Physio's Bloodiest Group On Campus

Physiotherapy tied with the SUB CNIB stand for first place in the annual blood drive.

Physio met all predictions with the 100 percent turnout of the School's enrolled 54 students to bleed at the annual Red Cross clinic held in Wauneita Lounge Feb. 6 to 9 and 20 to 22.

From her little corner in SUB lounge came Jean, however, to bleed alone and singlehandedly tie with Physios with another 100 percent turnout.

St. Steve's Theologians ran second with an 82.6 percent turnout registering 19 of a school of 23 Theology students.

Saved from running other than last, Law faculty by an effort of restraint managed to drop from second-last to last place in the drive between two clinics by sending out only four bleeders to the second rally, dropping to a 19 percent turnout from last year's 40 percent level.

They were passed by a herd of Dentists, who produced some 60 bleeders in the second lap to raise dramatically from sixteenth to sixth place.

Two other groups turned out more than 70 percent enrolment: Aggies stood third with 72.2 percent, with Medical Laboratory Science hot behind at 72.1 percent.

Altogether six of sixteen faculties

and schools entered registered more than half their enrollment. Ten failed to do so.

The entire drive slipped badly during the second clinic, with only 843 registered donors to meet a quota of 1,200. Total drive registration was 2,323, more than 170 short of the requested 2,500.

The following are the complete standings:—

By Percentage— Physiotherapy, 100; CNIB Stand, 100; Theologs, 82.6; Agriculture, 72.2; MLS, 72.1; Phys Ed, 53.7; House Ec, 53.3; Dents, 51.1; Engineering, 45.5; Meds, 44.2; Pharmacy, 39.0; Arts and Science, 34.5; Education, 33.8; Commerce, 32.7; Nursing 23.6; Law, 19.0; Grad Studies, 2.4.

Ballet In Auditorium

An evening of ballet will be presented in the Jubilee Auditorium on March 29 at 8:30. The troupe is headed by Ruth Carse, an Edmontonian who took further training in Toronto, has danced in many Canadian Festivals, on TV's "Show Time", and at Radio City Music Hall in New York. Miss Carse has done choreography for Edmonton productions of light operas, and for all the ballets performed with the Edmonton Symphony Orchestra.

First-year U of A student Sheila McCallum will dance the lead in both the new ballet "Quest" (music from Gounod's Faust) and "Frolic" (Johann Strauss, Jr.). The other dances on the program are "Crystal Fantasy" by Glazounov, and Tchaikovsky's "Nutteracker Suite".

The Muriel Taylor School of Dance in Edmonton serves as training school for this group, which is known as "Alberta's Own Ballet Interlude". Tickets for this event, sponsored by the Women's Musical Club, can be obtained at the Celebrity Box Office in Heintzman's, GA 2-4801, or at the Auditorium Box Office on March 29. Tickets cost \$1.00 for students, \$2.00 for others.

Tories Fly

Four University of Alberta students are in Ottawa today attending the annual general meeting of the Progressive Conservative Party.

Miss Dorothy Jean Stewart will tonight take part in a nationally telecast presentation to Prime Minister and Mrs. John Diefenbaker.

Saturday, new national officers of the Progressive Conservative Student Federation will be elected. Alberta law student Cliff O'Brien is running for western vice-president of the association.

Attending the convention from U of A are Miss Stewart, Lawrence Chapman, Fred Walker and Joe Clark.

Blue Haze Will Vanish From Library Smoking Room

An acute shortage of space in all departments will force the conversion of the Smoking Room in the library to stack space, Students' Council learned Tuesday.

A letter from head librarian Bruce Peel stated Councils' counter proposal: that seldom-used books be stored, and the Smoking Room remain open, was impractical due to the technical difficulties in cataloging and selecting these volumes, the great number of new books which will be acquired in the next few years, and the huge number of new students expected who will need

study space.

He also stated that he fully realized the need for students to have a place to relax and smoke, and a substitute spot would be provided if possible.

The closure of the smoking room will not take place until March or April of 1962, and will remain in effect until the completion of the new library, tentatively scheduled for the 1963-1964 session at the earliest.

Council sent a letter thanking him, stating that they appreciated his position, and asking him if the book facilities in the new Math-Physics buildings were being utilized.

WAA's Give Awards At Annual Shindig

Almost 150 sports-minded females received minor awards at the Women's Athletic Association awards coffee party Saturday afternoon in Wauneita Lounge.

The annual event also saw Lorna Saville, new president of Women's Athletics receive the gavel from retiring president Pat Jackson.

Convened by Esther Estrin, the coffee party had a very good attendance, including representatives from each faculty. Miss Hastie, honorary president of the Association presented the Rose Bowl to the education physical education leaders in total aggregate intramural points.

Gail Hollingshead received the T. M. Johnston award for her intramural contributions.

Minor awards with the number of winners include: Gold "A" pins (14); riders to Gold "A" pins (10); Gold "E" pins (5); Felt "A" (81); Bar to Felt "A" (13); Felt "E" (19); and

WCIAU guards (2) and pins (4).

Unit trophies went to physical education for archery, golf, volleyball, swimming and badminton singles; to education physical education for basketball, bowling and badminton doubles; to pharmacy for tennis and to home economics for curling.

Films of various intramural events during the year were shown at the conclusion of the afternoon.

JUDO CLUB—The U of A Judo Club will finish its year of activity with an Invitational Limited Tournament on March 25 at 7 p.m. in the PEB Gym. There will be ten other clubs in the province participating and each club is limited to the top 3 participants in each of the 6 grade divisions. This method of presenting a tournament has been done to give the public the best possible judo entertainment and cut down the lengthy tournaments as seen in past years. Events will commence promptly at 7 p.m.

\$12,139,000

A total of \$12,139,000 has been appropriated by the Alberta Government for University purposes for the next fiscal year according to the budget introduced in the Provincial Legislature recently.

Of this amount, \$8,000,000 will go towards current expenses, and \$4,139,000 for capital costs.

The current account allowance is more than twice what it was two years ago:—in 1959, the University received \$3,947,000 for operating expenses. This was increased to \$6,000,000 last year.

"We expect to be able to operate effectively during the next year on this amount," Dr. W. H. Johns, University president, stated Monday.

Capital construction allotments are down \$6,662,000 from last year, and down \$5,861,000 from 1959's budget.

CONSTRUCTION SLOW-DOWN
"Our two-year crash building program is now completed," Dr. Johns said. "We never expected to continue at the rate of more than \$10,000,000 per year, once the Ma-

thematics-Physics-Chemistry, Physical Education, Medical Sciences, and Engineering Buildings were well on the way to completion. The construction that we intend to undertake in the immediate future—notably libraries and residences—will be partly covered by funds from other sources.

The Central Mortgage and Housing Corporation may help finance the new residences, while Canada Council offers may contribute to the completion of the residences and libraries.

The \$4,139,000 will be used to construct the Calgary gymnasium, and begin work on Edmonton's Education Building and Infirmary. Several smaller jobs are also planned, including paving, street lighting, and landscaping. The UAC PEB is the biggest single item covered entirely by the provincial grant. Costing about \$1,000,000, it should be completed early in 1962. Work began a few weeks ago.

FEES CONTRIBUTE

Fees tuition, summer session, examinations (and so on) will contribute another \$2,600,000 to U of A's current account. Federal grants, income from the operating departments (residences, bookstore), and gifts and endowments also increase the University's total budget.

Other highlights from the provincial budget:

- University and other students may receive a total of \$1,056,000 in scholarships and grants, and \$382,000 in loans during the next year. "I am glad to see that these monies are available," Dr. Johns stated. "With the raise in fees, financial assistance for students is becoming increasingly important."

- \$1,013,000 has been tagged for continued construction at the University of Alberta Hospital, including rebuilding much of the old wing.

- \$980,000 has been budgeted for the completion of the public works department's power plant, at the south-west corner of the campus.

- A cancer clinic is to be built to operate in conjunction with the Hospital and the Faculty of Medicine. \$10,000 was set aside for planning.

Students Attend Work Camp

Ottawa (CUP)—Two Canadians will attend an international work camp in Chile March 15 to April 15 to carry out a plan initiated by NFCUS to help rebuild a town ruined by earthquakes last spring.

Jacques Dufresne of Laval and Michael Phillips NFCUS Associate Secretary will help construct a community welfare centre on the outskirts of Concepcion. The project—suggested by NFCUS at the International Student Conference in August—is sponsored by Cosac and the Union de Federaciones Universitarias de Chile (UFUCH) in direct co-operation with Concepcion University.

Dufresne and Phillips will receive travel grants from Cosac which is the administrative secretariat of the International Student Conference. They will join students from North, Central and South America and the Caribbean as well as six students with technical experience from Asia, Africa and Europe.

This is the second international work camp. The first was in the village of Sakiet Sidi-Youssef, Tunisia in the summer of 1959. Students from around the world—including three Canadians—helped rebuild a school house which was bombed by the French in 1958.

Marki Wins Woodrow Wilson

John Marki, a fourth year arts and science undergraduate at the University of Alberta has been awarded a \$1,500 scholarship by the Woodrow Wilson National Fellowship Foundation.

These scholarships are given annually to outstanding Canadian and United States' students in the humanities, social sciences, and natural sciences.

Three other students from the province were awarded scholarships. They are Douglas L. Maxwell of Edmonton who is now attending Pomona College, California; Ronald E. Pearlman of Calgary, attending McGill; and Diana E. Shlanka of Stirling, attending U of S.

A total of 1,333 students have been selected for the 1961-62 awards, including 84 Canadians.

The scholarships are meant to encourage students to take college teaching as a career. Winners may attend any qualified graduate school in Canada or the United States.

The program is supported from a five-year grant of \$24,000,000 made in 1957 by the Ford Foundation.

Music Concert

Students in the Bachelor of Music programme will give a recital in Convocation Hall tonight at 8:15. Highlighting the program will be three student compositions, played by the composers.

The student works are Rondo for Piano by Lyne Newcombe, Eileen Turner's "Song of Desolation" and Wolfgang Bottenburg's Trio for Flute, Clarinet and Bassoon.

Father Bottenburg will be joined in the latter work by flautist Joan Pecover and clarinetist Ernest Dalwood, while Angela Dalrymple will accompany Mrs. Turner in her song.

Other works on the program are Bach's Toccata in D minor and Schumann's Piano Sonata in G minor, played by Lynne Newcombe; eight numbers from Schumann's "Scenes of Childhood", performed by Darlene Ball; and Haydn's Sonata in E flat, played by Robert Cockell.

No admission will be charged to students at this concert.
