MINE STOCKS FLAT
HEAVY IN TONE

Recessions Occurred Throughout List—Little Interest in the Proceedings.

Quietness reigned supreme in the mining stock market yesterday, trading being decidedly flat, with the prevailing tone inclined to heaviness.

The volume of business was small, and nothing of interest occurred to enliven the proceedings.

McIntyre, which displayed strength on the preceding day, turned soft, opening two points down at 191, and ending one point further to 190.

Newray followed suit, opening steady at 188 and dropping back to 180.

Boston Creek on small trading receded two points from the opening to 111, and Dore Extension lost a fraction on the close at 28.

Davidson changed hands at 78 to 80. Hollings appears to be stationary at 35.25, neither going up nor down.

Some of the other mining stocks were also quiet, with little activity in the market.

WHEAT AGAIN RISES
TO HIGHEST LEVELS

Reports of Bad Crop Outlook Cause General Advances.

Chicago, March 27.—Soaring prices and broad activity resulted in the wheat market today from continued adverse domestic crop reports and from prohibition of breadstuffs exports by Argentina.

Closing quotations were nervous, 3-1/4c to 3-1/2c, with May at \$1.94 1-8 and July at \$1.87 3-8. Corn gained 1-8c to 1-5c, oats finished unchanged at 1-8c lower. Provisions were unchanged to 10c lower.

Unfavorable advices regarding the condition of winter wheat bore particularly on the situation in Kansas and Nebraska, where crop damage was reported, although conclusive judgment on the amount of injury seemed to be as yet premature.

The general condition of the crop as a whole not only in the two states named, but throughout the heaviest producing section of the wheat belt, however, was asserted in some quarters to be the poorest in many years at this season.

A decided increase of demand for the May delivery of wheat here was a consequence of the announcement of an embargo by Argentina on wheat and flour. Houses with eastern connections were heavy buyers of May, which rose to 1-3c under the topmost record touched last November. July and October options meanwhile advanced to high prices for the season.

Setbacks were at no time of a radical sort, and they appeared to be due to profit-taking. Corn advanced to new high values for the present crop. Oats shared only to a moderate extent in the strength of other cereals.

The demand for provisions lacked volume. Declines, however, were checked by the bulge in value of grain.
