

## Better Than A Windmill For Pumping

A Windmill only pumps water when it pleases the WIND to blow. The Renfrew Standard pumps water whenever it pleases YOU to have it pumped.

**Renfrew Standard**  
*It starts without cranking*

A Windmill costs a good deal of money, while a pump jack attachment for a Renfrew Standard engine costs only a few dollars.

Pumping water is only one of the many uses to which the Renfrew Standard gasoline engine may be put on the farm. Our booklet and circulars show many other ways in which you may use this engine to advantage.

The Renfrew Standard is the most talked about, and the most favorably known, gasoline engine in Canada today. The very fact that it starts without cranking in all kinds of weather would be cause enough to bring about widespread discussion. But there are other reasons, too, for making people talk. There is, for instance, the remarkable simplicity of construction. So simple, a young boy can understand and run the Renfrew Standard. Has no pipes or fittings to leak or freeze, no cooling pumps or fans to get out of order.

Then there is the governor of the fly-ball (steam engine) type that allows speed of engine to be varied at will, without stopping the engine. And a carburetor of wonderful simplicity. And valves so arranged that the gases explode as perfectly as a cartridge in a shot-gun. Other features, too, which are fully described in our booklet. Write for a copy.

## Questions and Answers. Miscellaneous.

### Horse Running Away.

As A steps from buggy, the horse makes a jump and jerks the lines from his hands, runs into B's horse, kills itself, and injures B's horse. A's horse never ran away before. Can B collect damages? If so, how?

Ontario. **SUBSCRIBER.**

Ans.—We do not think so.

### French and German Coach Horses.

What is the difference between French and German Coach horses? Which is the heavier, and which is the more active?

Ans.—The difference between the German and French Coach horse in America is not distinctly marked. As seen at large fairs and exhibitions, representatives of the breeds show a slight variation in size in favor of the German Coach. The German Coach stands from 16 hands to 16½ hands high, and weighs from 1,350 to 1,450 pounds. The French Coach stands about 16 hands high, averaging approximately 1,390 pounds. Any superiority in style and action must be attributed to the French Coach horse, which, though slightly smaller in body, possesses excellent quality of bone and feet, and a trot or stride superior to that of the German Coach.

### Finish for House.

I cannot do without "The Farmer's Advocate," and encourage every farmer, farmer's wife, son and daughter, to write experiences, and tell how they have profited by their mistakes. I would like someone to give me the best and cheapest way to finish the walls of a frame house on the inside—a good farm-house—for warmth and cleanliness.

Ans.—There are several ways to finish a house. Of course, most houses are lathed and plastered. For warmth, it is a good plan to lath and plaster between the studs, and then on the studs. There is no more sanitary wall than a hard-finish plaster. As the house grows older and the walls become dirty and smeared, some paper, others cover with paint or kalsomine. Asbestos makes a very nice ceiling, and there are several brands of wall boards and metal ceilings, which are clean, durable, and give good satisfaction. Any of our readers having good designs for inside finishing are invited to outline them through our columns.

## HOLSTEIN-FRIESIAN CATTLE

at

## Hillview Farm, Komoka, Ontario

(10 miles West of London on C.P. and G.T. Railways. C.P.R. Stn. on Farm.; G.T.R., 1 mile.)

on

**WEDNESDAY, OCT. 22nd, 1913, at 1 o'clock** Sharp, Storm or Fine.

This comprises one of the best herds of dairy cattle in Western Ontario. The twenty-one cows in milk are a grand lot of producers, including a number of specially promising two-year-olds. Five choice yearlings are a feature of the offering; and nineteen calves, eleven heifers and eight bulls are second to none, being fashionably bred and showing high individual merit. All these cattle, over one year old, were subjected to the tuberculin test in May and not a single animal reacted.

C. P. R. noon trains going both ways will stop at Komoka on day of sale. Catalogues on application to D. Campbell, Prop., Komoka, Ont.

**LINDSAY, POUND & DIBB, Auctioneers.**

**JOHN McPHERSON, Clerk.**

## FAIRVIEW FARMS HERD

**REMEMBER:—Pontiac Korndyke** sired the bull that sired the new 44-pound cow Do you want a sire to use that has such transmitting ability? If so, secure a son of Pontiac Korndyke, or Rag Apple Korndyke 8th, the strongest bred Korndyke bull in the world.
