Blue Monday. There isn't any cure but work, and the only thing you can do is to fill your days so full of busy, brain-racking, body-fatiguing energy that you go to bed too tired to think. It's the old story: Work is the one salvation, and it's the only thing to exorcise the demon of "Blue Monday."

MISSIONARY CONFERENCE.

No Other Field for Endeavor So Urgent, Says Speaker. The eleventh annual missionary conference of the Victoria University opened last night to an audience much smaller than was expected.

M. D. Madden outlined the student's missionary mission movement, which started twenty years ago, and since that time had furnished to the foreign mission fields several thousand bright young men and women, who had accomplished much in the spread of the gospel.

G. E. Trueman delivered an address, "The Challenge," in which he contrasted the four professions—medicine, law, teaching and preaching—and demonstrated that to those entering life's real work no calling offered so many channels for usefulness to mankind as the latter. In the mission field the sphere was so large and the workers so few as compared with the other professions that no hesitation should be needed as to choice.

The conference continues to-day and to-morrow. The program was continued Saturday and Sunday forenoon and evening. Probation missionaries gave most interesting descriptions of their labors in the field, from which they had recently returned.

J. W. Miller, B.A., spoke of the work among the miners of British Columbia, and the need of fresh recruits for this phase of missionary effort.

C. S. Spence, B.A., from Alberta, stated the want of gospel mission in the remote agricultural districts of that province. Dr. J. J. Allen, M.A., D.D., superintendent of home missions, delivered an able address in which he spoke of the need of fresh recruits for this phase of missionary effort.

Rev. J. J. Allen, M.A., D.D., superintendent of home missions, delivered an able address in which he spoke of the need of fresh recruits for this phase of missionary effort.

Dr. F. C. Stephenson took part in the discussion, relating to each particular report.

Dr. Lawrence from Bella Bella, B.C., told of his mission labors among the Indians and said he found his knowledge of medicine useful in furthering the "white man's work," which had been engaged. As the Indian depended upon the great spirit to answer his prayers, he had seen when his success in curing them of their various ailments had created a great respect for the deity of the Christian Church and had enabled him to convert many to the teachings of Christ. He regulated their marriages with a view to the prevention of polygamy and divorce.

Dr. F. W. Woodworth made several valuable suggestions in the discussion following Dr. Large's address.

Yesterday Rev. T. E. E. Shore, P. Turner, W. A. Gifford, E. B. Miss Ruth Paxon and Rev. Daniel Norman were the chief speakers.

A BAD COLD SETTLED ON THE LUNGS

All the most serious affections of the throat, the lungs, and the bronchial tubes, are in the beginning, but coughs and colds, and failure to take heed at once and get rid of them will cause many years of suffering.

Dr. Wood's Norway Pine Syrup

contains all the lung healing virtues of the pine tree and will certainly cure all coughs and lung troubles. Mrs. Jas. McDowell, Langton, Ont., writes: "In November, 1905, I caught a bad cold that settled on my lungs, so I got two bottles of Dr. Wood's Norway Pine Syrup, and used one and a half of them; that time I was cured. I laid the balance of the bottle away for future use. A few days after our eight months' old baby took the whooping cough. He was so bad we had to call the family physician, but he said he could do but little. I commenced using the Dr. Wood's Norway Pine Syrup and to my great satisfaction the baby was cured. I only used four 25 cent bottles; a small doctor's bill. I believe there is no other remedy for coughs, colds, etc. Price 25 cents a bottle at all dealers.

MARLBOROS TO LIVE APART COURT SCANDAL AVOIDED

Thru Intervention of Royalty, Affairs of Couple Have Been Satisfactorily Arranged.

London, Jan. 19.—The conferences which have recently been going on between relatives, lawyers and others concerning the differences between the Duke and Duchess of Marlborough have resulted in an arrangement by which their affairs will not be brought before the courts and a separation will be effected, so as to avoid publicity.

This was largely brought about thru the intervention of royalty, which is friendly to both sides and desirous of settling the differences involving the ancient ducal house.

While the present status of affairs cannot be stated officially or authoritatively, owing to a mutual desire to avoid discussion, yet the following, gathered from well-informed sources, is believed to embody the most essential features of the arrangement.

Landowne Mediator. Thru the intervention of the Marquis of Landowne, who is the Duke of Marlborough's uncle, the duchess has been induced to take a position favorable to an adjustment. It was during his recent stay at the Marlborough house at Bowood Park that the main features were arranged, and these have since been gone over by the family of the duchess and others concerned.

According to the present arrangement, the duke and duchess will live apart, the duke retaining Blenheim Palace entirely and continuing to enjoy the £100,000 a year settled upon him by the duchess' family, with the custody of their two sons for six months each year, the control of their education until they become of age, and the choice of their professions.

On the other hand, the duchess will enjoy the use of Marlborough family jewels, and will have precedence as a duke's wife, with the right to take her sons with her and one part of the continent during their holidays, but without interference with their studies after the age of 14.

It is also said that the agreement exacts that the boys shall not be taken to America for an extended period until they reach the age to choose a place of residence for themselves.

Will Keep Blenheim. Blenheim will not be closed, as at first intended, and the duke will continue to live there instead of at Woodstock House, where he proposed to make his headquarters when he decided to let his dukedom to the duchess, however, has withdrawn her valuable collection of Sevres china, books and bronzes, antique furniture and pictures by Landowne, to look at, which she took there at the time of their marriage.

Mrs. Oliver F. Belmont, who has been with the duchess for the past five weeks, has done her best to further an understanding between her daughter and the duke, but she has failed. She formed at Sunderland House, where Oliver F. Belmont is also staying.

Although everything had been arranged that the duchess should join her brother at the Villa Franche for a cruise on the Valiant, Mrs. Belmont induced the duchess not to leave London until the present satisfactory arrangements had been made.

Charles Russell of Kilmowen, solicitor for the duchess, has had long interviews with Sir George Lewis, the duke's solicitor. The Marquis of Landowne also helped to bring about a mutual understanding.

The two sons of the duke and duchess will go to Eton College next year.

A TRIO OF INFLUENCES.

Green, Last, Appetite the Means of Perpetuating Liquor Traffic. Controller Dr. Harrison presided at the meeting of the Canadian Temperance League in Massey Hall yesterday afternoon. According to police statistics, he said, the number of apprehended and summoned as drunks and disorderlies during the past year was 7788 persons. Of these 6297 were men and 831 women, and 2092 were under twenty years of age, showing to what extent the liquor traffic is hurting the younger generation of the city.

Illustrating what might be accomplished under prohibition the chairman said that the total arrests for 25 election days was only 12, or less than one a day, whereas police statistics showed that ordinarily there are arrested in Toronto for drunkenness averaged 21 a day. The saloons are closed on election day.

The speaker of the afternoon was Rev. P. W. Emerson of Nebraska. He said that the truism of the liquor traffic was greed, lust, and appetite. These made possible its perpetuation. The foundation principle of the traffic was greed, which showed itself in the actions of our legislature, our municipal bodies and the individual. This principle of greed was not without its influence in the church—influencing not infrequently the men in the pews and sometimes even the minister. The forward march of the church on this question would mean the destruction of the liquor traffic.

Last was the second principle that lent its influence to the existence of the traffic—the power, affecting the legislature and the individual voter.

Next was the third great influence, the belief in honor. Appendix was the Rev. Geo. R. Stuart of Tennessee, who will be the speaker, and a meeting will be held at 3 o'clock in the afternoon and again at 7 o'clock in the evening.

FERGUSON AND SUTHERLAND.

It is announced that G. H. Ferguson, M.L.A. for Grenville, will move, and M.D.A. Sutherland, M.L.A. for South Oxford, will second, the address in reply to the speech from the throne on Thursday next.

Of for Paris. Montreal, Jan. 20.—(Special).—Rodolphe Forget and family left this evening for Paris.

Loosen No Time. Ottawa, Jan. 20.—(Special).—H. A. Comeau, the new senator for Nova Scotia, will be at once presented in the senate. He has arrived in Ottawa.
