The Arless Improved Horse Stall

Carrying Horses at Sea. nd on Railway.
ARLESS IMPROVED FLOORING

CONVEYING CATTLE AT SEA.
The subscriber begs to inform the public
that he has patented and is manufacturing
the above several apparatus, and will be pre-
pared on the opening of navigation to supply
the trade with any number. He is happy to
be able to announce that he has succeeded in
producing what has hitherto been deemed
dear by competent experts to be as one of the
most important and valuable apparatuses
for Shippers of Horses and Cattle ever yet
offered; and which, in view of the greatly in-
creased trade anticipated during the coming season,
cannot fail. He fathers himself of a liberal
patronage from Shippers, one and all. AP-
ARLESSON is called here to our very success-
ful mode of conveying cattle on ship board, in-
stead of by the last summer, having prepared
stalls for upwards of 300 head of cattle, by
means of which, known in this country from
being on board a ship, will do so by ourselves,
the season named, and are now known on
shipboard as the

"ARLESS YOKE."

And also prepared Stalls and Boxes
for 150 Horses.

We shall be prepared at the opening of naviga-
tion with a full complement of experienced
mechanics, under Mr. Arless's own supervision,
and from his very great experience of over 40
years as a vessel; in the port of Montreal.
We hope to have a share of the liberal pa-
tronage extended to us the past season.
Thanking our friends for past favors, we beg
to state that several boxes may be sent, rates
of freight and cost of fodder obtained, at our
office, 3991 Commission Street. Orders re-
spectfully solicited; and all communications
by mail will receive immediate attention.
