Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close:

Wheat—The market was extremely nervous to-day and the trading was largely by the local contingent. The prices failed to hold up on account of the moderate business, which made it impossible for large speculators to operate without filling up the bull contingent. The strike of the telegraph operators in San Francisco, which will occur at 3 p.m., Chicago time, and the threatened strike at Pittsburg and New York, has curtailed the trade somewhat. Export business reported as large. There were further damage reports, but the bullish news was offset by the narrowness of the market and fear of the strike. Considering the absence of outside trading and the rather improved climatic condition and the heavy selling by some of the large professionals, wheat acted surprisingly stubborn and the market undoubtedly is in a strong position and will respond easily to any unfavorable news. Think it an excellent purchase, especially on breaks.

Melady & Co. had the following at the close of the market:

Wheat—The market manifested moderate weakness in the early trading, owing to lower cables and continued brilliant weather. Some firmness was caused late in the day by the announcement of 50 loads worked for export, some of it being red winter from Baltimore. A few export sales will not stop a decline if new wheat begins to press on the market freely, but continued disposition of Europe to absorb our surplus stocks, would materially aid in bringing about a bullish sentiment, which is now lacking.

Corn—Acceptances on bids were very small, but weak and profit taking after a rather sharp recovery caused a moderate break in prices during the day. Receipts are rather liberal, but so is the shipping demand and until our stocks increase materially we think corn can be bought on breaks for moderate profits. To sell it at this stage seems rather risky.

Oats—Crop reports favor a firm and higher market and receipts are also very light.

The feature in wheat to-day was a strong afternoon advance, due to reports of a big export business. Previous to this the market acted rather weak under liberal Argentine shipments, easy Liverpool cables and active short selling. Final prices represented a partial ½c net advance; July, 98⅜c to $1.00 3-16, closed $1.00⅛; Sept., $1 to $1.00⅞, closed $1.00⅜; Dec., $1.02⅛ to $1.03, closed $1.02⅝.

FIRES IN NORTH PUT OUT MANY LOTS BURNED OVER

Settlers at Chapleau Had Hard Time Saving Village—Many Lose Supplies.

Word has been received at the parliament buildings that a heavy rain is falling along the line of the T. & N. O. Railway between New Liskeard and Moose Lake, and all danger of further fires in that district is over for the present.

Deputy Minister of Lands Aubrey White was informed from Webbwood that ten or twelve lots were burned over in the Township of Dunlop, and that Scott and Brown, jobbers, had five horses burned to death in Porter Township.

Mr. Henderson, government agent at Sudbury, wrote that Moore and Molthrop had $10,000 worth of supplies destroyed by a fire in the Township of Hardy.

At Chapleau the fire approached so close to the village that it was with the greatest difficulty that the people saved their homes. The whole population had to turn out to fight the flames, and it was only after hours of hard work that the danger was averted.

Chief Fire Ranger Macdonald wired the department yesterday that the fires in James Township were all out. The damage in this district has been very heavy, but no detailed estimate is yet possible.

The chief ranger reports that five miles of the crown reserve between Silver Lake and Bear Creek were burned over, but most of the timber destroyed was jack pine and the pine was practically left untouched.

A corps of specials was sent north yesterday by Hon. Frank Cochrane to make an estimate of the damage done. Their report, however, is not expected for a couple of weeks at the earliest.

The report that three people were burned in one of the fires has not been substantiated, and the department is not inclined to place much faith in the rumor.

HELPING THE LITTLE ONES.

Children's Aid Society to Keep Eye on Young Offenders.

At the monthly meeting of the Children's Aid Society the inspector's report showed that during the month of May 167 cases had been dealt with, involving the interests of 181 children. The majority of these were tried in the children's court, and a large number of boys were let off on suspended sentence.

As a preventive of these becoming criminals, the board is considering the engaging of an officer to visit the homes of the children so sentenced to see their environments, advise, work with and mutually counsel with parents and guardians.

The capacity of the shelter has been unduly taxed with poor unfortunate children. This makes an unusual drain on the finances of the institution, which sadly need replenishing.

BALLASTED WITH GOLD.

Syndicate Will Mine Along Line of C.N.R.

The Ahn syndicate has installed machinery on the gold-bearing region along the line of the C.N.R. near the Vermilion River, and expects to begin extensive operations in extracting the precious metal in the near future.

Th gold was discovered several years ago and there was then a big rush to the spot, but prospectors soon tired when no large nuggets were found, and it was at length practically abandoned. The track of the C.N.R. in this region is said to be literally ballasted with gold, the gravel assaying 50c to the ton.

Ministers Going North.

Hon. Frank Cochrane, minister of lands and mines, and Hon. Nelson Monteith, minister of agriculture, will leave on Sunday night on an extensive trip thru Mr. Cochrane's constituency. They will be accompanied by Hon. Dr. Reaume, minister of public works, if he is well enough to make the journey. He went to his home in Windsor on Saturday last feeling rather unwell, but he hopes to be able to join his confreres in their trip.

A Woman's Kidneys

What Doctors Notice and What They Don't.

Disease in the kidneys is one of the last ailments for which a doctor looks when treating women. This is a great mistake.

Women are very prone to kidney trouble and in fact many physicians attribute a woman's languor and ill health to a derangement of the genital organs, when it's simply plain kidney disease, and nothing else.

Many so supposed female complaints are either kidney or bladder diseases.

Sick kidneys of course make associate organs sick also.

The result is back pains, bearing down sensations, utter weariness and headache.

But Dr. Hamilton's Pills go right to the spot.

They put life into the kidney that makes a worn out woman feel like new.

Indirectly the blood and nervous centres are assisted by Dr. Hamilton's Pills, and the result is a proper performance of the function and a painless fulfilment of nature's command.

Thus it is that a woman can gain much happiness and abundant good health by the regular use of Dr. Hamilton's Pills.

From her home near Portland, Ont., Mrs. A. B. Coburn writes:

"For two years past I have bees sickly and weak. My color was dull and sallow, and I felt exhausted and weary, as if all my strength were being eaten up with some hidden trouble. I heard of Dr. Hamilton's Pills and decided to use them. The change in a few days was surprising. They regulated my kidneys and bowels and cured all my suffering: to-day I am perfectly well."

You can rely on Dr. Hamilton's Pills with implicit confidence; their effect is wonderful. Sold by all dealers. Price 25c per box, five boxes for $1.00, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

THE BEST POSITIONS REQUIRE CAPABLE MEN

The directors of Business Systems, Limited, are in touch with business houses all over Canada who have installed modern systems of accounting, and almost every day are met with requests for capable men to take charge of the new systems they have installed.

CONVENTION WINDS UP.

Waterworks Specialists Express Appreciation of Welcome.

The convention of the American Waterworks Association was wound up after a short session yesterday afternoon. Many of the delegates had left the city, and the thinning-out process left few in attendance at the close.

During the morning a resolution highly appreciative of the city's hospitality was passed.

The presentation of the newly-elected president, George H. Felix, Reading, Pa., by the retiring chief, Dalney H. Marvin of Peoria, Ill., was a pleasant feature in the afternoon. Mr. Felix was received with a hearty demonstration of regard.

The papers read during the day were based on individual experience in dealing with the many problems that confront the waterworks expert. Papers submitted during the afternoon were: "The Sanitary Protection of Surface Water Pipes," by Dr. George A. Soper, New York; "Effective Follow-up System for Complaints," and "Special Fire Protection Service," Albert H. Wehr, Baltimore, and "Operation of Sixteen-foot Siphon," Howard A. Dill, Richmond, Ind.; James McCaird, Troy, N.Y., read a paper dealing with the possibility of water in mains under pressure becoming polluted.

Took Morphine Tablets After Dispute With Husband.

BROCKVILLE, June 21.—(Special.)—Mrs. Sadie Mulholland, wife of Dr. W. H. Mulholland of Heuvelton, committed suicide by swallowing morphine tablets. The woman's act is thought to have been due to domestic troubles.

The couple had disagreed, and the doctor took their child to the home of his parents in Massena. It was during his absence that she took the fatal dose. Some hours later she was found in an unconscious condition, and soon afterwards died.

Deceased was a daughter of James Humphrey of Heuvelton, and was very popular in the neighborhood. She left a farewell letter to her parents.

RURAL PHONES DO WELL.

Other Systems Try to Come In But Cannot Compete.

BROCKVILLE, June 21.—(Special.)—The rural telephone system recently installed in the Township of Kitley is meeting with more and more popular favor every day. Already the lines are up and the system working within three miles of Irish Creek on the northeast side of the township, and on the northwest side by way of Bellamy's Mill to the Township of Bastard's boundary line.

The Villages of Frankville and Toledo have connection, and over 30 instruments have already been installed. They are all working perfectly, and are being patronized very liberally by the farming and business community. Two other telephone systems have sought to establish connections with the Kitley rural system, but as yet the latter maintains its independence.
