

I WILL CURE YOU FIRST THEN YOU PAY ME

Dr. S. GOLDBERG,
The possessor of 14 Diplomas and certificates, who wants no money that he does not earn.

The physician who has not sufficient confidence in his ability to cure his patients first, and receive his pay afterwards, is not the man to inspire confidence in those who are in search of honest treatment.

My acceptance of a case for treatment is equivalent to a cure, because I never accept incurable cases. I am satisfied to receive the money for the value I have given the patient, but I expect to prove my worth and show positive and satisfactory results before I ask for the fee. So, should I fail to cure the case, the patient loses nothing, while when I cure him I have given what is worth much more than money—I have given him his health again. I am the very first specialist in the United States who has had sufficient confidence in his ability to say to the afflicted,

NOT ONE DOLLAR NEED BE PAID UNTIL CURED

There is no guess work, no experiment about my method. I am a known expert in my chosen specialties, and offer you the best and only the best treatment. When your life or your health is at stake, inferior treatment (which leaves after effects worse than the disease itself), is dear at any price.

I Have 14 Diplomas and certificates from the various colleges and state boards of medical examiners which should be sufficient guarantee as to my standing and abilities. It makes no difference who has failed to cure you, it will be to your advantage to get my opinion of your case free of charge.

PHYSICAL DEBILITY

The Latest Method Treatment is a heaven-sent boon to nervous sufferers. There are scores and hundreds of persons suffering from severe nervous disorders resulting from overwork, hurry, worry, business and domestic cares, bereavements, dissipation, etc. To their life is one continual round of misery, while peace, comfort and happiness are impossible. They suffer from headache, loss of memory, mental depression, strange sensations, dizziness, restlessness, irritability, constant indescribable fear, forebodings, sleeplessness, weakness, trembling, heart palpitation, cold limbs, utter fatigue and exhaustion. In this class of cases almost immediate relief is afforded by my treatment. The use of narcotics and poisonous stupefying drugs is done away with, and permanent cures accomplished.

I Cure Nervous Debility, Varicocoele, Stricture, Early Decay and Waste of Power, All Nervous, Chronic, Blood and Skin Diseases.

HOME TREATMENT

If you are in or near the city you should apply for treatment in person, but if you live too far away, write me a full and unreserved history of your case. You will receive as careful, conscientious and painstaking attention as if you were in my office daily. As men in different parts of Canada and Mexico, as well as all over the United States, are being cured by my system of home treatment. I feel fully justified in claiming that it is the most perfect and successful system ever devised. All physicians coming to me for consultation over obstinate cases which they are occasionally called upon to treat will receive the usual courtesies of the profession. Medicines for Canadian patients shipped from Windsor, Ont., all duty and transportation charges prepaid.

QUESTIONS AND ANSWERS. Miscellaneous.

BROWN LEGHORNS WANTED.

Could you let me know, through the "Farmer's Advocate," where to obtain about 50 to 100 Brown Leghorn pullets?

L. K.

Ans.—Advertise in the "Wants" column in the "Farmer's Advocate," or write our poultry advertisers.

EVENING PRIMROSE.

I am sending you a sample of a weed that I found on a piece of land I was walking over, and, as I do not know the name of it, would like you to name the weed in your paper. Is it a dangerous weed?

F. H. O.

Ans.—This is the evening primrose (*Oenothera biennis*). Neglected land sometimes becomes full of this weed, but it is not difficult to eradicate. It disappears before cultivation.

BINDWEED.

I send you under separate cover two different weeds. The one with the small leaf I found growing in the root ground; the other we have trailing on the garden fence. The latter I had in a field in Waterloo County and we called it bindweed. The small leaf, I saw it in the oats the last two years, but it did not bulk like down east. Please let me know through the "Farmer's Advocate" what they are?

D. S.

Huron Co., Ont.
Ans.—Both these plants belong to the morning-glory family. The one with the large leaves is either the single or double-flowered form of the hedge bindweed, often called the Rutland beauty. It is not nearly so bad a weed—that is, so difficult to get rid of—as the small-leaved plant, which is known as the small bindweed (*Convolvulus arvensis*).

STARTING A PURE-BRED HERD.

1. Would you recommend a young farmer, starting for himself, to invest in pure-bred cattle, say one or two heifers to start with?

2. What is the best way to become informed on the merits of Shorthorn cattle as to pedigree?

3. If starting with a very few, with a somewhat limited capital, would it be advisable to procure the very best, even at somewhat high prices, considering the length of time it would be before I would be able to realize on them?

W. R.

Ans.—1. Yes, if you understand the care and feeding of cattle.

2. By conversation with and enquiry of experienced and successful breeders, and by reading such a work as "Shorthorn Cattle," by Sanders, obtained through this office; price, \$3.

3. Yes, if within your means without embarrassment.

A WELL IN QUICKSAND.

Have a well dug in the sand, twelve feet to vein, cribbed up with cedar poles. After coming to vein, made a tight crib of lumber and tried to get into vein. The sand rushes in with the water and fills well up to the height the water rises. Will you please advise me, through your valuable paper, how to keep the sand back? Would it be a success to drive an iron pipe with holes inside into sand and fasten a pump to pipe? What kind of a pump would I require, and what size piping?

F. L.

Ans.—The quicksand would filter through the perforated pipe and fill it, so that plan would be useless. You have a difficult problem to solve, but we have seen it done by the use of a curb pressed down by a heavily-weighted well-digging machine, coarse gravel being packed in behind and bricking up inside the curb, which is pulled out board by board. A Mr. Harr, well-digger, of St. Thomas, Ont., has successfully operated a plan of that sort. Perhaps some of our readers can send us a clear and concise description of their plan of handling quicksand wells.

The auction sale of 20 imported two-year-old Clydesdale fillies, advertised by Mr. Wm. Maharg, of Russell, Ont., to be held in the City of Ottawa, on Friday, Sept. 29th, will afford a rare opportunity to secure good blood mares of the best of breeding at the buyer's own price. These fillies were selected by a first-class judge and some of them were bred to 14 stallions before leaving Scotland. See the advertisement and write for particulars or plan to attend the sale on the 29th.

Have Restored Thousands of Canadian Women to Health and Strength.

There is no need for so many women to suffer pain and weakness, nervousness, sleeplessness, anemia, faint and dizzy spells and the numerous troubles which render the life of woman a round of sickness and suffering.

Young girls budding into womanhood, who suffer with pains and headaches, and whose face is pale and the blood watery, will find Milburn's Heart and Nerve Pills help them greatly during this period.

Women at the change of life, who are nervous, subject to hot flashes, feeling of pins and needles, palpitation of the heart, etc., are tired over the trying time of their life by the use of this wonderful remedy.

It has a wonderful effect on a woman's system, makes pains and aches vanish, brings color to the pale cheek and sparkle to the eye.

They build up the system, renew lost vitality, improve the appetite, make rich, red blood and dispel that weak, tired, listless, no-ambition feeling.
