BRISTOL'S SARSAPARILLA

IS prepared in the most scientific manner, by thoroughly educated Ohemists and Druggists, who have had many years experience. It is not a simple extract from one article, but is compounded of extracts from accumper of Roots, Herbs, Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and homors; and 'these different vegetable extracts are combined in such a way as to retain, in its full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plant found in Honduras is that which we use in this pre-paration; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsa-parilla consists of this concentrated extract, the remainder, as above stated, being composed of extracts from other powerful, cleansing and healing vogetship substances. It does not contain anything that is dengerous, or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold nader the name of Sarsapa la.

By having our own agents at the places where the yearlous roots, drugs, berbs and plants, composing our medicines, are produced, we are enabled to exercise that constant cere in selection which insures uniformity of excellence; and we spare no money and no effort to secure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to the sick of all nations and all countries, that in Bristol's Saffapirilla you have a remedy more reliable than any belore effered you, and which will not disappoint you in the cure of

As a means of building up the constitution that has been broken down by the excessive use of Mercary, Iron, or other Minerals, our Sarsaparilla will he found excellent, and can be administered with process to the weakest patients. As a purifier of the blood and humors in the Spring and early Summer, it will be found unfailing. It can be taken freely at all seasons, rainy or dry. For some of the above diseases the use of the Sarsaparilla must be continued sconsiderable time, especially for those that are bereditary or constitutional in their nature—such as Berefuls; but a faithful compliance with the direcna will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be tound, in all of the above diseases, that a enre will be greatly hastened by using our Bristol's Sugar-coated Pilis, in moderate doses, in connection with the Sarraparilla; they carry off large quantities of morbific or diseased matter set free in thesystem The Sarsaparilla, and in this way facilitate the re.. mrn of normal functional operations.

Aver's Cathartic Pills.

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any hefore so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any

son is, that it is a more reliable and far more effectual remedy than any other. Those who have not, know that it cured them; those who have not, know that it cured them; those who have not, know that it cured them; those who have not, know that it cured them; those who have and all know that what it does once it does always—that it never fails through my fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of romarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscers to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these PHIs rapidly cure:—

For Hyspepsia of Listlessing the stomach, Listlessing the stomach, bowels, it and generally the stomach.

He lox, for the following complaints, which these Pills rapidly cure:— I refer Dyspepsia or Indigention, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache,

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickman, Hilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Hysentery or Diarrhoes, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dronsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this Pill are known, the public no longer doubt what to employ.

Aver's Cherry Pectoral, For Discases of the Throat and Lungs, auch as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and threat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Group, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cared by it.

Asthma is always relieved and often wholly cared by it.

Bronchitis is generally cared by taking the Cherry Pentoral in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

BEAUTIFY THE COMPLEXION

By using Marray & Lanman's Florida Water. It is the most healthful and safest of all coemetics, con-taining no deleterious ingredients, being prepared solely from the floral perfumes of nature, unadulterated by any foreign aubstance whatever. It is suited for use by the blonde and brunette alike, imparting that beautiful, clear softness to the skin so much admired in the fair sex. By regular use at the toilet it tends to

the softress of skin produced by its use taking away the natural inclination of the cuticle to form into ridges and forrows. Morray & Lanman's Florida Water is really the most delightful and efficacions of toilet waters, every thing entering into its composition being of the finest quality, and so combined as to secure their best effects. It never changes nor alters, keeping for any length of time, and in any climate, as delicate and fresh as at the moment of ite preparation. It is also very extensively used as a dentifrice, on account of the

. EXQUISITE FRAGRANCE

which it leaves in the mouth. The proportions should be about a tea-spoonful to a glass of pure water. It centralizes the minute particles of food lodging in the mouth, and which are the prolific cause of decayed teeth, bad breath, and unhealthy, white-looking guma. Moreover, by the use of Murray & Lauman's Florida water the breath is made sweet and pleasant, and the teeth white without any danger of injuring the snamel, a difficulty of existing with nearly all the mouth lotions and powders for the teeth. As a general thing, ladies who make any pretensions to refinement desire to have

SOFT WHITE HANDS.

We believe that there is nothing will tend more to produce this effect than the constant use of Murray & Lanman's Florida Water mixed with the water in the basin. It removes reduces and roughness. The ladies of Cuba and South America were the first to discover the extraordinary virines of this floral water as a coemetic, and, after twenty-five years of every-day use, they have decided that it is only fragrant the distillation combining all the requisites for a sefe and reliable beautifier of the skip, as we'l as an exqueitely delicate perfums. Probably the most disistinctive feature of Murray & Lanman's Florida Water is its wonderful
