

26726

July 27, 1915.

Dear Sir:

I have before me your letter of July 13th received in my absence. The study of employment problems will doubtless form a part of the investigation of industrial relations which has been committed by the Foundation to Mr. W. L. MacKenzie King. For that reason I have forwarded your inquiry to Mr. King, though Mr. King has probably not reached that point in his studies which will enable him to supply information that will be of material assistance.

Very truly yours,

Mr. John N. Hazen, Secy.,  
Society for Study of Employment Problems,  
29 West 39th St.,  
New York City.
