"Educator" Way is Nature's Way

MANY OF THE ILLS and discomforts of mankind are due to violation or ignorance of Nature's laws. This is particularly true in regard to the feet, those much-used and much-abused extremities. If you would prevent or allay foot troubles, wear "Educator" shoes.

They are so made that the foot rests naturally, without cramping the toes or bones of the foot. In walking or standing the foot is in a natural position, and thus comfort is assured.

"Educator" shoes are particularly appreciated in hot weather—they cost no more and are obtainable in smart styles—a proof that style does not necessarily have to be sacrificed for comfort. "Educator" shoes are made in sizes for men, women and children, and are featured in the present showing in the Footwear Department.

Miss Burleigh Here to Fit the "Binnet"

THIS experienced corsetier, well known to patrons of the Binnet corset, is here on her semi-annual visit to the Corset Department. If you are purchasing a new corset, let Miss Burleigh fit you. She will give you valuable advice in the matter of adjusting and lacing the model you select. Appointments for fittings may be made by telephone.

HUN PRISON CAMPS ARE VILE PLACES

Montreal Soldier, Escaped From Germany, Tells Story of Experiences.

READ THE SUNDAY WORLD

Canadian Associated Press Cable. London, July 6.—Pte. Frank Cecil Macdonald of Montreal, who has escaped from a German prison camp, gives a graphic description of his experiences while working last August in Victoria Mines, where he says one Canadian, Pte. Flanagan, was killed in the mines known to the prisoners as "Black Hole, Germany." The barracks where the men have to sleep, says Macdonald, are dirty and over-crowded. Eight hundred men were sleeping in a room thirty yards long by six yards wide. When the first prisoners reached there they refused to sleep, knowing it was contrary to the usages of war. They were compelled to stand in the open air in bitter weather clad only in shirt and pants. Many fainted from the cold and exhaustion. One man met another who had been forced to carry bombs and ammunition before the front lines, and was covered with scars and bruises from kicks inflicted by German soldiers.
