

"Scrub" Cream Separators as Unprofitable as "Scrub" Cows

This is the good advice one of the big and long experienced Western cream buying concerns gives to its farm separator patrons, being taken from a letter to one of them:

"We believe the DE LAVAL is the best separator made. We feel that anyone wishing to purchase a separator makes a great mistake unless he purchases the best machine on the market. No one can make a success of dairying by continuing to use scrub cows. Neither can he make a success of dairying by using scrub separators."

There couldn't well be a more simple, comprehensive and forceful statement of the whole cream separator proposition than this. It's just plain common sense.

"VANCO" Arsenate of Lead

Will Destroy Every Kind of Leaf-Eating Insect

SPRAYED

Not Sprayed

Every kind—mind you. Codling Moths, Potato Bugs, Cabbage Worms, Asparagus Beetles, Canker Worms—anything that eats the leaves or destroys the fruit—of

**APPLE
STRAWBERRY
PEAR
GOOSEBERRY**

**POTATO
TOMATO
CABBAGE
ASPARAGUS**

**PEACH
CHERRY
PLUM
GRAPE**

The Norfolk Fruit Growers Association of Simcoe, Ont.—the largest in Canada—used "VANCO" Arsenate of Lead last spring. The Canadian Government reports show that their fruit was 90% Number 1—which shows that it pays—and pays well—to use only high-grade spray chemicals.

With "VANCO" Arsenate of Lead, there is absolutely no danger of burning the foliage, no matter in what proportions it may be used.

It is made so fine and put together in exactly the right proportions. It does not settle in the spray tank, as does Paris Green. It sticks well, and will stand two or three rains.

It is easily seen in the leaves—thus making it easy to know when plants and trees are completely sprayed.

Then, too, "VANCO" Arsenate of Lead is made right here in Toronto. There is no duty to pay on it, and the freight charges are small.

THE "VANCO" BOOK will help you to get the best results from sprays—it tells when and how to use them. Write for a free copy.

FERTILIZERS—Nitrate of Soda, Muriate of Potash, Sulphate of Potash and Acid Phosphate—of guaranteed analysis. We are the only house in Canada making straight Chemical Fertilizers.

SAVE FREIGHT—by ordering Fertilizers and Spray Chemicals together, so we can make one shipment of both.

CHEMICAL LABORATORIES LIMITED — 148-158 Van Horne St., TORONTO.
