Silly Story From German Lie Factory

By Special Wire to the Courier] WASHINGTON, Sept. 30 .-Official and diplomatic quarters united to-day in discrediting a report of a secret Anglo-Japanese agreement under which Japan was to have a free hand in China, was to have a free hand in China, was to be permitted to send Japanese immigrants to all parts of the British Empire, which would include Canada, and Australia, and was to have a British loan of \$200,000,000, while Japanese troops were to assist in putting down disaffection in British

At the British embassy it was stated that official warning had been sent from Lendon some time ago to be prepared for such a report, British officials in China having advised the home govern-ment that the report would be set in circulation for the purpose of arousing antagonism. Nothing is known of the alleged loan, but it is said that if any funds have been raised through the London mar-ket it would be in the natural course of financial transactions and without the slightest bearing on the alleged agreement as to Japan's field of activity in China, immigration, etc.

(Continued from Page 1) LONDON, Sept. 30 .- For the first time in this war of nations, there is to-day some concordance in the drift of the reports from the headquarters of the three ar-mies holding the centre of the

stage in France, which is still the theatre where the most consequential operations are in progress. It is, however, to be noted that corroboration by one side of the claims of the other is, of course, largely negative. "The French advances from Verdun and Toul have been renewed," is the German official re-

port of yesterday's fighting on the eastern end of the line, and the communication of General Joffre, commander-in-chief of the French forces, agrees with it in the state-ment that his troops "have made slight progress" in that field. At the other end of the 250-mile line the Allies "are well holding their own," is the report from British headquarters, and the Berlin announcement seems

indirectly to admit this fact by announcing that the battles on this end have been indecisive. In the centre the French com-mander-in-chief claims slight progress. According to another sion of the report from the Ger-man headquarters, the French attacks from Verdun and Toul have

been repulsed. Confirmation of a news agency confirmation of a news agency story that the German right wing had been broken and was in flight is still lacking. Commentators show much skepticism of this report, although they consider the breaking of the German right wing to be only a natural result of the great turning movement, the present status of which is pictured in the French official antured in the French official announcement of yesterday. This shows that the Allies have pushed back the invaders in this region back the invaders in this region until the German right wing is virtually at right angles with the rest of the line. The fact that the German army headquarters admit that their great efforts to throw back the pressure of the Allies have proved indecisive is regarded in England as significant.

Route Through Park For L. E. and N. Ry.

Scott and Commissioner Goodeve, of the Dominion Railway Board, arrived here from Ottawa yesterday morning, and in the council chamber heard evidence regarding two cases with reference to the route through Galt of the Lake Erie and Northern Railway.

The first case dealt with the extension of the line through Jackson Park connect with the main line of the C. P. R. Objection to the proposed plan was made by the town and the Parks Commission on the ground that it would detract from the beauty of the park, and that this could be avoided by skirting Veverley Street. After hearing several witnesses and viewing the ground the commission granted the application of the rail ject, however, to certain conditions, including a passageway beneath the tracks into the park, if the Parks Commission so desires.
