EDUCATION OF A TECHNICAL NATURE

Subject Discussed in Commons
GUTHRIE'S RESOLUTION
Assistance Asked in Establish- ing Service Between Can- ada and the Antipodes

OTTAWA, Ont., Dec. 6.—The subject of technical education, or, rather, the subject of lack of technical education in Canada, was the chief subject of debate in the Commons to-day. Hugh Guthrie (South) introduced a resolution in moving a resolution providing for the appointment of a Royal Commission of inquiry to investigate the needs of Canada in respect to technical education, and to report on ways and means by which these needs may best be met. The members spoke on the question, practically all agreeing as to the advantages that would accrue to the industrial and economic welfare of the country from following the example of Germany and other European countries in giving greater encouragement to more adequate training of artisans, but splitting on the question as to the wisdom of the Federal government interfering in education which Canada carries within the jurisdiction of provinces.

Hon. McKenzie King, in an effective and well-received maiden speech, pointed out the need for more adequate system of technical education, but at the same time, on behalf of the Government, said that action in the matter should be left to the provinces.

Replying to Dr. Daniel, Sir Wilfrid Laurier said an application had been received by the Government from the Imperial Export Company for assist- ance in establishing a regular freight steamship service between Atlantic ports in Canada and Australia and New Zealand. Communications had been received from trade agents in Australia and New Zealand and from Canadian shippers favouring the estab- lishment of such a service, but it was not thought advisable to disclose par- ticulars of these communications until the matter had been adjusted.

After a half-dozen members of the House had expressed approval of the principle of the resolution, a vote was taken at 11.30, and the motion to ad- journ debate was carried by 78 to 67.

It is probable that if the question of jurisdiction can be settled amicably with the provinces, and a desire is ex- pressed by them for action by the Federal Government, the House suggested in resolution, steps will be taken later in the session to provide for the appointment of a Commission.

PROPOSITION TO RUN G.T.P. BY ELECTRICITY

Through Forest Lands of N. B. and Quebec—Gathering at Ottawa Will Dis- cuss Proposal.

On December 15th there will be a meeting in Ottawa for the purpose of discussing a proposal that the Grand Trunk Pacific Railway Company should operate the road through New Brunswick with electricity, in order to protect the forest lands from fires. There will be at the meeting representatives of the provincial, Quebec and federal governments, the commissioners of the G. T. P., the railway commissioner and private companies. The local gov- ernment will be represented by three members of the executive, and Hon. J. P. Burchill and Mr. J. P. Byrne, the mover and seconder of the resolu- tion. Mr. E. B. Ryan, secretary of the Transcontinental Railway, will be present on behalf of his company. The Montreal Lumber Company, the Alexander Gibson Manufacturing Company, the N. B. Lands and Lum- ber Company and the Grand Falls Power Company are among the private corporations that will be repre- sented. The chairman of the Rail- way Commission will represent that body, while Sir Wilfrid Laurier and members of his cabinet will represent the federal government. As the new railway also runs through valuable forest lands in the province of Quebec Sir Lomer Gouin, premier of Quebec or a member of his cabinet, will be present to submit the views of his province upon the matter.

NEW FLEET OF BIG STEAMERS

Ocean Highway Between Canada and England Gets New Line

MacKenzie and Mann Purchase Two Twen- ty-Knot Steamers

Passenger Equipment of Highest Order—Grace- ful and Elegant

Sir Montagu Allan Hopes for Steamers to Com- pete With Lusitania

MONTREAL, QUE., Dec. 6.—Mr. William Mackenzie, president of the Canadian Northern, who has just returned from a trip to England, has purchased two first-class steamers to form the nucleus of a fleet for the Atlantic trade to be run in connection with the C.N.R. lines. The new steamers are the Cairo and Heliopolis, which have been engaged in the Medi- terranean trade between Marseilles and Alexandria, and upon which the Company has for some time had an option.

The new departure which this acqui- sition indicates is of the greatest sig- nificance as far as the present and future destiny of the Canadian Northern is concerned, as it means that the far- seeing heads of the company mean to be prepared with their fleets as soon as they get their transcontinental line in which there are still some pretty big gaps linked together.

Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, was here on Saturday, and it is understood that the principal object of his visit was the organizing of a steamship de- partment. At the present time the company has no special shipping agents at this port, but have distrib- uted their export business over sev- eral lines. By organizing a steamship department of its own, therefore, there will be no rupture of existing ties on the part of the Canadian Northern.

It is reported that the Cairo and the Heliopolis are practically 20-knot steamers on the Mediterranean, but it is doubtful if they would make so high an average speed on the Atlantic. Their passenger accommodation is of the highest order, and they are grace- ful and elegant, of the best French build.
