Clayton-Bulwer Treaty and Monroe Doctrine.

ANNEXATION OF HAWAII

Parliament in connection with the proposal to annex the Hawaiian Islands to the United States, and were consequentially prepared for the response of the British Government that the one question was not involved in the other. The smatter is regarded here with all the greater interest, because both subjects, the validity of the treaty and the annextation of Hawaii, are under consideration by the American Congress, and both, in all probability, will receive attention during the next session. The Senate Committee on Foreign Relations, which ans already reported upon the annexation treaty, has undertaken an investigation of the present status of the Clayton-Bulwer convention, and the general expectation, on account of the predictions of the members of the sub-committee having the question in charge, is that a report will be made favorable to the Abrogation of the treaty.

There is also a large element in the Senate which regards the treaty as obnoxious to the Monroe doctrine. Others having the question. One of the points in doubt on the part of the committee is show the treaty is regarded by the British, it is suid, not only have asserted a claim to its possession, our Government has not been strongly invessed with the validity of the claim. Meanwhile the British, it is said, not only have asserted a claim to its possession, our formation of the predictions of the members of the sub-committee having the question in charge, is that a report will be made favorable to the State Deparament, but the Senate which regards the treaty as obnoxious to the Monroe doctrine. Others having the question. One of the points in doubt on the part of the committee is show the treaty is regarded by the British, government. It appears that, while England has generally acted in Central American affairs as she would have been expected to act if there had been no treaty, the English authorities have the prediction of the agreement made between Sir Bulwer Lytton and Secretary Clayton.

BERITAIN TOOK PALMYRA posal to annex the Hawaiian Islands to

the reported seizure by Great Britain of Palmyra Island, Polynesia, it is officially stated that the island has been British since 1888. The report is supposed to have arisen-from the fact that H. M. S. Wild Swan called there last May on a periodical visit.

New York, July 28.—A despatch to The Herald, from Paris, says:

If war should break out between the United States and Japan it will be in spite of Marquis Ito personally, as well

spite of Marquis Ito personally, as well as politically.

"In the first place," said Marquis Ito, "I wish you would contradict a statement that I am here, charged with an official mission to strongly protest in the name of my Government against a usurpation fraught with peril.

"Nothing could be further from the truth. The statement is inexact in every particular. Not only have I no official mission in Europe now—I never even had any, nor was I ever charged with such duties by the Japanese Government since I have been in Paris until to-day.

'I firmly believe that the Hawaiian question will be settled without the peaceful relations between Japan and the United States being disturbed in HAVE YOU DROPSY, KIDNEY OF "I came to Europe as one of the suite DOAN'S PILLS WILL CURE YOU.

"I came to Europe as one of the sunter who represented the Emperor at the Jubilee ceremonies in England. That commemoration being over, my duties, only nominal at any time, are now entirely at an end. So I am at liberty to avail myself of the permission the Emperor accorded me to take a holiday in Europe.

has been stated that I have been to Spain to arrange terms for mutual support in the attitude of Spain and Japan vis-a-vis the United States. This quite untrue. "When I was Prime Minister the CURE. peror bestowed an order on the

King of Spain. The insignia were never sent, and it was not convenient at the time for anyone of sufficiently high rank to leave Japan. But the visit of Prince Arisugawa to Europe gave the Emperor an occasion he had been looking for, and so, taking advantage of the opportunity, the Prince went to Spain to present the order to the King, and I, as a matter of course, went also.

"But, although I met the Foreign Minister and all the other officials, the relations of Japan with America were never alluded to, and I never broached the subject of Spain's difficulties in Cuba, and similarly my visit to the Duc de Mandas was only prompted by politeness, and was an acknowledgment of the courtesy he showed me at San Sebastian.

"I do not think it possible that any

And the Little Tangle That Has Come

Up Over the Japan Protest.

"I do not think it possible that any opposition manifested in Japan to the annexation of the Hawaiian Islands by the United States will take any more extended form than a mere protest made—remember this point—made in order that the interests of Japan in those islands may not suffer injury.

"Japan is simply seeking to protect herself and her subjects, and this she is in duty bound to do; but that she will look after her interests in other than a dignified diplomatic way is absurd.

"The Emperor, I know, will not support any believes policy. All my friends in the Ministry or in the control of the different branches of the Government are of the same mind as the Emperor upon this subject, and Japanese public seentiment is one of strong friendship for the United States. Thus the Hawaiian entire the proposal to annex the Hawaiian Islands to the different pranches of the Government are of the same mind as the Emperor upon this subject, and Japanese public seentiment is one of strong friendship for the United States. Thus the Hawaiian question cannot possibly bring about a conflict, either armed or diplomatic, with the Americans, in spite of the United States.
