We have an excellent variety of patterns now in the hands of the wholesale trade for Spring.

They are up-to-date in style, colors, and fabric, equal in every respect to the imported, in the same classes of goods, and **cost you less money.**

We can produce goods **right**, because we keep abreast of the times, both as to skilled help, material, and most modern equipment.

All the leading wholesale houses in Canada handle our productions. Ask to see them. If your supply house does not keep them we can direct you where you may see them.

Remember, we make all-wool goods, and use **no cotton** whatever.

We make to order, and sell to the wholesale trade only.
