### NEW BRUNSWICK.

The Rev. Mr. Thomson has received from a friend in New York the handsome donation of \$500, to aid in erecting the Free Church in this City .- New Brunswicker.

THE PROVINCIAL LEGISLATURE, has deenprorogued by Proclamation in the Reyal Gazette of Wednesday last, to Thursday the 7th day of February next, then to meet for the despatch of business .- St. John Courier of the 224 inst.

CHANGE OF MAIL DAYS .- We understand that the Mail which was despatched from this City last week for England, did not reach Halifax in time to be forwarded—the Steamer Europa having arrived early on Friday, after a run of only sixty-four hours from New York, and proceeded soou after on her voyage to Liverpool. To prevent such serioue disappointments in future, the Mails for England will bereafter be closed some twelve bours earlier than formerly .- Ib.

MECHANICS' INSTITUTE. -On Monday evening last, Dr. Dow gave the first of a series of fectures on the buman system, in which he confined his remarks more particularly to the bones of the human frame. The lecture. although on a dry subject, was amusing and instructive. He will deliver the second lecture of the course on Monday evening next; and will close the course on the Wednesday following.

Last evening, Professor Johnston entertained a large and highly respectable audience with a brief outline of his report on the Agricultural capabilities of New-Bounswick. Tue Professor was nearly two hours engaged in going over his important and interesting details, which in several points were explained by maps; and we are happy to add the'results of the present investigations and inquiries of this truly scientific lecturer, with regard to the agricultural capabilities of the Province, were of a highly flattering character -proving, as they did, that the average production per acre, of Wheat, Oats, Barley, Potatoes, and Turnips, was greater in this Province than in Upper Canada, or the celebrated agricultural States of Ohio and New-

We observed that George Blatch, Esq. was employed in taking short-hand notes, and a full and correct report of the lecture, from this able stenographer, may therefore he expected. - 16.

FIRE AT SUSSEX VALE.-The House at Sussex Vale known as the College Building, from its having been, many years since, used as a Seminary for the instruction of the Indians, was destroyed by fire on Sunday last. The building, we are informed, was occupied latterly by a Mr. Stewart, and belonged to the estate of the late Mr. Henry Lingmaid. We have not learnt how the fire originated .- Ib.

## CANADA.

A circular was issued from the Secretory's Office on the 5th jest., addressed to some twenty gentlemen in Montreal, holding Commissions of the Peace, &c , who having been previously called upin, acknowledged that they had signed the address to the people of Canada, generally termed the annexation manifesto. The circular closes by inforrang them that Her Majesty has no further occasion for their services.

Excellency the Governor General has been pleased ed to revoke the Commissions appointing John Rose and Francis G. Johnson, Esquires. Her Maa sty's Counsel learned in the Law.
