

6. Each Party, where it has reasonable grounds to believe that a vessel flying the flag of another State has engaged in any activity that undermines the effectiveness of conservation and management measures adopted for the Convention Area, shall draw this to the attention of the flag State concerned and may, as appropriate, draw the matter to the attention of the Commission. The Party in question shall provide the flag State with full supporting evidence and may provide the Commission with a summary of such evidence. The Commission shall not circulate such information until such time as the flag State has had an opportunity to comment, within a reasonable time, on the allegation and evidence submitted for its consideration, or to object, as the case may be.
7. Each Party, at the request of the Commission or of any other Party, when provided with relevant information that a vessel under its jurisdiction has carried out activities which contravene the measures adopted pursuant to this Convention, shall carry out a thorough investigation, and if appropriate proceed in accordance with its national legislation and inform, as soon as possible, the Commission and, if applicable, the other Party, of the results of its investigations and the actions taken.
8. Each Party shall apply, in accordance with its national laws and in a manner consistent with international law, sanctions of sufficient gravity as to be effective in securing compliance with the provisions of this Convention and of measures adopted pursuant thereto and to deprive offenders of the benefits accruing from their illegal activities, including, as appropriate, refusal, suspension or withdrawal of the authorization to fish.
9. The Parties whose coasts border the Convention Area or whose vessels fish for fish stocks covered by this Convention or in whose territory the catch is landed and processed shall cooperate with a view to ensuring compliance with this Convention and with a view to ensuring the application of the conservation and management measures adopted by the Commission, including through the adoption of cooperative measures and schemes, as appropriate.
10. If the Commission determines that vessels fishing in the Convention Area have engaged in activities which undermine the effectiveness of or otherwise violate the conservation and management measures adopted by the Commission, the Parties may take action, following the recommendations adopted by the Commission and in accordance with this Convention and international law, to deter such vessels from such activities until such time as appropriate action is taken by the flag State to ensure that such vessels do not continue those activities.
