

ELECTION CARD

ELECTORS OF ST. JOHN

I regard the opinion as expressed by the citizens at the polls on the 10th inst. as decisive so far as it indicates the feelings of the electors in respect to the city acquiring and distributing the electrical energy from the Musquash developments.

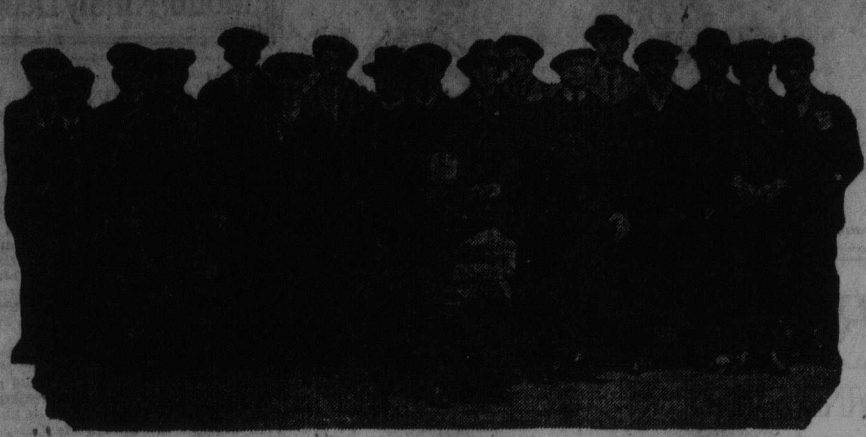

Holding this view, I am now prepared to vote for the city to take power from the New Brunswick Electric Power Commission and will support civic distribution of such energy in order to give the citizens light, heat and power at the lowest possible rates.

Like many other citizens, I presume, who have given serious consideration to this matter, I have experienced much anxiety in my endeavors to find a solution of the difficulties which I encountered and which I had confidently hoped might be smoothed away when the engineers, who were employed to study and report, presented their findings. Unfortunately these reports were of so conflicting a character that I found it impossible to reach a conclusion sooner. The citizens have spoken their minds in this matter, and as their servant and representative, I am bound to respect their wishes and am ready to accept the results.

JOHN B. JONES.

Fifteen Sturdy Macs Are Now Canada's

WITH bagpipes edging and a smile of happy anticipation on every face these fifteen stalwart lads from the Hebrides first set foot on Canadian soil on April 3rd. They arrived on the Canadian Pacific liner "Tunislan," and at once went on to Chatham, Ontario, from where they will be distributed among the farms of Kent County to learn the intricacies of Canadian farming. They are Highland farmers and North Sea fishermen, and the finest type of immigrants Canada can have, and the advance guard of 150 others just as good who will soon arrive.

Every one of them is a Mac—three McLeans, three MacDonalds, two MacKenzies, two MacTavishes, a MacPherson, a MacIntyre, and a

MacIntosh. To add to the Scotch flavor they were conducted by Father MacDonald, special colonization agent of the Canadian Pacific Railway. All are veterans of the Imperial army or navy, and many have been decorated for bravery during the great war.

They were glad to be away from the land of labor strikes and unemployment, and not even the prospect of a ten-hour day, after their eight hours in the old country, dampens their enthusiasm for Canadian farm life. So far they are very favorably impressed with this country, and have not the slightest notion of ever getting homesick. Later on, when their farm experience warrants it, they intend to buy farms of their own.

Maritime Religious Education Council

This is the time of year when the Finance Committee of the M.R.E.C. does most of its worrying, trying to get in the funds promised them, in sufficient amounts to keep the work of the organization in a condition to finish, with the energy and enthusiasm, the winter season, to bring about successful summer activities and inspire the individual congregations to plan and organize for starting full sized programmes in the fall.

The system of financing is on a voluntary basis, in fact it is too democratic to suit the Finance Committee, who while given more authority at the last general conference, would like still more direct control and results. The M.R.E.C. Executive draws up the budget for the year. This is approved by the Council, and the amount desired is recommended for adoption to the different County R. E. Councils according to their resources. The County Councils then agree to accept this obligation and they sub-divide among the District R. E. Councils who apportion to each Sunday School and group in its jurisdiction the suggested share. The balance is made up by the C.S.E.T. and C.G.I.F. organizations and contributions from friends.

If a number of treasurers are not prompt in sending in their contributions, it means that a temporary financial stringency arises, money must be borrowed from the bank with the consequent expense of interest charges, and at times even this will not suffice and the staff cannot be fully paid their salaries. This is not good business and is disheartening to the staff who must partially neglect the programme of religious education while going out after funds.

If the treasurers would meet the request of the Maritime Treasurer and send in the funds due on hand promptly each month, the amounts even if small, coming from the forty odd organizations would foot up a respectable amount and thus make the work of financing much easier.

The active support and co-operation of all interested in religious education and the work of the Church as a whole is requested to bring about accelerated action now.

Rev. Waldo C. Machum has just completed a series of District Sunday School Conventions in Annapolis, Shelburne and Queens Counties, N. S.

The Conventions were held in the following places: Clementsport, Grandville Ferry, Shag Harbor, West Head, Harrington, East Sable River, Port Mouton, Port Medway, Liverpool, Greenfield, Caledonia, and North Brookfield. On the whole a splendid interest was manifested and reorganization was effected in a number of districts where the organized work had gone down.

"Father and Son" Banquet was recently held in the Baptist Church at Chipman with about fifty in attendance. A number of the boys made excellent speeches. The visiting speaker, Rev. Waldo C. Machum, explained and magnified the C.S.E.T. programme. There is a thriving "Trail Banquet" Camp in this church and a Traxie Square has been recently organized.

Takes Exception To Reports Made

The Mayor's Answers to Statements Made by Mr. Phillips and Mr. McLellan.

"I note Mr. McLellan says that the issue was whether the Citizens or the Power Co. should run the city. "Is it not whether the Telegraph and Times should run the city," in attempting to force, through their candidate, the purchase of power at cost, and in the event of the power at Musquash being sold elsewhere, the Commission would go to the nearest water shed—the Lepreau owned by the common stock of the Power Co., and the city should take it at cost, still coming across to the Power Co. by going on the Lepreau after having taken care of the owners of the land at Musquash.

"The statement has been made that the offer was made to the city, in 1920. Permit me to say that there was absolutely no final offer made to the City till November 22nd last, 1921.

"Mr. McLellan makes a further statement that I had never received a letter of commendation from Mr. Campbell. Permit me to say that I hold this letter in my possession, and will be prepared to submit it to any one who wishes to see it.

"I note he further makes the rash statement that I have a cash on hand of Twenty Thousand Dollars. I do not think there is any need for me to comment further on this, for when I stated there was no campaign fund of Twenty Thousand Dollars, nor anything more than the legitimate expenses, I said what was positively correct.

"In criticizing the statement made that the city had been sold to the Power Co. for the base of the streets, permit me to say that what was done in this case was simply to carry the amount along for some twelve months, over six of which would not permit of any more than finding out what the exact cost would be when the streets were finished, which did not take place till late last fall, and the Power Co.'s portion not figured till towards the end of the season. This was done with the object of avoiding a case for damages with the contractor, who would have held up on the job, and had heavy damages for his equipment and crew, and rather than put this burden on the taxpayers, we allowed them to have twelve months of credit with interest, and at the same time, had a contra account against them for the street lighting, which was a great benefit to the city.

HEAD AND NOSTRILS CLOGGED UP

Could Scarcely Breathe

When you become all choked up and stuffed up with a cold your head becomes thick, the nostrils become so clogged up you can hardly breathe, the chest feels weighty or oppression in the chest and the cough rattle and leave your lungs and bronchial tubes. This is the time to take DR. WOOD'S NORWAY PINE SYRUP before things get to be too serious. There is no remedy so equal to it for clearing up the cold, making the breathing easy, loosening the phlegm and soothing and healing the lungs and bronchial tubes.

Mrs. Edward Kincaid, 60 Bryden St. St. John, N. B., writes:—"I wish to express my hearty thanks to your valuable remedy Dr. Wood's Norway Pine Syrup and what good it did me. Last fall I contracted a severe cold, the like I never had, my head and nostrils were so clogged up I could get no rest, and could scarcely get my breath. I tried remedy after remedy until at last I thought I would try Dr. Wood's. After the first dose I felt relief, and by the time the bottle was finished I was all better. I will always keep it in the house."

Price 50c and 60c a bottle; put up only by The T. M. S. Co., Limited, Montreal, Que.

Cases Dealt With In Police Court

William C. Radcliffe May Go on Suspended Sentence—Evidence Heard in Other Cases.

In the police court yesterday morning, William C. Radcliffe, formerly an agent of the Metropolitan Life Insurance Company, pleaded guilty to a charge of stealing about \$300 from the company, while in their employ last summer, and consented to submit to the jurisdiction of the court. The magistrate said that he would make some inquiries about the young fellow in view of what had been brought out in connection with the affair, and it was possible that the accused might be allowed to go on suspended sentence.

H. H. McLean, Jr., appearing for the insurance company, said that Radcliffe had a good record, and was a returned man who had been awarded the Military Medal and a commission on the field. Mr. McLean accredited the commission of the offense to the young fellow's getting drunk with a crowd, until one day he found himself in Montreal with some of the company's money. The accused then got a position as steward on a boat sailing for Russia, and left the country. He later received a letter from his mother in Scotland, to whom the bonding company had written, advising him to return to Canada. As the result of this letter, the defendant had called at Mr. McLean's office and given him self up.

The accused was remanded until inquiries can be instituted by the court regarding the extenuating circumstances of the case.

Matthew Garnett, John Beshara and Harry Mitchell were brought again before the court yesterday morning and sentenced to the penitentiary for four years, on the charge of stealing rope.

A young girl, who was remanded on Thursday on a charge of vagrancy, was sentenced yesterday to six months in the penitentiary, on the charge of stealing rope.

The case against Harold Garnett and Roy Ogier, charged with the theft of a watch and chain and \$70 from Timothy Burns, was resumed and further postponed.

Four traffic cases were dealt with yesterday morning. N. Jacobson pleaded guilty to a charge of exceeding the speed limit, and a fine of \$10 was struck. Policeman Bettie gave evidence. G. N. Cox pleaded guilty to not having his tail light lit on Friday evening, but offered an explanation and a fine of \$50 was allowed to stand against him. George Burton pleaded guilty to a charge of exceeding the speed limit and a fine of \$5 was imposed. Policeman Bettie gave evidence. A case against J. D. Quinn, charged with exceeding the speed limit and not sounding his horn at the intersection of streets, was postponed at the request of R. S. Ritchie, who appeared for the defendant.

Funerals

The funeral of Philip S. G. Horne, took place yesterday afternoon, following service by Rev. H. A. Coad. Among those present were representatives of the Sons of England and St. George's Society, Interment at Fernhill.

protection, so far as the account was concerned. Were we not doing exactly the same thing for Mr. McLellan and Mr. Phillips? In the first instance, we had carried this gentleman for his tax account from August till the last day of this season that would enable him to pay taxes and become a candidate, and in the case of Mr. Phillips we had carried him for his 1919 and 1920 taxes up till February 1st, 1922, in exactly the same way, except that we had no contra account. "I do not think they were justified in their criticism of the actual facts that took place in this case."

Red Cross Branch Monthly Meeting

Supervisors of Junior Red Cross Work Appointed—Reports Received Most Encouraging.

At the monthly meeting of the New Brunswick branch of the Canadian Red Cross, held yesterday afternoon in the depot, Prince William street, it was decided to appoint Mrs. Harold Lawrence and Miss Jessie Lawson joint supervisors of the Junior Red Cross work in the province and the introduction of junior studies in the schools. It was reported that good progress was being made on the recreation hut, and it was decided to issue an appeal for funds for the furnishing of this building. Reports from the district nurses showed increased interest in this work. The matter of a disaster and relief committee was broached and C. B. Allan appointed convener of a sub-committee to make a further report. Mrs. F. S. White reported a big falling off in the number of cases applying to the local branch for relief.

The chair was occupied by the president, R. T. Hayes, M.L.A. The secretary reported on the activities of the month past as follows: This month has seen much activity at the depot. A great deal of sewing and knitting are being done by the branches, both senior and junior. Our relief donations have included 25 garments to the local Red Cross; 2 layettes to the Soldiers' Settlement, to East St. John 6 razors; to West St. John 50 pairs of pyjamas; to Jacques River to relieve a distressed family, 2 garments, and to the Port we have sent 60 Canadian Mother's Books.

We have had two appeals for money during the past month. Both of these appeals have been presented to the executive.

Our Junior work is progressing nicely. A splendid parcel of work was received this week from Netherwood, also the sum of \$21 which the children had raised. Witanstedde have still been most helpful rolling bandages and sending comforts to the young fellow's getting drunk with a crowd. Chatham are very busy also rolling bandages and working on their quilt and Frederickton we hear has also been busy.

From head office we have received during the past month our second installment of the last grant. In literature they have sent us copies in several languages of a tract entitled "Becoming Acquainted With the Enemy Tuberculosis." They have also sent 5,515 cards with the Rules of the Health Game; 500 copies of the Red Cross Junior; 100 copies of the World's Health; a supply of Red Cross Stickers and 100 lbs. of wool and a box of printed mailing envelopes.

During the past month it was my privilege to attend the meetings at the head office in Toronto. These meetings have proved of great help in the creating of a splendid understanding of what the centres with are doing for the great Peace time work of the Red Cross.

The treasurer reported expenditures for the month of March 1922 as follows: \$1,991.14. Among the items were district nurses, \$675; port work \$139; depot \$166.34; grant to local Red Cross \$500; grant to hospital committee \$500.

Among the correspondence were letters from Miss Bertha Radcliffe, congratulating the branch on the success of the Junior movement; A. C. Skeelton, thanking the branch for half of the local for the grant of \$500; Dr. Craig, of Halifax, expressing thanks for kindness extended to Mrs. McManus on her visit to the port workers; Lancaster Hospital convey-

ance for the month of March 1922 as follows: \$1,991.14. Among the items were district nurses, \$675; port work \$139; depot \$166.34; grant to local Red Cross \$500; grant to hospital committee \$500.

ing thanks for the prizes in the chicken tournament and from the Minto Red Cross asking what assistance the Provincial Branch would give in the matter of salary of a district nurse. In connection with the latter it was decided to have Miss Meikeljohn and Miss Jarvis take up the matter and make the best possible arrangement.

Mrs. B. R. Taylor reported for the Military Hospital that \$293.50 had been expended during the month, the usual Easter treat had been provided and through the efforts of Mrs. Doody the men had been given their usual automobile rides. She suggested an appeal for funds to furnish the recreation hut, which Mr. Allan said it was hoped to have ready in June, and it was decided to write all the local branches in the province and also other organizations having donations for this purpose. Mr. Allan told of society which had already spoken of a donation for this purpose.

A recommendation from the executive that Miss Jessie Lawson and Mrs. Harold Lawrence be jointly appointed supervisors of the Junior Red Cross work in the province was adopted by the meeting, their services to begin on May 1.

Miss Meikeljohn reported for the month of March 1922 home visits; 12 child welfare clinics with an average attendance of 7 babies; 251 child welfare home visits; 34 pre-natal visits; 22 tuberculosis visits; 83 sick patients; 382 nursing visits; 90 schools visited; 2,600 children examined; 78 health talks given in schools and health meetings and committee meetings. The work was going on well at all the centres with the exception of St. Stephen, where it was dragging a little. For the V. D. work Dr. McCarthy reported 33 new cases, none among children.

The sewing committee reported 88 garments given out and 173 garments received. Mrs. J. P. Robertson reported for the Bulletin, that it had been published about three weeks ago.

The report of the port committee was presented by Miss Gregory. For March there had been 5 ships coming in with 17 infants and 541 children; 14 had been given minor treatment and 5 dressing done; 180 welcome cards and 36 follow up cards had been given out.

For the season there had been 39 ships; 245 infants; 1,704 children.

Don't Grow Old Before Your Husband

Science Now Shows What Often Causes Premature Loss of Youth, Beauty and Attractiveness and Makes Women Fretful, Nervous and Run-Down

If Your Face Is Haggard, Thin, and Pale, Try This Simple Home Remedy Which Often Makes Women Look and Feel Years Younger and Surprisingly Increases Strength and Energy

Thousands of women are like the woman in this picture. They have grown old much more rapidly than their husbands. The roses have faded from their cheeks, they are weak, pale and careworn at a time of life when they should still be filled with buoyant health and radiant with youthful beauty—pale, thin, weary blood has fastened its grip upon them and is gradually sapping their health, vitality and beauty. In most cases men safeguard their health, better than women by eating coarser foods, being more out of doors and leading more active lives, therefore keeping their blood strong and vigorous. For want of good blood a woman may look old and feel old at thirty; pale, haggard and all run-down—while at fifty or sixty, with good health and plenty of rich, red blood, she may still be young in feeling and so full of life and alertness as to defy detection of her real age.

For the purpose of enriching the blood and helping to create millions of new red blood cells, there is nothing like good old Nuxated Iron. Physicians usually prescribe two five-grain tablets after meals. Nuxated Iron directly increases the activity of the blood-making organs and supplies true red blood food, thus increasing the power of the body to manufacture blood matter like living cells, flesh and tissue.

FREE

For those who are thin or emaciated in appearance and wish something to help increase their weight, arrangements have been made with druggists to give a large \$1.00 package of Nuxated Brand Genuine Yeast Vitamins absolutely free with each bottle of Nuxated Iron that you purchase. In taking Vitamins with Nuxated Iron always take Vitamins Tablets before meals and Nuxated Iron after meals. Weigh yourself before you start, and note especially the color in your lips and cheeks. The lines in your face and the tired look around your eyes then weigh yourself again after ten days and see how much you have increased in weight and improved in color and appearance.

NUXATED IRON ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY
