## Township Councils

### DOVER COUNCIL.

The council met pursuant to adjournment at the Town Hall, Nov. 10th. The members were all present. The minutes of the last general and special meetings were read and adopted. The Dyer drain repair by-law was read and provisionally adopted. A by-law appointing deputy returning officers was read and finally passed. The reeve laid before the council two communications received by him from J. G. Rutherford, chief veterinary inspector, Ottawa. He strongly insists that the by-laws of the Township prohibiting hogs from running at large on the public highways, be put in force as allowing hogs to run at large on public highways is one of the most frequent and effective causes of the spread of hog cholera. It would be well for owners of hogs not to allow them to be at large on the public highways of the Township, as the owners at any time may be heavily fined by the persons having authority.

Moved by Trudell and Wright, that whereas Joseph E. Gore desires to sell his property in the 5th concession of Dover, and through part of which property the given road is diverted, and agrees to secure the municipal corporation of Dover to the amount of \$300 as an indemnity against any costs in the suit pending in the matter; resolved that the said Joseph E. Gore may dispose of his said property so far as his part of the agreement is concerned made by him and Eusebe Pissant with the

## SEPARATE COATS.

Basques are a prominent feature of the new fashions. Some of them are absurdly short, but no doubt they will get longer as the season advances.

The revival of the jacket is another item of interest. It is being made in pale colored cloths trimmed with braid and there are even smart models in silk, satin and velvet.

Separate coats of the loose paletot or sack type are now very modish, but much depends on the finish of these garments. For a plain coat the triple capes with turnover revers or collar in highwayman style are much in favor.

If the teacher could wipe away the blotches from her skin as easily as she does the caricature with its pimply face, she would be a happy woman.

Pimples and eruptions are more than a disfigurement to a woman—they make her sensitive and unhappy. The way to cleanse the skin is to purify the blood. Dr. Pierce's Golden Medical Discovery purifies the blood, and removes the clogging accumulations and poisons which corrupt it. When these are removed, pimples, boils, eruptions, sores, and other consequences of impure blood are entirely cured.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 16 West Main St., Battle Creek, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Doctor Pierce's Golden Medical Discovery to any one similarly afflicted."

Accept no substitute for the "Discovery." There is nothing "just as good."

The People's Common Sense Medical Adviser, 1008 pages, is given away. Send 31 one-cent stamps expense of customs and mailing only, for the book in paper covers, or 50 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

council as to the matter of costs in the case, on Mr. Gore giving proper security in the said sum.—Carried.

Moved by Trudell and Grant, that Charles P. Hart's account, \$3.25, be paid for services as commissioner on McFarlane drain.—Carried.

Moved by Trudell and Grant, that S. Winter, Jas. Fox, John B. Boucher and M. Bachard be each paid \$1.00 for their respective returns.—Carried.

Moved by Crawford and Wright, that R. Cooper's account, \$9.75, be paid for stationery.—Carried.

Moved by Crawford and Trudell, that the treasurer be instructed to credit the general account with the share of the surplus due said account by the respective drains, on which refunds have been made, and charge to each respective drain account, and that the clerk furnish him with a statement of the respective amounts.—Carried.

Moved by Wright and Trudell, that Harry Smith, collector, be instructed to receive the taxes from Edmund Matthew on lot 125, Wood's Survey, and to return the taxes on lot 126, which Mr. Matthew does not own, also to receive the taxes on lot 133, Wood's Survey, from Alex. Pappas and to return the taxes on lot 129, which is not Mr. Pappas's lot.—Carried.

Moved by Wright and Grant, that the clerk be instructed to write to J. G. Rutherford, chief veterinary inspector, Ottawa, farmers having hogs to move from one part of the Township to another part, or moving out of the Township and having hogs unfit to be dressed for market, would they be allowed to remove them on being examined by a government inspector and certified by him that such hogs are free from cholera.—Carried.

There were a number of accounts passed.

The council adjourned.

## AT FIRST GLANCE

It would appear that Local Remedies Would be Best for Cure of Catarrh.

A Chatham oil company, which has been formed only recently, is trying to lease several hundred acres here for mineral purposes. They talk of sinking several wells immediately.

Messrs. Brown, W. H. Stevens and St. Trotter have been around canvassing the farmers here.

George Baker, of Dresden, is visiting relatives here.

Mr. Love, of the 9th, had an auction sale of his farm stock and implements last Thursday. He will take up his residence in Chatham.

The mucous membrane is made and repaired from the blood, and catarrh is a blood disease and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrh poison, the secretions from the mucous membrane will become natural and healthy.

In this climate, thousands of people seem scarcely ever free from some form of catarrh; it gets better at times but each winter becomes gradually deeper seated and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best and certainly the safest is a new remedy composed of Red Gum, Blood Root and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these tablets with absolute assurance that they contain no cocaine, opiate nor any poisonous mineral whatever.

A leading druggist in Albany speaking of catarrh cures says, "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant, concentrated form all the best and latest catarrh remedies, and catarrh sufferers, who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full sized packages for fifty cents.

## THE REVIVAL OF THE BASQUE—Sack Coats.

Basques are a prominent feature of the new fashions. Some of them are absurdly short, but no doubt they will get longer as the season advances.

The revival of the jacket is another item of interest. It is being made in pale colored cloths trimmed with braid and there are even smart models in silk, satin and velvet.

Separate coats of the loose paletot or sack type are now very modish, but much depends on the finish of these garments. For a plain coat the triple capes with turnover revers or collar in highwayman style are much in favor.

or deep capes fitting tightly over the shoulder are bordered with passementerie and lace.

A fashionable cloth for coats is of gray and white, the knots and tufts of white intermingled slightly with black on a gray ground. This is exceedingly effective with black braid, silver or steel buttons and a lining of pearl gray silk.

Most of the newer coats have no neckband or collar and are more comfortable to wear with fur ties or boas than when the neck is high and close.

An ultra smart cloth coat is here shown. It has the triple cape collar and wide bell cuffs so fashionable. The collar and wide sleeves are of velvet and embroidery.

## JUDIC CHOLLET.

### BROWN POPULAR.

A Certain Shade of Dark Red Also Worn.

One of the newest tones of brown is very dark and has the particular reddish tint of newly plowed earth when quite wet. These red tones are more in vogue than the yellowish shades of last season.

A rich deep red will be worn by a few, but this is only for the dark pale woman who possesses many grays and can afford to wear her red one only on appropriate occasions.

A soft white felt hat recently seen was very much flitted on the left side, the vacancy being filled in with a huge black velvet bow. The brim was surrounded by a garland of cherries ending in a long trail of cherries in the back.

Drooping trimmings are the rage once more. The newest fruits for hat trim-

mings are apples, with long trails of them at the back, apricots, raspberries and grapes.

Grapes are also used in the hair for evening decorations. When hats have upturned rims, it is becoming to trim the inside with feathers the same color as the hat.

The empire gown in the cut is made of black dotted chiffon over white silk.

JUDIC CHOLLET.

Jim Dumps' small children liked to play At "having parties" every day; And so the merry little brood Had milk for tea and "Force" for food. "Twill keep the little folks in trim; What helpful play!" cried "Sunny Jim."
