

# RED ROSE TEA "is good tea"

The ORANGE PEKOE QUALITY makes  
finer tea and more of it

## Surnames and Their Origin

**WOOLLEY.**  
Origin—English.  
—A locality.  
This is a family name likely to puzzle or deceive you as to its origin. It is almost impossible to get away from the idea that in some way it is connected with the word "woolly." It has nothing to do with wool, however. Nor does it belong to that class of family names which have developed from phrases descriptive of personality in some way. It is a development from a name which was descriptive of a locality, or localities, in which its bearers lived, or with which they were connected in some way. You don't recognize its origin because it is a compound of Anglo-Saxon words, one of which has disappeared and one which is nearly obsolete to-day. "Wold" was a word used by the Anglo-Saxons to designate something wild or uncivilized, a sort of wilderness. You'll get the connection by changing the "o" to an "i" in the word. And "ley" in its broadest sense meant "land" or ground. A "wold ley," therefore, was a wild or uncultivated piece of ground, or hillside, without the normal forest growth.

## TEETHING TROUBLES

Baby's teething time is a time of worry and anxiety to most mothers. The little ones become cross; peevish; their little stomach becomes deranged and constipation and colic sets in. To make the teething period easy on baby the stomach and bowels must be kept sweet and regular. This can be done by the use of Baby's Own Tablets—the ideal laxative for little ones. The Tablets are a sure relief for all the minor ailments of childhood such as constipation, colic, indigestion, colds and simple fevers. They always do good—never harm. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## The First Banks.

Few things play a more important part in our lives to-day than the system of banking.  
The word bank originally meant a tradesman's stall, and the modern sense existed about 2,700 years ago. We learn about this bank from clay tablets discovered near Babylon. Apparently the first firm of bankers was that of Egibi and Son, who flourished in Babylon about 600 or 700 B.C.  
The early Chinese were in the habit of issuing paper money—indeed, they got into difficulties by issuing too much. There was a bank in China about A.D. 1,000.  
But banking as we understand it to-day did not begin until the twelfth century, when the Bank of Venice was established. This was followed by the Bank of Barcelona, in Spain, and the Bank of Stockholm, in Sweden. The latter was the first bank in Europe to issue paper money. This was in 1668. Other early banks were the Bank of St. George, at Genoa, the Bank of Hamburg, and the Bank of Amsterdam.

## WHERE THE BEST TEA GROWS.

Tea plant flourishes best on the drained side of a mountain in a dry where there is plenty of moisture and a warm sun. Certain parts of Ceylon, India and Java are ideal for the growing of delicious tea, hence from these countries come the finest varieties. "SALADA" is a blend of the sweet qualities grown in these, the most famous tea-growing countries in the world.

Wasn't Sure.  
She—"Don't you think the Van Lear's all have a wonderful car?"  
He (absolutely)—"I know they used to, but I thought they sold it and got an automobile."  
Keep Minard's Liniment in the house.

## Is Baldness a Blessing?

Bald people usually bemoan the loss of their hair and sign for the locks which have gone for ever. But there is at least one advantage which comes from baldness.  
For example, have you ever met a bald man who was consumptive? It has been proved that bald men are peculiarly immune from this disease. One doctor has said that out of five thousand consumptive patients not a single one was bald.  
Baldness is sometimes caused by bad dieting; but more frequently by letting the cold and damp penetrate to the roots of the hair. A man will emerge from a barber's shop with his hair wet even on the coldest day.  
Excessive exercise is liable to bring on baldness. Athletes become overheated, and, when they cool off, their scalp becomes chilled.

## HOME TREATMENT SAFE AND EFFICIENT

### Ailing People Made Strong by Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills do one thing, and do it well. They build up the blood, increasing the number of red corpuscles. As this is done the blood becomes a richer red and is able to carry more oxygen, the great supporter of human life. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. This is the reason Dr. Williams' Pink Pills have been so successful in the treatment of diseases due to poor, thin blood, and it is also the reason why they are so successful in building up strength after fevers and acute diseases. Among those who have used Dr. Williams' Pink Pills with great advantage is Mrs. Helena B. Taylor, Hanover, Ont., who says: "Not long ago I was critically ill. The trouble started with anaemia and a run-down system, and ended with pleurisy. I was confined to my bed for three months and three doctors were in attendance at different times. My life was despaired of, and I was practically living on doctors' medicine, because I could not eat. My friends did not expect me to recover. During my girlhood Mr. Williams' Pink Pills had brought me through a severe attack of anaemia, and my mother urged that I should try them again. The doctor could not understand why I wanted to try these pills, but we decided to do so. After taking six boxes a decided change was taking place. I was actually getting hungry and anxious to live. After using twelve boxes a miracle was worked. I could walk and felt my strength coming back, and people on all sides were asking what was helping me, and we were not slow in telling them it was Dr. Williams' Pink Pills. With my health fully restored through the use of these pills I am a striking example of what this wonderful medicine can do, and now I never see a pale or sickly-looking girl or woman that I do not feel like going up to her and asking why she does not take Dr. Williams' Pink Pills."  
You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Yes, That's What He Meant.

Count DeBank—"What you call that department of your church for young people that is always giving ice cream festivals?"  
Church Member—"Oh, you must mean our sundae school, I'm sure!"  
His Last Chance.  
A certain canny Scotsman had carried on a courtship of long duration without definitely committing himself. The girl, if she worried herself at the long probation, gave no sign until one morning her tardy lover, thumbing a small notebook, said: "Maggie, I have been weighing up your gold points, and I have already gotten ten. When I get a dozen I'm goin' ta ask ye the fatal question."  
"Weel, I wish ye luck, Jock," answered the maiden; "I have also gotten a wee book, and I've been puttin' doon your bad points. There are nineteen in it already, and when it reaches the score I'm goin' ta accept the blacksmith!"  
Where is Florence?  
An old colored woman came up to the ticket window at a big railway station and addressed the agent. "I wants a ticket fo' Florence," she said.  
The ticket agent spent some minutes turning over railway guides apparently with no success and then asked: "Where is Florence?"  
"Settin' over dar on de bench," replied the colored woman.  
The unfailing mark of strength is patience.  
The woman who knows how to manage a man never gets him-know it.  
Ask for Minard's and take no other.

## Antiquities at the Royal Ontario Museum.

Comparatively few people are aware of the fine collections of antiquities which are displayed in the Royal Ontario Museum of Archaeology in Toronto. Space in the building is already at a premium and those in charge live in constant hope of the erection of a new wing, which would permit of an advantageous display of the many interesting and instructive specimens at present packed away in storerooms.  
From time to time the Department of University Extension, University of Toronto, issues bulletins designed to keep the public in touch with noteworthy additions to the archaeological collections and keep people posted on the historical value of the museum's exhibits. A recent bulletin describes sections of the Chinese, Canadian and Indian pottery collections, as well as recent additions to other groups.  
A Lohan or Apostle of Buddha, the gift of Mrs. H. D. Warren, amply illustrated and described in the pamphlet, attracts considerable interest. It is a Chinese pottery figure of the "Tang" dynasty, measuring 41 inches in height. The statue, which is delicately modeled in white clay, and covered with green, yellow and white lead glazes, is supposed to be one of sixteen Lohan or disciples of Buddha thought to have been taken from a remote mountain sanctuary in Chihli some years ago. The Lohan, represented as a young man, was a human being who had reached the end of the eight-fold path and had attained perfection and enlightenment. Other statues of the Lohan group are to be found in the British Museum, the Boston Museum of Fine Arts, the Metropolitan Museum in New York, where there are two, the University Museum in Philadelphia, and the Matsukata Collection in Japan.  
Of no small appeal to Canadians both from the patriotic and artistic point of view is the description of the Museum's two cases of Canadian-made pottery. This collection is the work of J. S. Keele of the Dominion Department of Mines, Miss Adeline Wade-worth and the pupils of Miss Groocock at the Central Technical School, Toronto. The clays are taken from Muskegon, and various other parts of the Dominion from coast to coast.  
From the ancient New World has come a distinctive group in the pottery section, namely Indian pottery from the Casas Grandes region of northern Chihuahua, Mexico. This was originally part of a collection which was divided between the Museum at Santa Fe, New Mexico; the Archaeological Society of Washington, by which it was deposited in the National Museum; and the Royal Ontario Museum, thus giving these three institutions remarkably complete series of this class of early pottery. The pieces, of which numerous illustrations are given, are done in plain, black, red and polychrome. The usually thin walls of the vessels bear witness to the skill of the potter and the fine quality of the clay used, while the design and coloring excites admiration. This pottery is known to have been made before Columbus even dreamed of a New World.  
The impression of a preponderance of art over utility is given by a beautifully executed wheel-lock petronel, a recent addition to the Arms and Armer collection. This gun, the gift of Robert Mond, is of German workmanship, dating from the latter half of the sixteenth century. Despite the fact that the stock of the gun is delicately inlaid with stone and the butt terminates in a pear-shaped formation much like a spear-head in appearance, the weapon was apparently deadly enough for the age. The German Reiters gained no small reputation for themselves due to their skill with this weapon which had the advantage over the more ancient match-lock gun that it could be car-

## Reader Takes Newer Form of Iron—Feels Years Younger

"Six weeks ago I saw a special offer in the paper telling how thousands of people grow old in looks and energy long before they are really old in years, because, as examinations by physicians have shown, an enormous number of people do not have enough iron in their blood. I have been taking Nuxated Iron for two weeks; the results are simply astounding. The roses have come back in my lips and cheeks, and I can consciously say that I feel ten years younger."  
The above is a typical hypothetical case showing the results that have been achieved by a great many people since we started this "satisfaction or money back" offer on Nuxated Iron. We will make you the same guarantee. If, after taking the two weeks' treatment of Nuxated Iron, you do not feel and look years younger, we will promptly refund your money. Nuxated Iron at any good drug store.

## How to Purify the Blood

"Fifteen to thirty drops of Extract of Root, commonly called Mother Selge's Curative Syrup, may be taken in water with meals and at bedtime, for indigestion, constipation and bad blood. Persistence in this treatment will give permanent relief in nearly every case." Get the genuine at your druggist.

## BEFORE MY BABY CAME

### I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLER, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.  
Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.
