

The REV. MR. GANDIER showed our personal responsibility to increase the circulation of God's Word, since we have it in our power to diffuse the light. We must discharge our debt to humanity. We are personally responsible to avail ourselves of the increased facilities this century has given us for the sending forth of God's Word. It commenced with few open doors. The Church prayed that doors might be opened. These prayers have been answered, and to-day there is acceptable lands. Our duty then is to give first ourselves to the cause of Christ, and afterwards we had a right to pray, "Thy Kingdom come."
