AN ALARMING SITUATION, We are face to face with a new an alarming situation in Canada. The Gov minion, the Government of the Dominion ack Brussels Net, with jet and sering and the public when a demand is made to bring friday.

10 dids, immense variety of styles and colors, ingested by the public when a demand is made to bring the chine has been gullty are equally as crim inal as housebreaking, forgery or larceny. It has been established that several Ontario and Dominion elections were stolen, literally and actually, by a gang of unprincipled men who were employed for this very purpose by the organizers of the Liberal party and of whose presence at the elections Ministers at Ottawa and Toronto were fully cognizant. The two Governments were consenting parties, negatively at least, to the frauds while they were be-

ing perpetrated. They openly shield the criminals now that the frauds have been disclosed. Evidence has been forthcom-ing to connect Messrs. Mulock, Sutherland, Dryden and Davis with complicity in the perpetration of the frauds. To-day every member of the Ontario and Dominion Gov-ernments stands convicted of harboring ainals, because not one of them has resigned or repudiated the action of their leaders in refusing to bring the criminals to justice. The two Liberal Premiers, Hon. Mr. Ross and Sir Wilfrid Laurier, appear in a contemptible light before the people Canada. The latter, after a lifetime of invective against political corruption, is to day the head and front of the worst elec ion scandal that has ever disgraced this untry. We say Sir Wilfrid is the head nd front of it because he openly shields he guilty ones from prosecution. The Precuntain head of the corruption will be ed. This, however, he refuses to do.

cxposed. This, however, he refuses to do. It is failure to bring the criminals to justice places him on a level with the criminals to justice places him on a level with the criminals to lose sight of the fact that the Government refuses to avail itself of the machinery that has been provided by the law for dealing with the criminals and bringing them to justice.

An entirely new condition of affairs prevalls in Canada to-day. The Government is no longer susceptible to argument. All appeals to its sense of honor and of justice are wasted. The prosecution of criminals and the uncarthing of crimes is the most important function that any Government that to perform. The detection and punishment of crime is the citadel of all our personnal and political liberties. When the Government winks at crime and shields

The Quarterly Board of the Methodist Church met during the week and was highly pleased at the financial condition presented. All current accounts have been to the Ottawa one. From what The World can gather, a great deal more money has been contributed to during the past few months shows a sufficient sum to clear up the outstanding mortgage.

Many of the villagers are sporting foxes as watch dogs inst now, the result of a find of all tire of 14 by Mr. Wesley Charterly.

Miss Harris is having improvemen criminals the political morality of the country must be at a low ebb. When the issue for the relief of its citizens who were tion against men who are dragging the country thru the mire it is time for the honest electorate to consider the advisability of taking the law into their own bility of taking the law into their own

hands. For several years a well-organized and well-disciplined gang of scoundrels have been traveling from one constituency to another stealing the elections for the Liberal candidates. They stop at nothing to accomplish their ends. Larceny, forresorted to to achieve their purpose. The Government takes no measures to put a cumstances, are the people to do? We see by the people taking the law into their own hands. A modified form of lynch law is justifiable under the conditions that prevail in this country. The failure of the Government to prosecute the men who have been engaged in this villainy for years back will only encourage them to continue in their nefarious work in the future. We are averse to mob law as a rule, but when the Government incites scoundrels to tamper with the ballot box, when the Government refuses to prosecute criminals, then the geople have no recourse but to take the law into their own hands. Before Magistrate Ellis yesterday morning, George Murray of Deer Park was committed for trial for an aggravated assault on T. Tonsett of York Township, Albert Jury, charged with laboring on Sunday, was discharged with a caution.

Mr. and Mrs. Munn of Toronto, while driving on the second of East York, at Watson's Hill, met with an upset that may result in serious consequences. The hill is a very steep one, with awkward embankments, and, the rig getting too near the edge of the road, upset and threw the occupants out. Mr. C. Watson assisted the persons and conveyed them to the Oulcott Hotel, at Eginton. It was then found that Mrs. Munn was suffering from a broken arm, in addition to bad cuts on the head. The injured lady was conveyed home, and the horse, which had run away, was afterwards caught.
