

pies a floor space of 60 by 165 feet, may be seen one of Prof. Draper's remarkable recording barometers, with which instrument a complete record is kept of the atmospheric changes. This barometer was built specially for the *Scientific American*, and it is a remarkably fine and sensitive as well as a very expensive instrument.

Some idea may be had of the extent of the business done at the office of the *Scientific American* when we state that over one hundred persons are employed by MUNN & Co, on their several publications and in their extensive patent departments.

PREMIUMS.

Ma. Lewis C. Beatty, of Washington, N.J.,
whose "ad" appears this month writes us that
he has made two more importations of mottled
Anconas, which he considers a great addition to
the fancy fowl of this country.
