

In the Fall of 1886, a most successful Reception, was held in the Peter Redpath Museum, to which, as now, all the Governors, Professors and their families, as well as all students in the University, were invited.

Two very successful Bible Training Classes, were carried on throughout the Session. The attendance and interest of the meetings, as well as the membership of the Association steadily increased.

In 1887 the Building Fund was started, and the students of that time subscribed over \$1000.

The power and influence of the Association has continued steadily to advance.

Many men now filling important positions out in the world, are grateful for the Christian fellowship, and strength giving influence which the McGill Y. M. C. A. exerted on their lives and characters while they were Undergraduates.

Such is the history of our Association. She now looks eagerly forward to the time when occupying a building of her own on the College grounds, she shall be fully equipped to carry on her work of caring for and developing the spiritual life, in the Undergraduates of our beloved Alma Mater.
