great credit on those who made the project possible.

It is well known that the wealth of historic interest and picturesque attractions of the city of Quebec were not well known to the great majority of people of the North American continent before the building of the Chateau Frontenac. That caused a mighty change. Since then, Quebec has become one of the principal Meccas for a great host of tourists, summer and winter, coming not only from the other sections of the Dominion, but from the Republic to the south and from the countries across the Atlantic. This added influx of temporary residents has lifted Quebec out of the quietude which formerly surrounded and made it one of the most prosperous of the tourist centres of Canada.

What the Frontenac has done for Quebec might also be well accomplished for St. John by the Admiral Beatty in perhaps a greater degree on account of the fact that the new St.

FORTY HOURS.

Services in connection that if the facilities the contention that if the facilities were here the business of potato shipment from this port could be doubled or more.

If this were cold weather, it would mean that the ship at Pier 15 would have to lie in the stream until a place at the potato sheds was available, with her cargo in cars in the yards and charges piling up.

With the potatoes now in the sheds and what is yet to come in from up country, there will be about eight more cargoes to be sent out from here before the business of the season is completed.

Fast Work.

A record that has been surpassed only once in the history of the port so far as is known was made yester-day in the loading of the steamship Steinstad. The work of putting the potatoes on board was begun at a surple of the potatoes on board was begun at a surple of the sound of the surple of the sound of

shed for St. John by the Admiral catty in perhaps a greater degree on count of the fact that the new St. John house will be connected with ore than a score of other similar buses throughout the country under coperation of the United Hotels or operation of the United Hotels or operation of America. The Admiral catteay will receive from the operates as much attention as any of the her links in the great chain, and this nection cannot but be of immense due to the city and the province as a link of the church, were in the sanctuary. The closing services will be held tonight.

WRESTLERS BEGIN WORK.

Walter O'Toole, who was appointed and go on our trans-Atlantic steamers. Now they come at the last moment to catch their ship, or, if they are landing here after a voyage, they rush away as soon as possible. The big hote would make an important change With such quarters awaiting them, many would remain a while here.

And, what better means is there of

would remain a while here.

And, what better means is there of capitalizing our magnificent summer climate than a hotel of the modern class. It is expected that the boys will work out daily until the Olympic trials here on June 4 and 5.

It will bring visitors who, when they go home, will tell of St. John and its hotel, and of New Brunswick's attractions as a great playground. Such a hotel, too, marks a city as progressive It tells all visitors, all men on business or pleasure, all delegates to conventions, that here is a really progressive community.

That St. John needs the Beatty is not in dispute. But do our people realize the great impetus it will give St. John? If they think of it from every angle their support will not only be enthusiastic but tangible.

NEW ALARM BOXES

That the chief of the fire department was considering the placing of two extra fire alarm boxes, one probably on the west side and the other in the north end, was said this morning by Commissioner Harding. He said the north end box would probably be placed on the Sandy Point Road near the Union Ice Company's premises and that for the west side near the end of City Line, in the vicinity of Fort Dufferin.

Ladies Propose Monument to Great War Veterans Beside Present Shaft.

A memorial to the St. John boys who gave their lives in the recent Great War is being planned for erection in the Riverview Memorial Park, Douglas avenue, alongside that which commemorates the sacrifice of serving St. John men in the South African War. This announcement was made at a meeting of the park trustees which was held at the home of J. Fraser Gregory last evening. The ladles propose raising a fund for this purpose. The trustees took up the matter of further improvement in the park, in cluding the beautifying of the grounds, the installation of a bubble drinking fountain and the placing of more benches. It was decided to conduct a personal canvass for funds to carry out this work, as the grant from the city was said to be too small for all the necessary work.

MORE FACILITIES

Potato Ship Has to Go to Pier 15—Equipment is

The potato sheds at Sand Point, both the old, and the additional equipment provided this year, are loaded full with potatoes for export. Not only that, but the demand for facilities has made the use of Pier 15 Imperative for this work. Practical demonstration is thus given of the soundness of the contention that if the facilities were here the business of potato shipment from this port could be doubled

A record that has been surpassed only once in the history of the port so far as is known was made yesterday in the loading of the steamship Steinstad. The work of putting the potatoes on board was begun at 7 o'clock yesterday morning and was completed at 7 o'clock last evening, and in that time 10,000 bags were placed in the vessel. She sailed last night for Hayana.

When the steamer Ada Gorthen sailwhen the steamer Ada Gornell saided a week ago for Havana, it brought the number of steamship sailings in the potato trade between this port and Havana for this winter up to 38,

Shipping House Sees Cheerful Signs of Continuance of Activity.

The condition of the sugar market in the United Kingdom at present, it is said, holds considerable promise for increased business for the local Atlantic Sugar Refinery and consequently increased port business, according to a member of a prominent shipping company this morning. The state of the market is reflected in the port today as there are four sugar boats here at present with prospects that the present boom will continue in this particular line.
