

# Canadian Forestry Association

OTTAWA

CANADA

## TO OUR MEMBERS:

We sincerely hope you regarded your 1922 membership in the Canadian Forestry Association as well worth while.

It cannot be emphasized too often that the Association is nothing more nor less than organized Canadian citizenship. Our strength is derived from your loyalty to our national objects. Because you stood shoulder to shoulder with our campaigns in 1922 we succeeded in carrying through our total programme.

Because we believe you will be whole-heartedly with us in 1923 we are launching forth on more ambitious projects to help block the plague of forest devastation in this Dominion and, secondly, to help thousands of prairie farmers to establish belts of trees as an aid to agricultural prosperity and the improving of home conditions.

The Association is helpless to act, however, unless the membership fees are paid promptly. Will you therefore fill in the cheque form sent you by our Treasurer and make your membership an active force in the service of Canada?

Yours faithfully,

The Canadian Forestry Association
