## WIDESPREAD RAINS RAISE CORN PRICES

Receipts Promise to Remain Small—Other Bullish Factors in Market.

Chicago, Dec. 20.—Notable strength in the corn market resulted today, largely from widespread rains which threatened further serious hindrance to the crop movement. Prices, although unsettled at the finish, were 1 1/2 to 3 1/2 net higher, with January 1.39 1/2 to 1.39 3/4, and May 1.36 1/2 to 1.36 3/4. Oats closed steady at 40 to 40 cents.

Upward swings began in the corn market right at the opening, and there was an important reaction until just before the close. Profit-taking by longs appeared to be the wholly responsible for the late setback. Throughout most of the time on the fact that country roads were becoming impassable owing to wet weather and continued temperatures, and that receipts, therefore, promised to be small. Other bullish factors were the removal of milling restrictions, Hoover's plan to use German ships to carry food to Europe, and the refusal of the United States to import corn from Argentina to the United States.

Following completion of alterations, we will have available office with 4,500 sq. ft. floor space; also like amount of floor space in smaller offices, etc., all light, heating, ventilation, etc., all first-class.

Apply: Building Manager for full particulars. Main 5750.

## EXPRESS APPRECIATION OF BITTER SACRIFICES

Ottawa, Dec. 20.—Mr. Hon. J. R. Clynes, food controller of Great Britain, has sent to Sir Robert Borden a letter in which he expresses Great Britain's appreciation of the assistance rendered by Canada last September in commandeering butter for consumption overseas.

"Dear Sir Robert: My attention has been drawn to the action recently taken by the Canada Food Board in commandeering butter for this country. I am informed by the butchers of the ministry that without the butter which Canada supplies in this way the butter shortage which we are aware is now, might have had to be discontinued for a time.

"Total butchers, indeed, both to the officials who dealt with the matter and to the consuming population in Canada, for this timely assistance at the most critical period in the matter of butter supplies which we have experienced during the war, and I should be glad if you would express the appreciation of the service of the butchers of our country on our behalf in our time of need."

"Yours very truly, (Signed) 'J. R. Clynes.'"

## LIVE STOCK MARKET

With approximately about 6500 cattle on sale at the Union Stock Yards during the week, the bulk of them, or over 5000, on Monday, the market suffered a severe decline, all classes of butcher cattle falling off from 50c to 15c and some good judges went so far as \$1.00 per cow on Monday. During the week there was no appreciable advance and prices for this class held about steady. The choice heavy cattle about held their own, and the medium to good cows were, if anything, a shade better. The canners and cutters about held steady and there was a fair inquiry for stockers and feeders. During the two days the imperial muttons horse sale was in progress and a lot of farmers were in the city; there was an active demand for feeders and at better prices. Some choice butchers sold around \$12 to \$12.50 and good useful ones at \$11, with a few odd lots per lb. heavy steers as high as \$14.50 and \$15. Light butchers sold around \$8 and hard to dispose. Heavy bulls have been hard to sell, the best of them running from \$10 to \$11.50, fair to good, \$8 to \$9.50, and choice \$9.50 to \$10.50. Bologna \$8 to \$8.25, and canners and cutters, \$5.50 to \$6.

There was a fair run of sheep and lambs all week, about 5000 head, and the market, generally speaking, held steady for all but the heavy lambs, which have been hard to sell. On Thursday the whole market was very sharply, the demand being light and the market closed very weak, say from 13 1/2 to 14 1/2. Sheep

With light runs of calves, the market held steady, and if we include in this connection the baby heifers, we find that there was especially a heavy, anywhere up to \$3 and \$4 per cow. Not in a long time has there been such a heavy cut in the baby beef calves. They came on the market too late for the Christmas trade and there was little lower demand for them. With a run of about 5000 hogs, the price held steady during the week, direct to packers, 18c, fed and watered; 18 1/2c to 19c, off; 17 1/2c, f.o.b., and 17c to the farmer.

With light runs
