Application will be made at the present session of the Ontario Legislature for a Special Act to consolidate the Debtors and Floating Debts of the Village and to create a Patriotic Fund. The cost of erecting the town hall exceeded the amount realized from the sale of the debentures by about \$1800. The fire protection system also cost over \$400, more than the sum realized from the sale of the debentures and the unusually large expenditure for charity and Board of Health last year brought the floating debt of the village to over \$2500. The interest

on this amount, alone would be over \$150 annually without reducing the debt.

The amount required annually to meet the payments of the various debentures is nearly \$2500. In addition the calls for Patriotic purposes are likely to increase rather than diminish and the Council feel it is advisable to create a fund to meet these requirements rather than to take it out of current revenue.
