THE SIMPLE, KODAK WAY

DEVELOPING films in the Kodak Film Tank is so easy, and so little apparatus is needed, that you can do all the work on the kitchen table and have room to spare. The Kodak Film Tank can be used in any light - no dark-room for any of the processes. The experience is in the tank, so you won't waste any time or materials in learning how.

The important part of it is that a beginner who uses the Kodak Film Tank gets better results than the veteran Kodaker who clings to the dark-room method. Developing films will make many a winter evening pass quickly, and will give you that satisfaction which comes from doing every part of the work yourself.

Ask your dealer or write us direct for a free copy of the booklet "Tank Development."

Maple-Syrup Makers!

Do Not Lose the First Runs of Sap, as they are the Most Profitable.

As we make 22 different sizes of Evaporators, and they are made both right and left handed, it is impossible for us to carry a complete line of all sizes in stock, so orders are filled in rotation as received. If your order comes in first you will get your machine first. Each season we experience a great rush of orders in the month of March. Don't put off placing your order until that time. Write us TO-DAY for our free booklet, giving you all information in regard to sugar and syrup making.
