Every Farmer

Should have this account book,

"The Private Secretary,"—400 pages.

8x5=40. That's easy. But when you wish to calculate the value of a load of lumber, say 1284 feet at \$18.65 per thousand, or a load of oats, say 2145 lbs. at \$5.65 per hundred, it requires more mental exertion, and when done you feel doubtful whether your work is all correct or not. All this is worked out in **The Private Secretary**, and guaranteed correct, ready for you to place your thumb on index, open the book and see the answer. The book contains many other valuable helps which will be used every day. Price \$1.00, prepaid to any address.
