### AUTO IS TRULY RURAL

The demand for automobiles that has kept the big motor plants working day and night is attributed largely to the prosperity of the farmer. The men of the soil no longer look upon the horseless carriage with distaste, as was the case in the early days of the industry. On the contrary, they are buying cars in even greater numbers than their cousins in the cities.

Even where the poorest roads prevail, the motor car is plowing through mud and sand and deep ruts every day of the year.

### DEMONETIZE FRENCH GOLD

**Is Method Suggested to Put Stop to Hoarding of Money**

By Courier Leased Wire.  
Paris, March 16.—A bill to demonetize existing French gold coinage, has been introduced in the chamber of deputies by Deputies Lenoir, Bouffandeau and Elmond. The purpose is to force hoarders to bring out gold estimated at 4,000,000,000 francs, which is still kept in hiding in spite of patriotic appeals to the owners to exchange it for notes. The bill provides for the issue of a new design which alone will have currency after the war. Special arrangements would be made in the case of French gold held abroad.

### American Warships May be Despatched to Destroy Submarine the Ocean

Washington, March 19.—United States to-day faced a pressing question of war with Germany over the immediate issue of the ruthless destruction of three unarmed American merchant ships. Technically an armed neutrality existed, but unofficially it was admitted that Germany had committed the "overt act" which precipitates a virtual state of war.

The next step beyond arming of merchantmen, now going forward, is the despatch of warships to clear the transatlantic lanes of submarines.

President Wilson was considering carefully all courses open to him. He might continue arming merchantmen as at present, until the special session of congress called for April 16, he might summon congress to meet immediately to authorize him to take aggressive action against the submarine menace, or he might declare forthwith that a state of war exists.

Some officials state he is ready has ample power for the last course, but that this would be subject to approval by congress.

Discussions from the various battle fronts took on added interest to-day as officials realized that the United States practically certain to become involved in hostilities with Germany. The war and navy departments particularly were confronted anew with problem of precisely what plans they shall follow if war comes.

Many Senators and representatives who remained in Washington to-day, expressed opinion that the German submarines' latest act constituted clear cause for war.

### TEUTONS USED GAS SHELLS ON MONASTERY

Bulletin, Saloniki, March 19.—London—A heavy bombardment of a monastery with gas shells causing a heavy loss of life, announced in a special official statement issued to which reads:

"Enemy artillery during Friday night threw a large number of gas shells loaded with asphyxiating gas at the monastery, resulting in heavy loss of life of civilians, including numerous women and children."

### SPRING COMING

Spring, according to the general reckoning, is due to commence earliest on Wednesday of this week, March 21. And the weather provides ground for hopeful expectations. Another of the Courier's robins was sighted this morning in the neighborhood of Mount Pleasant cemetery by Mr. A. G. Brown.

### COAL INSPECTION.

During the month of February eleven weights of coal were taken from different dealers, one of which was ninety pounds below weight the remainder, four were exactly correct weight, three were a little slightly, while three were above weight.

### Weather Bulletin

Toronto, March 19.—The distance, which will be over the St. Lawrence, Sunday morning, will be a cold while a cold has spread over Ontario and back in the West the weather is fair and mild.

Forecast: Fair and clear to-day. Tuesday fresh south winds fair.

### Zimmie

milder, winds fair
