### PELTED WITH EGGS.

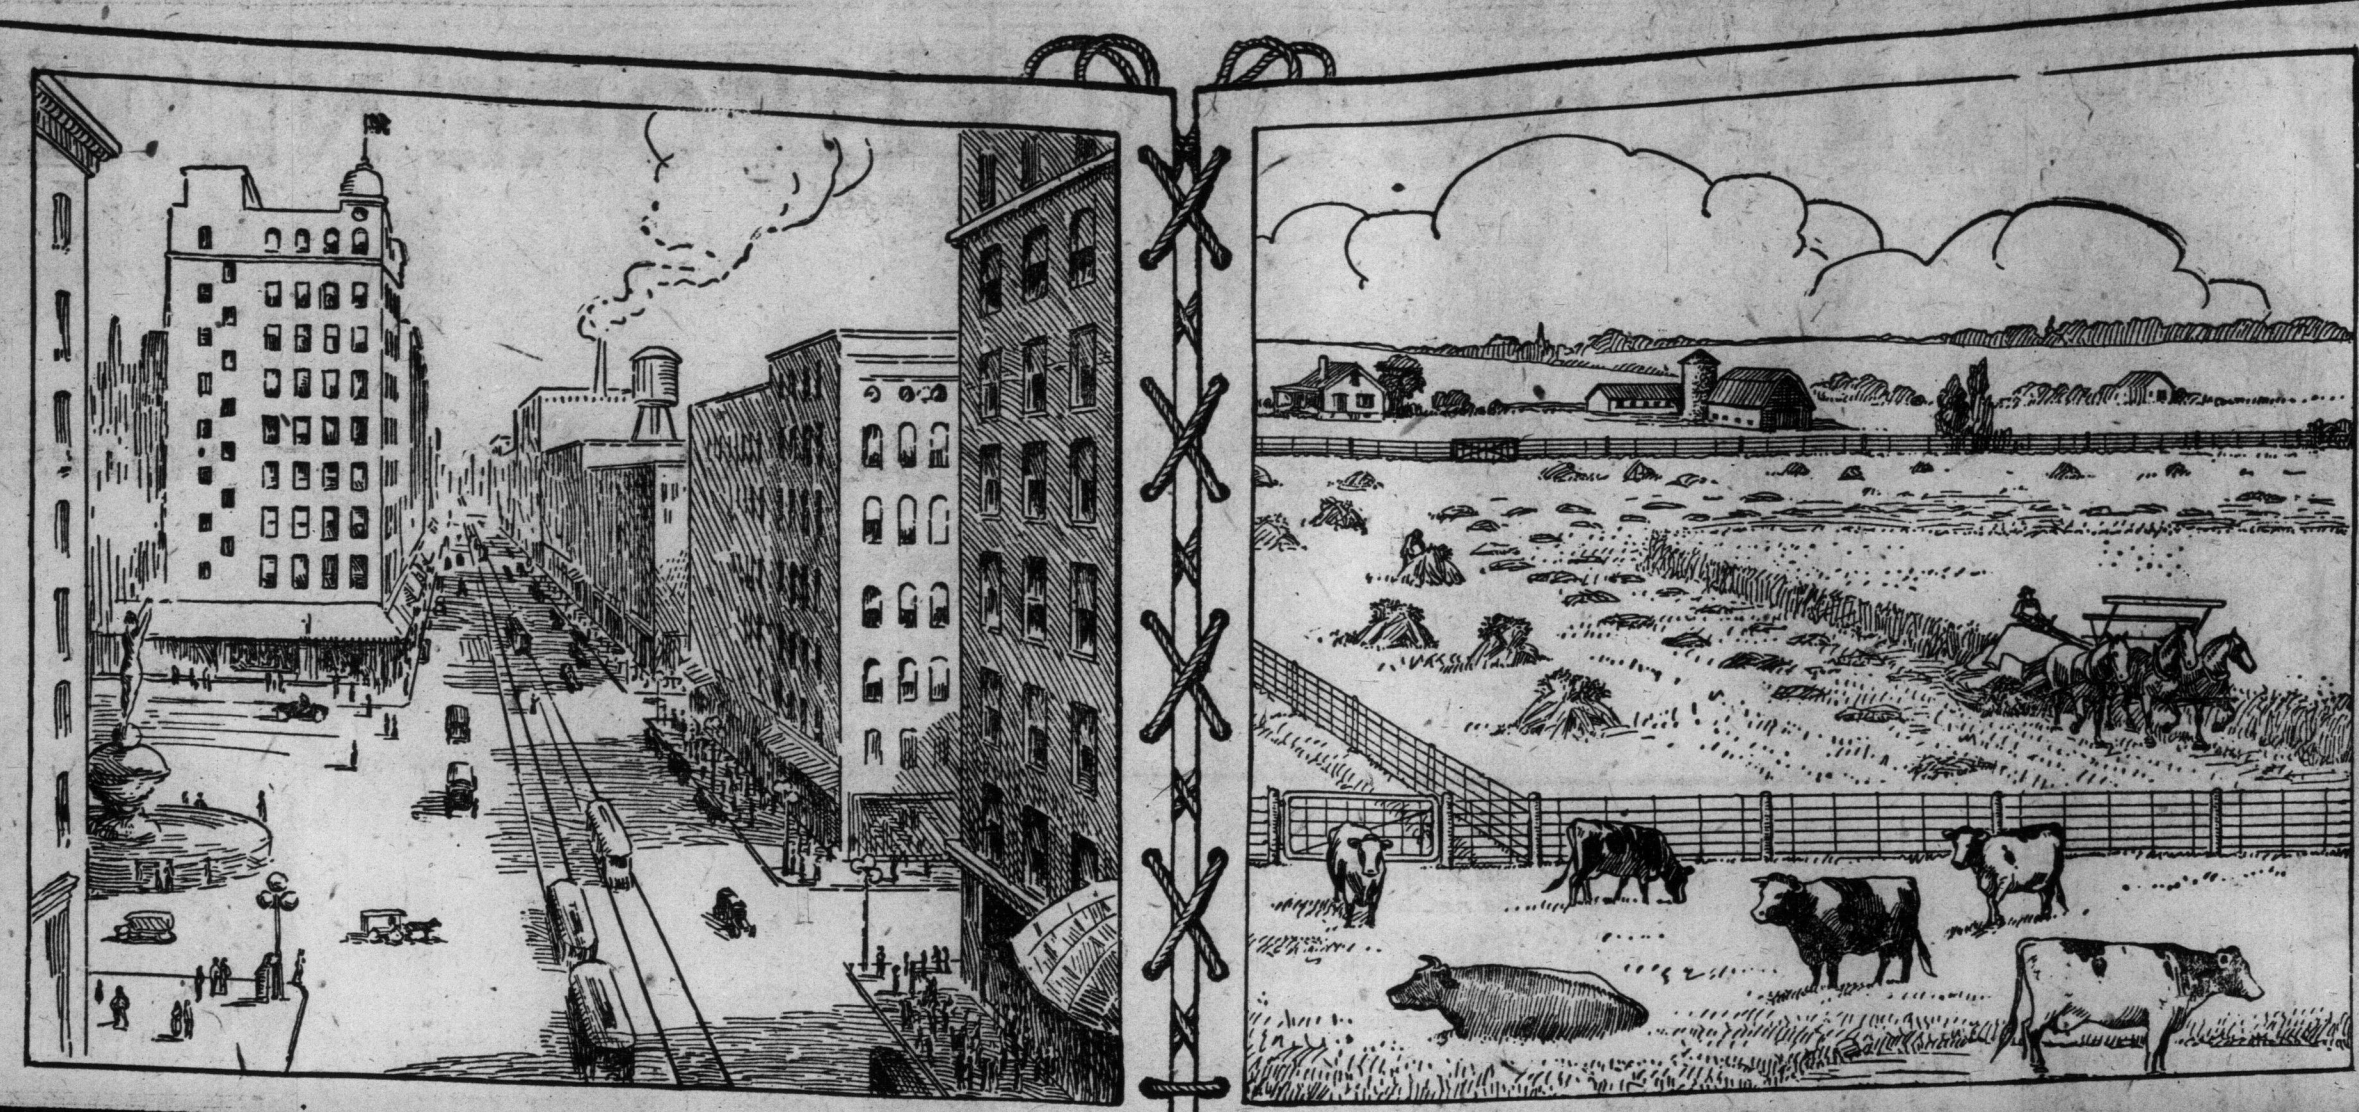

Some people do not like the truth especially when it faces them in the street. The Liberal committee rooms at 555 Queen street have been displaying an illustrated poster bearing the words, "Dewar and Democracy, and Hearst and Democracy." On Friday night the early Saturday morning the display was half torn down and pelted with rotten eggs. The poster presented the very dispirited figures arrived at the office, but even in that state it was a silent confirmation that the truth is not always appreciated.

## BIG CANADIAN MERGER OF THEATRICAL HOUSES

Ten Million Dollar Deal Going Thru Involves Bringing Over British Companies—Includes Grand Theatre in Toronto.

A ten million dollar theatrical merger is taking in a chain of houses from Montreal to the Pacific coast and has been organized by a Canadian syndicate. The plan is to make Canadian productions, establish a theatre in London and bring British productions to Canada. Among the interests taken over, the report states, will be those of A. J. Small, which include the Grand Theatres in Toronto, Hamilton, Kingston, Peterboro, St. Thomas and London, and the Walker Theatre, Winnipeg, and theatres in Calgary, Edmonton, Saskatoon, Regina, Moose Jaw and Victoria. A new theatre will be built in Vancouver. Producing centres will be established

for Canadian plays in Toronto as well as Montreal. The Montreal syndicate will be headed by H. Wyndham Beaudet, while George P. Driscoll, formerly of London and Hamilton, will have charge of the syndicate's active operations. A. J. Small is in Montreal at present presumably in connection with other local theatrical men that the deal involves about ten million dollars. Altho the Shubert and Klaw & Erlanger interests are said to be involved in the merger, it is understood that the Princess and the Alexandra Theatres, which operate with these producers, are not included in the amalgamation.

# City and Farm Equally Benefit

The man in the city and the man on the farm is each concerned with the other's prosperity, and each has equally strong personal reasons for supporting the Victory Loan 1919.

Last year Canada shipped to Great Britain and our European Allies \$496,932,191 worth of the products of our farms.

The future of Canadian Agriculture depends upon holding and extending its export trade in farm products, and the future of city and town prosperity is interwoven with agricultural prosperity.

Great Britain and our European Allies provide a ready market. But as a result of the strain of war, they are short of cash. They must buy on credit for a time.

The British market particularly, we must not—dare not—lose, because we have spent

many long years in cultivating it, and establishing a prestige there for Canadian products.

Great Britain asks for a credit to buy our surplus food stuffs, and Britain always pays her debts. Our ability to extend this credit depends upon the success of the Victory Loan 1919.

Just think what it means to all of us to keep Canadian agriculture prosperous.

Canadian farmers form a large porportion of the buyers of Canada's manufactured products, resulting in trade for the manufacturer and retailer, and employment for the man in city and town.

With the money from the sale of his products the farmer buys agricultural implements, gasoline engines, tractors, wagons, seed, wire fences, fertilizers, milk cans, building material, roofing, furniture, carpets, furnishings, stoves, clothing, boots and shoes, groceries, drugs,

pianos, talking machines, automobiles, papers, and scores of other things.

The city and town man makes these goods, and his wages are spent in his local stores, so that starting with the farmer the chain of trade travels through every class of the community.

The city again furnishes a home market for the farmers. Our cities have been built by our farmers—by those farm boys who have developed genius in organization, business and finance, and who do not have to leave Canada to find a field for their activities. The farm and city are interdependent the one upon the other. Canada requires both, and both prosperous.

Then upon both the man in the city and the man on the farm there rests a direct responsibility. Both must shoulder it and unite in making an overwhelming success of the

### PROSECUTIONS ENTERED BY COMMERCE BOARD

It was said Saturday that J. S. Lundy, the representative of the at-board of commerce, is about to enter two more sugar prosecutions. It is a peculiar fact that, altho the board have held all their enquiries in Toronto and nearly all the firms brought before them have been from the Queen City, not one single prosecution in any branch of trade has been undertaken. The one single prosecution in a sugar case in Ottawa is so far the only legal resultant of the board, and they have been sitting for some months now. There is an order against the packers to become effective next week, but that all accounts it will be again further extended. The public want action, not words, promises or orders. The board should have at least power to enforce their own mandates. Mr. Lundy says he has ordered a prosecution of a gro-
