DANDRUFF SOON RUINS THE HAIR

Makes It Lifeless, Dull, Dry, Brittle and Thin

Girls—If you want plenty of thick, beautiful, glossy hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when reclining; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back Its Color and Lustre With Grandma's Sage Tea Recipe

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff; stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wych's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wych's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

HOME USE OF PULP WOOD.
Increase in the Manufacture of Pulp in Canadian Mills.

Sixty-four pulp mills in Canada report a total consumption in 1914 of 1,109,084 cords of pulpwood. Nearly an equal amount was exported to the United States in an unmanufactured condition. Thus, for the first time in the history of the industry, more than half of the pulpwood produced in Canada was manufactured into pulp in Canadian pulp mills.

Quebec leads in the consumption of pulpwood, followed, in the order named, by Ontario, British Columbia, New Brunswick and Nova Scotia. As the pulp industry on the Pacific coast is still in its infancy, steady increase in British Columbia may be expected. Over two-thirds of the wood used for pulp was spruce, and one-fourth balsam fir. The percentage of fir used has increased steadily, as the prejudice against this wood has been overcome. Jack-pine is also beginning to be a factor, though still a small one, less than 20,000 cords being reported as manufactured in 1914.

WESTERN LIVE STOCK.

(Canadian Finance.)

A feature of the past year's trade in live stock was the heavy movement to the south and, with the exception of the fourteen days in November while the embargo was in operation, owing to foot and mouth disease in the States, shipments were almost continuous. Heavy consignments were also made to the Eastern Canadian markets. The prices for cattle were generally higher than the previous year, while for sheep somewhat lower. During the fall a slump occurred in hog prices, owing to the heavy offerings of immature animals being thrown on the market, and prices reached the lowest point for some time. Opinions of good authorities are that trading will be active and prices stronger in the immediate future.

Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping. Use

BRONCHIAL COUGHS

When the bronchial tubes are affected with that weakening tickling cough, they need immediate and sensible treatment. The breath seems shorter because of mucous obstructions; usually fever is present and your head jars with every cough. Your chest aches and the inflammation often spreads to the lungs.

The food-tonic that has proven its worth for forty years—is Scott's Emulsion. It drives out the cold, which is the root of the trouble, and checks the cough by aiding the healing process of the encrusted membranes. If you are troubled with bronchitis or know an afflicted friend, always remember that Scott's Emulsion builds strength while relieving the trouble. M-41 Scott & Bower, Toronto, Ontario.

A London paper contains a photograph of the grave of a Scottish Highlander who was killed in action at La Ferté. The French peasants placed the Scotsman's khaki coat upon the cross and every day decorate the grave with fresh flowers.

HOW TURKS ARE TRYING TO FLANK RUSSIA

The sudden appearance of a Turkish army in Persia, which declared its neutrality in the war, with the capture of the Persian city of Tabriz, means that an attempt is being made by the German-Turk strategists to flank the Russian army now fighting in southwestern Persia. Not expecting the violation of Persia, the Russians made no effort to protect the border between Persia and Caucasus. To prevent a Turkish army swooping down from Tabriz against the left of their army now contending against the other Turkish army, the Russians will have to send troops to the Persian-Caucasus border. This may or may not weaken the Czar's forces in Poland.

The Arabs were the first to use orange blossoms as bridal wreaths. The orange branch bears fruit and flowers at the same time, and it is, therefore, considered an emblem of prosperity.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If Cross, Feverish or Bilious Give "California Syrup of Figs"

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

FATHER BORGMAN BETTER.

Rev. Charles McCormick, C. S. S. R., rector of St. Peter's church, yesterday received a letter from Boston informing him that Rev. Joseph Borgmann, C. S. S. R., who is undergoing treatment for his eyes, is rapidly recovering. He did not have to undergo an operation. It will be some time before he will be able to return home.
