River on Saturday, when the Doceat Shipbuilding Co, launched the tern schooner Celeste D, named after the youngest daughter of E. U. Doucet, manager for the company. This splendid vessel, which is classed A 1 for twelve years in the Bureau Veritas, measures 164 feet over all, 145 feet 6 inches keel, 37 feet 4 inches wide, 13 feet deep, 594 tons net, and 649 gross tons. She is splendidly finished and equipped in every particular, and can be readily classed as the last word in modern marine architecture. She is fitted with a 15 horsepower Fairbanks Morse hoisting engine, and every known device for the quick handling of the sails and anchors, and if occasion should require the power can be very readily attached to the ship's pumps.

seen in every man; the brotherhood of the human family; wealth as held solely in trust for God's life in the world; and all life a means of expressing God's thoughts and purpose, rather than a means of private gain. ERNEST THOMAS, Board of Social Service.

RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble Since Taking "Fruit-a-tives"

103 CHURCH ST., MONTREAL. "I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good. Then I began to use "Fruit-a-tives", and in 15 days the pain was easier and the Rheumatism much better. Gradually, "Fruit-a-tives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers." P. H. McHUGH. 50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.
