

sickness has not rested heavy on any of us, and we are here this evening in the enjoyment of wonted health and strength : to God therefore be the praise and the glory.

It becomes us also, while acknowledging the good hand of our God upon us in temporal things, to remember His goodness to us, in opening up for our instruction and guidance, so many beautiful lessons as we have had during the past year. We trust that all can say our eyes have been opened to see some of the wonderful things written in God's law. Let this be our constant petition, and may His word become yet more and more a lamp to our feet and a light to our path as we travel through this, our weary pilgrimage.

The number in daily attendance has averaged 32 scholars and 5 teachers. This average compares favorably with that of former years.

Our missionary contributions also compare favorably, being a little in excess of last year. This year the missionary fund amounts to \$25.17, and the library fund to \$24.06, making a total of plate collections of \$49.23.

The Library Fund is already all expended, a new book-case having been provided, and the "British Workman" supplied to all the members of the School every month.

Besides these amounts, collections have been made in the district to the extent of \$45.20 towards expenses of carriage for bringing the teachers from the City. This we are happy to state will no longer be felt as a burden by any one in Petite Cote, Crescent St. Church at my request having cheerfully agreed to meet the expense.

Our School building, through the lapse of years and the effects of wind and water, became in want of repairs, and, as if to hurry us on to that end, the high winds that prevailed during the summer months tore off a large portion of our gravel roofing. This has been remedied, and the class-rooms and sheds have received a complete covering at a cost of \$37, which has also been met by Crescent Street Church.
