

They likewise express their sincere regret that Miss Campbell, who has been teacher for two years, has resigned her situation, as she is desirous of attending the Normal School. Miss Campbell has not only been a faithful and energetic teacher, but the moral influence she has exerted over the young under her charge, and the great pains she has taken to instil religious truths into their minds, has made her services truly valuable to the Institution.

The young ladies have continued to visit the School, as in former years, to teach the children, who have benefitted greatly by their instructions.

The industry of the girls may be mentioned. They have earned nearly eight dollars by their plain sewing, which has greatly assisted in purchasing their spring clothing.

Ere concluding this Report, your Committee are sorry to say that Mrs. Dr. Austin, Treasurer for ~~two~~ ¹⁸⁸⁴ years, who has so efficiently discharged the duties of her office, has resigned on account of the delicate state of her health. Mrs. Cornish has kindly consented to accept of the office.

Mention has already been made of the inadequacy (as regards room necessary for the efficient working of the Institution) of the premises now occupied. The Committee would therefore respectfully invite the serious attention of the friends of the Institution to the important matter of taking steps for the erection of new buildings. In their judgment, such an undertaking would be crowned with great success.

Sincerely trusting that God's blessing may continue to rest on this Institution, in which so many young girls are being trained to a life of usefulness, and which embraces the relief and visitation of all deserving applicants.

Respectfully submitted,

AMELIA GARDNER,

Secretary.
