Milton, of Demoiselle, expect to have the work completed before the cold weather. The wharf, including the approach, is 145 feet long, with a face thirty feet in height.

Considerable petty thieving has been reported in this parish lately. At Riverside, it is said, many houses have been entered and various articles stolen. It is particularly apparent to be of quite high taste, some fine parlor furniture, in one instance, being among the articles taken. At the Hill a few nights ago, some one entered the cellar of a citizen's residence and took a crock of butter.

H. B. Bailey, mining engineer, of Fredericton, has been on a business trip to the county the past week. Friends in Albert county got acquainted with Mr. Bailey when he attended the Summer School of Science at Riverside, some years ago, as one of the teachers, and his genial and hearty companionship warranted him a cordial welcome whenever he duties bring him this way.

H. C. Peck, light keeper at Grindstone, has been at the home of the Shepody Bay recently, when he was crossing in a small boat from the mainland to the south shore. He was of considerable size, about eight feet in height, when he came up to the surface with such velocity, it was thought it probably mistook the boat's bottom, which was, in fact, a white fish, the underbody of another fish. The fish's back fin stood up sharply and cut the water like a knife, as it dived and vanished from view.
