Pease=Economy Furnaces and Heaters

are made in eleven styles and fifty-five sizes. They are made to burn all kinds of fuel and to warm all classes of buildings, by either the Combination or Warm Air System. For thirteen years these Heaters have maintained an unapproached reputation for Economy, Efficiency and Durability, and the makers are constantly adding improvements suggested by their large experience in the heating business. This engraving shows our latest pattern Economy Warm Air Furnace, for hard coal.
