

For the Land's Sake

Get a "Champion"

A Manure Spreader should be just as much an essential to your farm equipment as a Binder; in fact, it should be more so, because if you use a Manure Spreader properly, you will very soon find that your increased crop returns will more than warrant you in purchasing the best and most up-to-date harvesting machines.

The machine you should purchase is the "Champion." You will find that statement correct when you examine the different machines now being offered on the Canadian market.

The "Champion" is the direct result of 29 years' experience in this particular field. We know by experience—not by hearsay—what the

conditions on Canadian farms demand, and we have the facilities to meet those requirements.

The "Champion" is simple and strong. The Beater is driven directly from a large sprocket wheel on the rear axle—and just here note that the "Champion" rear axle is 2½ inches in diameter. That's the part that has to carry the load and transmit the power. The wooden part of the frame is made of sound hardwood and will stand all hard work on rough land.

We have no room here to describe this machine in detail. If you are an up-to-date farmer you want to know all about up-to-date machinery. We can supply your wants. Our catalogue describes our line.

The Razor Steel, Secret Temper, Cross-cut Saw.

Take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge, and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge." This secret process of temper is known and used only by ourselves. These saws are elliptic ground thin back, requiring less set than saws now made perfect taper from tooth to back. Now, we ask you, when you go to buy a saw to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best. Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand. It does not pay to buy a saw for one dollar less, and 1-1/2 cents per day in labor. Your saw must hold a keen edge to do a large day's work. Thousands of these saws are shipped to the United States and sold at a higher price than the best American saws. Manuf'd only by SHURLY & DIETRICH, GALT, ONT.

Good Music Drives Away the Blues

The long evenings sometimes grow monotonous, unless one has unlimited energy, or an endless number of friends—even then—

—But why not make yourself a present of a

Victor-Berliner Gram-o-phone

"HIS MASTER'S VOICE"

—which brings the best in music and vaudeville right to your home?

A child can reproduce, from a Victor-Berliner, the best music in the world, both vocal and instrumental. Just turn a key, and Caruso will sing (you'd pay \$5 to hear him in New York)—Sousa's Band will play—or a two-step will be run off, to which the youngsters can dance. There's everything, from sacred music to clever monologue. And you can adjust the instrument to give very soft music or to pour out thunders of sweet sound.

The Victor-Berliner charms everyone with its clear, smooth, velvety tone, and its freedom from grating and jerking. Prices, \$12.50 to \$110. Ask for booklet, illustrating the 3000 different records—and don't be afraid to ask to hear the Victor-Berliner Gram-o-phone.
