

## Durability Efficiency Rapidity

The stationary burr of the **Maple Leaf Grinder** is provided with relief springs and a breakable pin, insuring against broken burrs if a hard substance passes through in the grain.

The fineness of the grinding is regulated by shifting the stationary burr—not by moving the driven burr and shaft back and forth.

The end of the shaft runs against a ball-bearing, preventing friction and making the "Maple Leaf" most economical of power.

Frame very strong and well balanced; adjustable shake; best of workmanship and finish. Made in 8, 10, 11, 13 and 15 inch sizes. The 10 inch size has been known to grind 75 to 100 bushels per hour.

See the Cockshutt Agent or write direct.

## This Watch Free

Here's what it's like  
and how to get it.

**This Watch** is 16 size, nickel, open face, seven jewels, enameled dial, stem wind, stem set. A reliable timekeeper for man or boy.

**Send Us** THREE NEW SUBSCRIBERS to the **FARMER'S ADVOCATE AND HOME JOURNAL** at \$1.50 each, and we will immediately mail you the watch, neatly and securely packed. As an extra inducement, you may promise the paper the balance of this year and all of next year for the \$1.50. But the subscriptions must be new ones, not renewals. Don't miss this opportunity to secure a splendid watch in your lifetime.

### The **Farmer's Advocate** Knife

This knife is made by the Joseph Rogers & Sons two-bladed folding pocket knife. Send us your own subscription and one new one for a year, and we will mail the knife to you.

Made with **'ABSOLUTELY TIGHT JOINTS'**

The steel combustion chamber in an ordinary furnace is not nearly so durable as the cast iron combustion chamber, so heavy as to be practically a continuation of the fire pit, in the Hecla Furnace. There is no possibility of gas, dust, or smoke escaping through the registers. Its patent fused joints, found alone in the Hecla, prevent this. Write for catalogue to Winnipeg Branch.
