

NEW YORK EXCHANGE.

MARKET ERRATIC.

TOBACCO VERY STRONG.

BROOKLYN RAPID TRANSIT FIRM.

GRANGERS A SHADE OFF.

New York, 12 a.m., June 25.

We have had a variable market. A fair business has been done for a summer Saturday. The only notable change in prices has been for Tobacco. This stock has risen steadily for some time past, and higher prices are claimed for it. Brooklyn Rapid Transit still advances. This is one of the stocks that should be held for a long turn.

General Electric, Louisville & N., the Grangers, and Pacifics were all steady to strong. Sugar is over-sold, and from this fact it enjoys considerable strength. On advances, sell.

New York, (9.30 a.m.), June 25.

Practically uninterrupted advance of our troops on Santiago, indicating speedy capitulation of that city, should be strong influence in the market today, otherwise yesterday's developments may cause continued irregularity.

Market gradually assuming midsummer character.

Advanced transcontinental freight rates today may further help Pacific Stocks.

No funding scheme in Burlington & Quincy, until bonds mature.

New York, (10.25 a.m.), June 25.

Market is quiet but steady, commission houses doing very little.

London bought some stocks, and Williston and Barnes bought Sugar. Henry bought Tobacco, and Houseman sold.

New York, 9.55 a.m., June 25.

The market for Americans in London is flat and presents few features of interest.

Prices are practically unchanged from our closing, active issues being quoted from 1/8 lower to 1/8 higher.

It is said that the fortnightly settlement, which will begin in London on Monday, is expected to show a moderate short interest in Americans, but beyond this fact little of interest is expected to be disclosed.

All along during the war, some people who have been anxious to see the stock market lower, have been arguing that soon as our forces were landed on Cuban soil, the number of casualties would largely increase and this seems to have been justified by yesterday's engagement.

NEW YORK GRAIN MARKET.

New York wheat closes, July 79c, Sept. 72c, Dec. 72 1/2c.
Corn—July 36 1/2. Sept. 37 1/2. Dec. 37 1/2.
Oats—July 27 1/2.

BROOKLYN RAPID TRANSIT.

New York, (9.55 a.m.), June 25.
There is no abatement of the bullish feeling in Brooklyn Rapid Transit among officers and close allies of the companies. This is the season for heavy earnings, and large increases are looked for today and tomorrow. The bullish sentiments of the Flower party have not been modified.

PEOPLE'S GAS.

There is more People's Gas litigation, and papers in a new suit against the company have been filed. This time the holders of some \$3,000 of underlying securities are contesting the constitutionality of the People's Gas consolidation. The Livingston suit is still on, and to these causes may be attributed the heaviness of the stock in yesterday's market.

BALTIMORE & OHIO.

It is announced that 20,000 shares of the Garret holdings of the Baltimore & Ohio have been disposed of to a N. Y. syndicate, who is favorable to reorganization. This ought to have a stimulating effect upon the price of Common stock.

MONTREAL GOSSIP.

Continued from page 4.

RICHELIEU & ONTARIO.

Richelieu has been neglected this week, only one sale of fifty shares, at 103 having been made. This stock should commend itself to investors, the present management having hitherto made a success of all their undertakings.

Their business this year has been very satisfactory and the addition of the new boats, should add greatly to their Western business, which has hitherto been a weak spot in their earning power.

WAR EAGLE.

This evidently popular mining stock almost monopolized the trading of this week, 85,900 shares changing hands at constantly enhanced prices. Three weeks ago we strongly urged the purchase of this stock, and predicted that it would reach \$2.50 before the end of this month. Yesterday's sales were made on the Montreal Stock Exchange at \$2.52 and in Toronto it sold as high as \$2.56. We now learn from the very latest authority, that this stock has not by any means reached its zenith. Every report received being of a more encouraging nature than the previous ones, and it would not surprise us to
