The months for renewing and healing in the

physical world. The months for new life, new energy, new blood in

men and women. The months when our need of help from medicine is greater than at any other time of year.

The months when Hood's Sarsaparilla will do us the most good because we are all now especially susceptible to benefit from this medicine.

The months when Hood's Sarsaparilla is taken by the millions because they have found that it is the medicine which does them good.

The months when you should take Hood's Sarsaparilla, because it will purify, vitalize and enrich your blood, and put you in good condition to resist the debilitating effects of changeable, warmer weather. Try it now.

TORONTO, March 4.-Offerings at the cattle yards today were a good deal heavier than have been lately, and the result was cattle were slightly weaker in tone. There were 66 carloads of stuff in, including 108 sheep and lambs, 3,600 hogs, 30 calves and about 40 milch cows and springers. One of the notable features of the market was the buying

by Mr. Joseph Wilson of a couple of carloads, 40 head of thoroughbred Shorthorn bulls, for Messrs. Conrad Bros., of Lethbridge, Man.; these are for breeding purposes. The prices paid ruled from \$30 to \$80 each. Cattlemen are continually discussing the proposed plan to remove the cattle yards, and the majority of them are strongly averse to their removal from the present site. Export cattle—There is a quiet trade being done in this line, a few loads of cattle being made up to ship by way of St. John; prices paid rule from \$3.75 to \$3.95 for pretty good cattle, and from \$4 to \$4 25 per cwt for choice. Butchers' cattle-There was a slightly weaker tone in this line, as a result of the heavier offerings; most of the stuff was sold before the close of the day, but much of it was not of quite as good quality as the dealers wished; quotations ruled from 31/4c to 31/2c per lb for good cattle, and up to about 3%c for something choice; common cattle sold for 2%c to 3c per lb; there were several carloads of choice cattle killed at Harris' abattoir. Stockers and feeders-Good feeding steers were selling from \$350 to \$360 per cwt, mostly to fill vacancies in distillery byres; for light stockers for Buffalo there was a fair demand, prices ruling from 2%c to 34c per lb. lambs—Bucks sold for 2½c to 2½c per Sheep and lb, and good shipping ewes and butchers' sheep sold readily at from 3c to 314c per lb, some choice ones coming lose to 31/2c; lambs are firm, at from c to 514c per lb. Calves-Offerings were heavier and prices were a shade

weaker, ruling from \$2 to \$7 each, a few extra choice veals only going higher than that range. Milch cows and springers-Dairymen are still looking for good cows, and the result was that the market held firm at \$20 to \$45 each. Hogs-Offerings were heavy, but the market held its own; choice singers sold for 5c to 5%c per lb, weighed off the cars; thick fat at \$360 per cwt; light at \$3 75; sows at \$3 to \$3 25, and stags and other rough hogs at from \$2 to \$2 25 per cwt. CHICAGO, March 4.—Cattle, \$5 70 to

\$5 85; from that figure sales were made down to \$3 85 for poorest, the bulk of the offerings fetching \$4 35 to \$5 15; sales at extreme range of \$3 85 to \$4 15 for common to prime droves of hogs, the greater part going for \$4 to \$4 10; pigs selling chiefly at \$3.75 to \$3.90. Lambs, \$4.25 to \$5.55; sheep at \$3 to \$4 60, and yearlings at \$4 50 to \$5; handy light sheep usually sold the best, and 140-lb sheep sold for export at \$4 35; sheep sold largely at \$4 25 to \$4 50, and lambs chiefly at \$5 20 to \$5 55; feeders brought \$5 15 to \$5 25. Receipts—Cattle, 4,000; hogs, 26,000; sheep, 7,000.

Parliament.

Time of Parliament Wasted by Opposition to the Yukon Bargain.

Militia Reserve May Be Formed in Canada as "Second Line of Defense."

Ottawa, March 5.-The opposition devoted itself yesterday to the task of killing time, and the proceedings of the ghan, and editor of the People's Advantage of the place its process and the proceedings of the place its process and the process and the process and the process and the place its process and the plac house were in consequence thresome and unprofitable. Hitherto the Conservatives have made a show of sincerity in the prefix "O" or "Mac" before their the discussion of the Yukon bill, but sir-names," was received with shouts now no effort is made to conceal the of laughter, and has furnished a fund their constitutional right to obstruct. Waiting on Washington is the game they are playing, in the hope that they are playing, in the hope that United States legislation will do for prefixes, who claim, according to one the Yukon railway project what they statement, that it would "be an inthe Yukon railway project what they are not able by their voices and their they votes to accomplish. The speeches of der." the opponents of the railway bill today were merely repetition of arguments and assertions that have been worked to death during the long-drawn-out debate, and they were made to empty seats—there being scarcely more than a quorum of members present. It was a month ago yesterday that parliament met, and since that time the almost exclusive topic has been the Yukon railway. The premier yesterday openly charged Sir Charles Tupper with a desire to waste the time of the house, and the matter may go on for some time yet. Of course, when misstatements are made by opposition members, Liberal M. P.s have to reply. Yesbers, Liberal M. P.s have to reply. Yestiations with France and the United Mr. Campbell, of Kent, who combines the qualities of an able debater with the clear-headed perception of a successful business man, presented many sound reasons in support of the contention that the bargain with Mann &

McKenzie is a good one. Dr. Sproule moved the adjournment of the house in order to bring up the disagreement between the Grand Trunk and Canadian Pacific Railways in regard to traffic between Toronto and North Bay. He said that the difficulties

Hon. Mr. Blair promised to look into the matter at once.

OBSTRUCTION INJURIOUS. Mr. Foster informed the ministers that a party of Klondikers, many of them from his own riding, passed through Ottawa yesterday en route for the Yukon. They expected to reach Wrangel about March 8 or 9 and hoped to avail themselves of the winter road to be constructed from the Stikine River to Teslin Lake. He asked if it would be completed by the time speci-Sir Wilfrid Laurier replied: "I have every reason to believe, in fact I am

SECOND LINE OF DEFENSE. It seems probable that the movement for the formation of a second line of national defense, which originated with the ex-members of the Q. O. R., will be taken up officially, and made effective by legislation. The minister of militia and Col. Ayliner, adjutantgeneral, were yesterday waited upon by a deptuation, who presented peti-tions from leading military men ail over Canada in favor of the formation of a volunteer reserve. The delegation asked that the minister introduce legislation which shall give recognition to corps of volunteer reserve militia. The former members of the Queen's Own Rifles have formed such a corps and their constitution sets forth how they have organized themselves. After hearing the arguments presented and learning that there were already 254 men on the rolls of the Q. O. R. reserve, Dr. Borden said he was personally strongly in favor of the formation of a reserve, and would get the details of the proposal worked out by the officers of the department so that legislation could be introduced. The promoters of the reserve movement anticipate that by the means proposed at least 20,000 well drilled, uniformed men can be added to the effective defensive force of the Dominion at the minimum
