"NERVILINE" STOPS EARACHE IN 10  
SECONDS, FIXES TOOTHACHE IN 2 MINUTESIt Seems to Possess Almost  
Some Divine Power  
Over Pain.

## RUB ON NERVILINE

Toothache is usually due to neuralgia in the gums or to the congestion and swelling of the nerve pulp.

As "Nerviline" relieves congestion, you can easily see why it cures toothache. Nerviline does more—cures any ache or pain—in any part of the body.

It matters not where your pain is. It may be in a joint or muscle; it may be neuralgia or lumbago; it may be a surface pain in deeply situated in the back, chest or chest. Nerviline will reach it. Nerviline will drive it.

What is Nerviline, you ask? Just a liniment, but very much stronger in pain-subduing power than other liniments—one that penetrates more deeply in the tissue than any other liniment. It is a liniment that cures quickly, that gives permanent relief.

You might spend ten or a hundred dollars, but you couldn't buy as much relief as you get from a single bottle of Nerviline.

We guarantee Nerviline; we refund your money if it does not relieve you. In many lands it is a household trust, a remedy that has justified itself under the experience of those who have used it.

Guaranteed for neuralgia, sciatica, lumbago, rheumatism, pleurisy, strains or sprains; the large 50 cent family size bottle is more economical than the 25 cent trial size. Dealers everywhere sell Nerviline, or direct from The Cataract Co., Kingston, Canada.

ENGLISHMEN BELIEVE  
WAR HAS JUST BEGUNGuy Nickalls, Yale Rowing Coach,  
Just Arrived, Speaks of Conditions at Home

New Haven, March 5.—Guy Nickalls, who has arrived here to coach Yale's oarsmen for the June races, has given the Yale News an interesting interview on the war situation in England. He said:

"We think the war has just begun."

The realization of its enormity is just beginning to be felt. About the first of May we will begin in earnest. How long it will last is hard to say. It may continue a year, and it may go on for 18 months; but about a year from May they will begin to talk peace."

In speaking about the army itself Mr. Nickalls said:

"Lord Kitchener's army is recruited from the best stock of England. There are about 2000 Oxford and Cambridge undergraduates in the army. These men are the best athletes and the brainiest men of the two universities. Their physical fitness, combined with their ability, makes them excellent leaders."

"There are now about 500,000 men in France, and about 4,500,000 men in training. The War Office does not give out any very definite news, as they do not want the Germans to know the strength of the English Army. The equipping of the English Army has been one of the marvels of the war. The English mills and factories have exceeded expectations."

The balance wheel of a watch vibrates 360 times a minute, 432,000 times a day, or 157,680,000 times a year. As each vibration covers about 1 1/2 revolutions, the shaft on
