CAREY'S
MAGNESIA FLEXIBLE CEMENT
SHEETS NAILED PATD LAP UP
LAP CEMENTED DOWN
ROOFING

WHY Carey's is the Time-Proof Roof

CAREY'S Roofing has well earned its reputation of making the only really "time-proof roof." In laying it, the lower sheet extends two inches under the upper sheet. (See illustration.) The two sheets are securely nailed on to the roof boards, after which the Carey patent lap—an extension from the upper sheet—is cemented down and over nail-heads and seam, making an absolutely perfect, water-proof, wind-proof, rust-proof, sun-proof and time-proof union of sheet to sheet and Roofing to roof board. Then again, Carey's Roofing resists fire, will not melt, rot, dry out, crack, break nor lose its elasticity. It is equally adapted to flat or steep surfaces. For these and other good reasons fully set forth in our free booklet, Carey's is everywhere accepted as the best protection for any and all buildings about the farm.

Carey's Roofing is cheaply and easily laid over old shingle or metal roofs. Sold at Manufacturers' prices from nearby distributing point, insuring lowest freight rates. Write to-day for FREE sample of Carey's Roofing and our interesting booklet.
