"I was passing Dr. Hall's residence on Third street last Saturday," said Wm. Sturges to The Planet this morning, "when a small dog made a bolt from the doctor's verandah at a young horse I was driving. The horse was badly frightened and dashed into a telegraph pole near the sidewalk. I had a very narrow escape from being thrown out and being badly injured and the buggy shaft was broken. The dog didn't bark at all, but just ran at the horse. I think a dog like the ought to be tied up before doing further harm."

"We visited in Grand Junction for some days and then went to Salt Lake, and from there to Blackfoot, Idaho, where we visited my brothers, F. P. and A. G. Robert, for a few days. We then went on to Crambrook, British Columbia, where we visited my sister, Mrs. Peltier. British Columbia, what I saw of it, is a very rough country, and mostly forest. We had an elegant five hours' ride on the Vancouver river, which broke the monotony of railway riding. We enjoyed very much the beautiful mountain scenery in Colorado, Washington and Oregon, but did not think much of Idaho.

"The country is all right out there for fellows seeking an opening, but it's too far away from civilization for me."

### AWFUL BLOW ON THE HEAD

Doctor so Describes Injury Received by William Monck To-day.

The Deliberate Act of a Fellow Employee—Police Take a Hand.

William Monck was the victim of a brutal assault this afternoon at Drader's mill. He and Clarence Tickner, a fellow employee, had had some words. The dispute was apparently settled, and Monck had turned his back when Tickner picked up a huge slab and belted Monck over the head.

Monck was knocked out and lay unconscious for over an hour. Dr. Tye was summoned and dressed the wound.

The doctor does not think the skull is broken, but he says that Monck got an awfully vicious blow. The matter was reported to the police and P. C. Darr went up to investigate.

Judge Houston has issued a warrant for Tickner's arrest, which will be executed by Major Coogan at once. At 3.30 this afternoon Monck's condition was reported as very serious.

### GUIDE TO KING

Hall Caine Acts as Cicerone to Royalty on Island—Explained Historic Ruins.

London, Aug. 25.—The voyage of King Edward around Great Britain brought him to the Isle of Man to-day, and he landed there with Queen Alexandra and Princess Victoria. The party took carriages to view the historic sites, and the Welsh Dignitaries joined in the procession. Hall Caine, who happened to be stopping at his residence on the island, came along and acted as guide.

When they came to the interesting ruins he explained to the King the old ceremonies which occurred there. There were many holiday-makers on the island, and they displayed great enthusiasm. When the Royal party re-embarked on the yacht they were cheered till they were beyond earshot.

### PECULIAR TREE

Chairman A. E. Mounter and Ald. Geo. G. Taylor, of the Parks and Cemetery committee, and Caretaker Peter McMillan, of Tecumseh Park, were inspecting the trees on the east side of the park to-day before having every other tree along that roadside taken out. They ran across a rather peculiar thing in one of the trees, which seemed to have a post growing up in it. Caretaker McMillan said it was just the tree, but could not persuade the aldermen to his belief. This brought Ald. Mounter through to a phenomenon in the tree
