I CURE MEN!

That's trusting you a good deal, and it is showing a good deal of confidence in my belt. But I know that most men are honest, especially when they have been cured of a serious ailment, and very few will impose on me. As to what my belt will do, I know that it will cure wherever there is a possible chance, and there is a good chance in nine cases out of ten. So you can afford to let me try anyway, and I'll take the chances. If you are not sick, don't triffe with me; but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.

I want you to know what I have done for others.

But some men don't believe anything until they see it. That's why I make this offer. I want to let you see it, and feel it, and know it by your own experience, before I get a cent.

If you are skeptical all I ask is reasonable security for the price of the Belt, and

PAY WHEN YOU ARE CURED.

If I don't cure you, my belt comes back to me and we quit friends. You are out the time you spend on it—wearing it while you sleep—nothing more.

But I expect to cure you if I take your case. If I think I can't cure you I'll tell you so, and not waste your time. Anyway, try me, at my expense. Come and see me and let me show you what I have; or if you can't, then cut out this ad, and send it in. It will bring you a description of my belt.

I believe in a fair deal. If you have a good thing and know it yourself, give others a chance to enjoy it 'n a way they can afford.

I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with a pain or an ache to get the benefit of my Electric Belt.

Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man, this belt is yours without a cent of cost to you until you are ready to say to me. "Doctor, you have earned your price, and here it is."

that Premier Stolypin considers the reorganization of the cabinet to be an accomplished fact. The negotiations are terminated and the premier entertains no doubt of the acquiescence of the emergor with the conditions to which he has agreed.

The program contemplates putting the liberal reform into immediate execution with the design of pacifying the people of the country and preparing the way for next year's douma.

It involves an agrarian program looking to the expropriation of land in extreme cases, but maintaining the principle of the integrity of the private property and the gradual abolition of exceptional laws. It provides for the abolition of the death penalty, except in the army and navy and in places where martial law supersedes the civil administration with military authority. At a late hour this afternoon Premier Stolypin issued a statement to the effect that the assignment of the unfilled portfolios has not as yet been entirely decided upon. This may postpone an aunouncement of the new cabinet for several days, but it is accepted as a fact that the cabinet has been virtually agreed upon and approved by the emperor.

The railway and steamboat lines are carrying bigger crowds this year than ever before, and the month of August promises to break all records for tourist traffic. This very feature adds largely to the activity of Yongestreet stores during midsummer, and the business being done in fine furs is making Dineen's more and more headquarters for out-of-town trade. The fact of 40 years experience, coupled with a reputation for absolute reliability, is making Dineen's famous all over the continent as a furcentre, and visitors are quick to take advantage of the superior values regardless of the season of year.
