BISLEY MEN EXPECTED.

Hamilton Will Have Full Contingent at Long Branch.

Secretary Miller Looks For Fully Four Hundred Entries.

The Prize List Amounts to \$5, 800 Besides Trophies.

Hamilton will be represented by about 40 crack shots at the Ontario Rifle Association matches which begin at Long Branch Rifle Ranges, Toronto, on Tues-day next. The Thirteenth will have about 25 and the Ninety-first probably about 15. The Thirteenth entries will include the three Bisley men who shot s well in the national matches last month.

well in the national matches last month. Although they have not arrived yet they are expected any day. Sergeant-Major Huggins sailed a week ago and Freeborn and Mitchell left last Friday. All should be here in good time.

Captain Miller, Secretary of the O. R. A., expects to have at least four hundred entries, which is about fifty more than last year. The increased interest in rifle-shooting which is being manifested this year is attributed by the Secretary largely to the success of the Canadian team at Bisley.

Following are some of the other units which will be represented at the meet: 38th Regiment, 5 entries; 24th Regiment, 5; 48th Highlanders, 30; 10th Royal Grenadiers, 35; Queen's Own Rifles, 35; East York Rifle Association, 6; 7th Regiment, 6; 31st Grey Regiment,

Board was called at its earliest convenience to decide on some plan to stamp out the disease. Sixteen houses had already been placarded.

Under present conditions the Board finds itself under peculiar difficulties in battling with such an epedemic. There is no isolation hospital to which the patients can be sent, and it is impossible to send so many to the city hospital. Dr. Glendenning suggested that a large tent be put up for them, but the medical health officer couldn't see the necessity of doing this, as the homes were sufficiently ventilated, and a good place for them. He informed those who hadn't yet taken the disease to thoroughly fumigate themselves, and stay away until the trouble was over. Every precaution would be taken lest the disease develop into a maligant form.

The Board instructed Dr. Alway to placard any house which hadn't been covered already, and to carefully watch any shome that gave evidence of new outbreaks. On the recommendation of the Medical Health Officer, the Board passed a resolution to have the churchs and Sunday School closed until the opening of the Public Schoool, by which time it is thought the disease will be wiped out.

The cause of the outbreak is a mystery. The members could not believe that it sprang from the nuisances mentioned in the letter written by residents of Crown Point, as the inspection made by the board and Dr. Alway revealed nothing sufficient to cause it. It was suggested that the trouble might hape been started by children from the city interminging with those of the lity interminging with those of the lity. ELEPHANTS LOOSE.

Eleven of Them Terrorized People of a Kansas Town.

Clay Centre, Kansas, Aug. 11 .two hours yesterday the people of this town were terrorized by eleven elephants which escaped from a show and stampeded through the streets. The trouble started when a small dog bit the leg of one of the elephants. The beast at once began to trumpet, and, breaking away from its keeper, ran away. Ten others followed. Before the animals were finally captured a showman was seriously hurt.

O. F. Had a Jolly Outing There Yesterday.

is a congested state of the sta The annual picnic of the I. O. F. at Dakville yesterday proved a success, and large number enjoyed the outing. When the party arrived at its destina tion no time was lost in getting things going, and the first event on the pro gramme was a soft ball game between Court Hamilton and Court Oronhyatekha, and it was a hummer from start to finish. Both sides played good ball, although a few of the decisions were questioned, and some hot words were used to add to the excitement, and the game ended with a cheer from each to the other fellows. For Court Oronhyatekha Rousseau tossed, and he also did some very remarkable base-running. He proved a good "bouncer" on the line. Cann was another of the good ones, but as he was a Cann, it was deemed advisable to "can" him. On second thought he was allowed to play his position, as his work was good. The races were all well contested, and the prizes for the different events were well worth trying for. The winners were as follows:

HUNTS BRUTE.

Search For Slayer of Anna Schumacher is Continued.

Rochester, Aug. 11.-Since just before on to-day county, town and city of ficials, with many farmers and laborers, some of whom are armed with shotguns, have been searching marshes that extend from near Holy Sepulchre cemetery west along the shore of Lake Ontario to a number of snore of Lake Ontario to a number of pends, for a man who, it is thought, may be the murderer of Anna Schumacher, the seventeen year-old girl who was assaulted and killed at the cemetery last Saturday afternoon. At times to-day the number engaged in this hunt is estimated to have been 150 men, and to-night a posse of about 50 farmers and officers is continuing the hunt, as it is

Reputable witnesses have testified at the inquest that a man was seen with or near the girl in the cemetery last. Saturday, and the man for whom search is now being made is said to resemble in person and dress the man said to have been with the dead girl, except that when last seen he was wearing a straw hat, whereas the man said to have been with Miss Schumacher wore a dark hat.

At the inquest this afternoon the murdered girl's mother, Mrs. Mary A. Schumacher, and four unmarried sisters told of Anna going to the cemetery and of the search they made for her there. They followed a secluded path and believe that they came to the shalllow grave where the body lay, but did not know it as such.

Young Man Came to Find Girl Had Married the Other Fellow.

Strathrov, Aug. 11 .- For a young man to take a fast train to London, accompanied by his best man, expecting to find a happy bride to be awaiting his arrival, is one side of it, and the other side is he got there two hours late and found that she had changed her mind and married the other fellow.

This is the fate which was handed out to a Strathroy young man yesterday. There are all sorts of rumors afloat as to what the would-be Strathroy groom was going to do, but he finally recovered and it's all off.

MECHANICS' TOOLS—The first or better quality of Carpenters' Tools is that which regular carpenters use. To distinguish these we call them Mechanics' Tools, They are necessarily of the finest quality and of the highest prices. We carry a full assortment of this quality.

quality.

HOUSEHOLD TOOLS—Good, medium quality make up the other division, and consist of such tools as are suitable for household or domestic uses. These, of course, do not need to be so expensive as carpenters would buy.

By way of illustration of what we mean by the above, take a Handsaw, for instance. A Mechanic's Handsaw sells here for \$1.50 each, and is, of course, the highest quality and best manufacture, and carries with it an unconditional guarantee. This saw is more expensive and perhaps four inches longer than need be for domestic or household or home use, and, therefore, for these latter purposes we recommend an excellent Handsaw which we offer for only 90c each.

As with Handsaws, so with all other tools, such as Hammers.

As with Handsaw was to with all other tools, such as Hammers, Squares, Braces, Axes, etc., and in these days of manual training schools it is not necessary to remind fathers that it is wise to supply their boys with a few tools for use about the home. if only to find out if a boy be mechanically inclined or otherwise. WILLRUIN TOWN

Springhill Depends Entirely on the Mining Industry.

Strike is Costing the Previncial

Government \$200 a Day. Springhill, N. S., Aug. 11.-The aver age daily output of the Springhill coal mines is 2,000 tons, but now that the strike is on not a pound is being raised, and it looks as though it would be a long time before anything but equipment would come up. The company's officials are taking out the horses from the mine as fast as they cah, and by to-night two-thirds of the animals had been brought to the surface.

Another thing the officials are doing

Another thing the officials are doing is keeping the pumps, engines and fans going. To do this it takes about twenty persons, though ordinarily about 100 men are required for this kind of work. The outlook in Springhill fills the business community with dread for the future. The only industry is mining, and this is the sole mine. When it closes, no other industry is left. Springhill is a town of 7,000 population, with a good water system and other modern civic improvements. What will become of the town is a problem, for the company's decision not to reopen the mine unless at a 10 per cent. reduction in the men's pay is said to be unalterable, and the men profess equal determination.

The United Mine Workers are opening relief headquarters. The scale of pay from this source will be two dollars.

that in addition to this they will allow no case of real distress to exist.

The loss from the strike in Springhill and in Glace Bay to the Government in royalties will likely reach \$100,000.

J. R. Cowan, manager of the company, went to Halifax to-night. The mine may be abandoned to the Government to keep it clear, and thus relieve the offi-cials, for the railway men will not take the place of the strikers.
