This Map can be relied upon for accuracy as to location of the mines indicated. It is drawn from and upon the same scale as the official maps. The shaft houses indicate the correct locations of the workings of the mines. Silver Bird will be seen in the centre of the map.

SILVER BIRD is surrounded by the greatest producing mines in the Cobalt district. **SILVER BIRD** is absolutely inside property, consisting of twenty acres (patented), being the west half of the northeast quarter of the north half of Lot Three, Concession Six, Coleman. **SILVER BIRD** is a mine in full operation, with two 25 h.p. Boilers, Steam Hoist, Steam Drills and all machinery necessary to complete an operating mine. **SILVER BIRD** is working two shifts and is in full operation both day and night, sinking upon three veins and in the same formations identically as in the **O'Brien, Timmons** and **Right-of-Way** mines, and lying immediately between these mines and the **Green-Meehan, Red Rock, Cobalt, Contact** and **Nipissing Extension**. The veins are broadening out and are increasing in values with depth—now 40 feet in the shaft.

SILVER BIRD has no indebtedness. There are no incumbrances against the property or stock of the Company. The capitalization of the **SILVER BIRD COBALT MINES, Limited**, is but \$1,500,000, par value of shares \$1.00 each, with 500,000 shares in the treasury, of which 200,000 shares are now offered to the public for subscription at **15 CENTS PER SHARE**. Considering the inside location of the property, development done, results obtained, low capitalization and the large amount of shares in the treasury, this is unquestionably one of the best bargains, if not the greatest bargain that has been offered in Cobalt mining shares.

We predict this first allotment will be largely over-subscribed, and we advise that early applications be made.
