ST. PIERRE SCHOOL QUESTION SETTLED; GOV'T GIVES IN Will Grant Permission to Conduct Denominational Schools—Leaders of November Riots to be Prosecuted as Soon as Military Force is Increased

NORTH SYDNEY, N. S., Feb. 10.—Private letters received here from Dr. Gavvin, attorney at St. Pierre, Miquelon, and also from other parties in the colony, throw some light on the probable final settlement of the vexed school question at that place. It is stated that well grounded rumors are circulating to the effect that at least the home government in France has yielded to the demand of the people of the colony to grant the permission to re-open denominational schools, the refusal of which permission was the cause of the trouble in November last. The people are content that the next issue of the official gazette will chronicle the decision of the home government.

The conference which M. Viellot, professor of Fort Christopher College (denominational school) announced would be held at the cafe Du Midi to further consider the school question was afterwards cancelled. The postponement of the intended conference indicated some radical changes in the situation, and some of the head parsons of the schools are authorized by the statement that messages had been received from France from Louis LeGasse, member of the Chamber of Deputies for St. Pierre, to the effect that the re-opening of the denominational schools would shortly be authorized. Further and more serious trouble would undoubtedly have followed the holding of M. Viellot's conference had it not been for the fact that the government was on foot to enforce on the government the request of the people.

St. Christopher College has been closed since December 19th last, and proceedings against the professors have not yet started. The correctional court which met on January 15th, deferred judgment in these cases. It is further reported that the commission has been appointed by the Government to inspect and report on the premises of the denominational schools. This decision has raised the hopes of the people who are now convinced that a satisfactory settlement is in sight.

An investigation will be held by one of the magistrates of the town inquiring into the trouble of the 19th and 20th of November last when one riot which took place culminated in the lowering of the Tricolor and the raising of the Stars and Stripes in some of the places in town. It is also understood that the ringleaders of the demonstration will be prosecuted to the full extent of the law. The investigation is only withheld awaiting the arrival of an additional force of ten Gendarmes now on their way from France to augment the present force which is considered insufficient in the event of trouble. This step is only being taken as a precaution as the fact that the warship Admiral Aube, which landed 150 sailors and which were to have remained at St. Pierre during the winter, has re-shipped the men and left the island, thus showing that serious troubles are no longer anticipated and that the home government will accede to the demands of the people.

DOES HETTY DESERVE DAMAGES, OR NOT? Serious Question to be Decided by the Law School's First Mock Court.

Argument in the case of Hetty Green vs. James Michael will be heard before the mock court of the law school on Saturday night next. Cyrus P. Inches will preside. The facts of the case are as follows: Hetty Green, the defendant, who was in poor health, ventured on the street against the orders of her physician. She was proceeding along the sidewalk using due care and while crossing the street, which crossing was at the foot of a steep hill, the defendant James Michael was approaching her on a bicycle at a high rate of speed. The plaintiff was unable to move through fear and the defendant swore as he approached her and did not touch her. Nevertheless she sustained a severe nervous shock and was taken to her residence where she continued in great impaired health. She sued the defendant for unstated damages. At the trial the jury found that the defendant had passed very close to her. Argument will be confined to the jury's findings. For the plaintiff, Hayden, '09, Lanney, '09 and Belyea, '10 will argue, while the defendant will be represented by Logan, '09, Teit, '09 and Aldair, '10.

Jack Buskirk, Jos Thistle, Ben Leblanc, George Bower, and George Cameron were this morning brought before Magistrate Kay charged with breaking into and stealing from the bonded warehouses here a quantity of liquor, and were remanded until Monday morning at ten o'clock. Evidence against the suspected parties is very strong as liquor has been found in houses where accounts of prominent Moncton business men have been interviewed with respect to the increase in telephone rates recently made by the New Brunswick Telephone Company and the reduction in the long distance time limit to three minutes. All have spoken very strongly against the change and in a number of cases have announced their determination to employ the telegraph for long distance messages for which the telephones heretofore was employed.

CHICAGO, Feb. 11.—Following the wireless operator of the steamer Republic, Miss May Donnelly, a night telephone operator, proved herself a heroine early today in a fire which destroyed a freight house here. After a hot debate the resolution carried. After some deliberation the convention advised the men not to go on strike, but to ask the board of conciliation under the Lemieux act in view of the fact that the agreement expires in seven weeks. In his report the president advised breaking away from the Trades and Labor Congress of Canada and said the Congress was unprogressive in the extreme and gave labor in Western Canada no assistance. He also said that the executive and leading members are trying to play the Labor party into the hands of Liberal and Conservative parties. A roll call was asked for and the vote stood 36 for and 20 against breaking with Congress. This will mean a saving of \$1,000 a year to miners in district 8.
